

**CAMP KAWANHEE  
FOR BOYS**

## FOREWORD

 THE purpose of this booklet is to give a comprehensive and fair idea of what CAMP KAWANHEE offers a boy. A visit at camp will convince you that we have not over-stated its advantages.

The spirit of the camp is wholesome and vital. We are neither struggling for recognition nor resting on past achievements. We are earnestly striving to make KAWANHEE each year a better place for boys to live.

# A Message to Parents

## SOME REASONS WHY

A season spent at Kawanhee will pay dividends to  
the boy, to his parents and to society.

**B**ECAUSE it will get him away for a season from the hustle and bustle of superficial city life that so often tends to kill the best that is in a boy, and will give him a chance to taste once again the simple life of his sturdy forefathers.

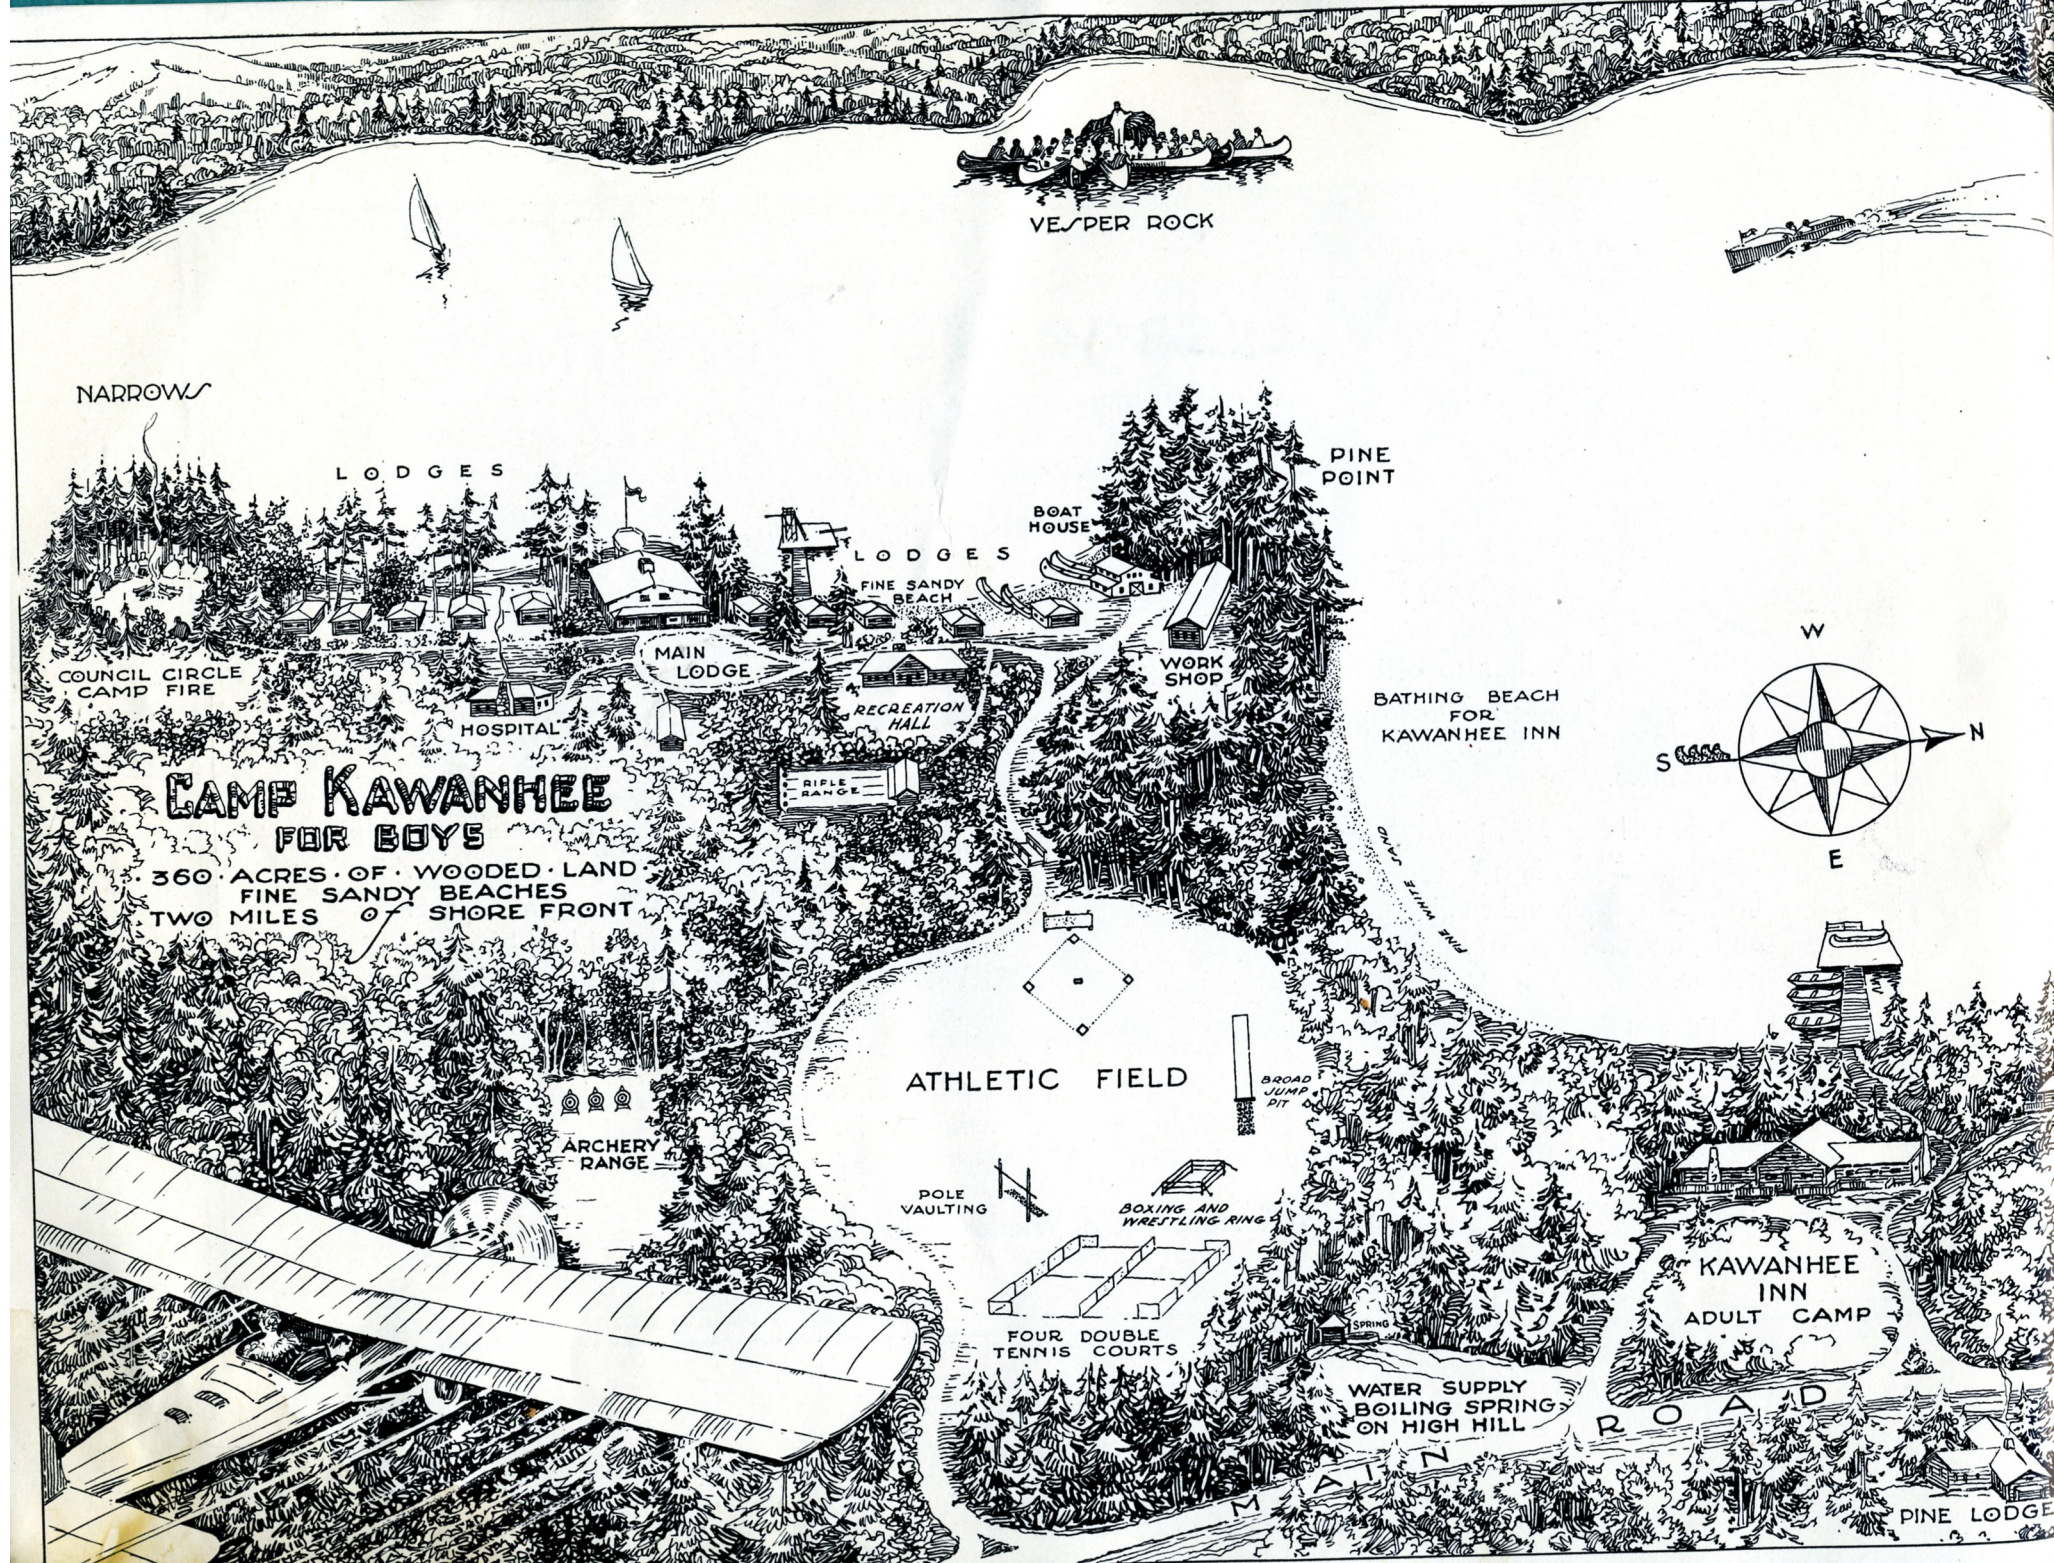

He will live for eight weeks on the shores of a beautiful lake in a climate unsurpassed for its invigorating air and sunshine. Here he will work and play and grow big and strong in the fullness and beauty of God's great out-of-doors.

He will associate with a fine corps of mature men who are chosen because of their high ideals and their sympathetic understanding of boy-life. He will receive the type of individual attention

which his age, development and interests demand. The molding of strong manly character will be stimulated through his contacts with these men — youth instinctively loves to imitate what it admires.

His vacation will be one of usefulness. He will work for something definite and worth while. He will be taught the value of patience and a "job well done." If he is timid and lacks confidence to "put across" the things he secretly longs to accomplish, he will learn through the joy of camp life to express himself and reach his goal. With new vision and understanding he will return to his home in the fall, a lad of courage and bigger powers.

You Will Have Put a Window Into His Soul.

# Location and Environment

KAWANHEE COVE

The surrounding country is wild and rugged and appeals to the adventurous spirit of youth. Just to run, to swim, to shout like a wild Indian on the warpath, to follow trails over lofty peaks, to spy on deer and moose as they come to the lake to drink, to investigate beaver dams, to capture woodchucks and porcupines, to fish for trout in twirling rapids, to peep into lovely birds' nests, to sit by a glowing camp fire at night, to roll up in blankets under the stars and listen to strange noises of the deep woods, bring hundreds of new experiences, which make every fellow worth his "salt"—a bigger, better, more self-reliant man.

**C**AMP KAWANHEE is located on the east shore of Webb Lake, at Weld, Maine — eighty-five miles north of Portland and twelve miles from the nearest railroad. It comprises three hundred and sixty acres of timber and has a shore line of woods and sandy beaches extending over two miles in length.

The favorable location of the camp, at the entrance to the "Narrows" of the lake has been pronounced by men qualified to judge camp sites, as one of the finest natural settings for a boy's camp in the New England states. There is a protected cove and sandy beach for safe swimming, gravel subsoil and good drainage, pure drinking water from a hill-side spring, miles of pines and pointed firs, an unsurpassed view of mountains and glorious sunsets, invigorating air and sunshine, cool nights and refreshing sleep.

Lake Webb is five miles long and two miles wide, and is completely surrounded by mountains. It is fed by springs and mountain brooks. The water is clear and pure and never too cold for the early morning plunge. During the past season the temperature of the water averaged between 72° and 78° at the eleven-o'clock swim period.

Fishing is Good

*One reason, perhaps, for the success which Kawanhee has enjoyed during the past eleven years, may be attributed to the beautiful lake upon whose shores it is located. There is a picturesqueness and touch of wild life about it all that makes a special appeal to the finer instincts and imagination of every boy who camps here. It is considered by many tourists to be Maine's most beautiful lake.*

# Health and Food

**Healthfulness** The invigorating air and sunshine of Maine are unrivalled. Each year many of our boys, who come to camp in a run-down condition, make excellent improvement during the season. The clear mountain air, rich with odors of pine and fir trees, and the outdoor life and wholesome food, have made Kawanhee a place of abounding health.

A long night's rest of ten hours, and a rest period of forty-five minutes, preceding and following the noon meal, prevent any possibility of over-doing.

*The camp is absolutely free from hay fever and asthma. Many boys enroll each year for this reason alone.*

**Physical Improvement** Each boy receives a physical examination upon entering camp which often results in the discovery of conditions not fully realized and, in some cases, unknown by parents. On the basis of this examination, a scientific regime is laid out by the camp doctor, physical director and dietitian, and put into that particular boy's plan of camp life.

Individual attention is given all boys under weight, and special diets are prescribed if necessary. Gains of 10, 15 and 18 pounds have been recorded during the season.

**Sanitation** Our "**Class A**" sanitary rating, awarded by the State Sanitary Inspector, ranks among the highest for camps in Maine, and has been given Kawanhee for the past eleven years in succession. This record merits careful

consideration by parents who are interested in placing their boys in a safe camp for the summer. Flush toilets are a part of the equipment.

Drinking water is secured from a hillside spring. Its purity is beyond question. It is tested each year by State authorities.

**Food** The purchase of food and the planning and balancing of meals are under the direct supervision of the wife of one of the Directors, who has been camp dietitian for the past ten years. The food is excellent. No expense is spared to make it appetizing and nourishing. The finest of fresh western meats are served. Fresh fruits and vegetables are procured from nearby markets. Milk and cream, from a tested herd, are obtained from a neighboring farm, and are furnished in abundance.

**Camp Nurse and Hospital** Our hospital has all necessary conveniences needed in a boy's camp. There is a room, with fireplace, for six beds, a fully equipped bath with hot and cold water, a full supply of emergency materials for common ailments and the headquarters for our graduate nurse and camp mother.

Our camp physician, a Harvard graduate of many years experience, is within twenty-five minutes drive from camp. A new hospital at Farmington, one of the most modern in the state, can be reached in an hour's drive. In case of serious illness, parents are wired all details at once.

"MA" FRANK'S TENT  
And a Host of Loyal Admirers

*One feature, which has contributed in many ways toward the success and popularity of the camp, is the affection and care which "Ma" Frank has given Kawan-  
hee boys during the past nine years. Parents may feel assured in sending their  
boys to Kawanhee that they will be under the watchful eye of a mother who knows  
and loves boys.*

GREAT FUN SAILING THE "SEA GULL"

as Camp Mother throughout the season. She gives special attention to the smaller boys in camp in way of general cleanliness, seeing that they have sufficient covers for the night, sewing on buttons, patching torn trousers, making sails for a new boat, or administering affection where it is needed. It would be impossible to evaluate the loving service which she renders Kawanhee boys.

**Camp "Dad"** The father of the Camp Directors is Camp "Dad." He is known as "Pop" throughout the camp, and is a friend to all the boys. He is especially interested in the care of the property. Much credit is due him for the Class "A" rating in sanitation which is awarded the camp each year.

# Management

## *A Unique Family Organization*

**Directors** Camp Kawanhee is under the joint ownership and direction of two brothers, George R. Frank, Director of Manual Arts, Public Schools, Columbus, Ohio, and Raymond C. Frank, Boy Scout and Boy Club Leader, Englewood, N. J. They were born and reared in Maine, and are trained workers with boys. Their combined experience in professional work with boys of early adolescent age covers a period of thirty-eight years.

**Camp Dietitian** Mrs. Florence Frank serves as Camp Dietitian. She has made dietetics, as it relates to the proper feeding of growing boys, a careful study for several years. Her personal interest in the success of the camp is largely responsible for the excellent food and carefully balanced meals served.

**Camp Mother** "Ma" Frank, mother of the Camp Directors, serves

#### VESPER SERVICE

Held on the lake at twilight, boys and counselors gather in boats and canoes about this rugged old rock, known to all the boys as Bass Rock

**SUNDAYS.** The religious life of Camp Kawanhee is non-sectarian. Sundays are spent quietly. Every fellow adorns himself in his cleanest "whites" before breakfast, and at 10:30 we assemble in our outdoor chapel among the trees by the shore of the lake. The service is simple and deals directly with the problems of a boy's daily life.

Following the noon meal of chicken and all the "fixings", the usual rest hour is observed. The Sunday letter is written and plans are made for short trips, sailing, tennis, riding, etc.

Transportation is arranged for boys of Catholic faith to attend church at Wilton, twelve miles from camp.

Throughout the whole Kawanhee program there is an unobtrusive yet very positive religious influence. We seek leaders of broad sympathies, with an inspiring message for all, men who read "Sermons in Stone" and see good in all God's handiwork. Our camp chaplain understands the spiritual needs of boyhood. Possessed of a virile personality, he enters into the physical and social life of the camp as one of its strongest leaders.

## Buildings and Equipment

*Rated by Government Inspectors as the finest equipped gentile camp for boys in the state.*

**E**ACH building is strong and substantial and large enough to meet the needs of the camp. The dining lodge and ten sleeping lodges are built of heavy pine logs. All buildings, with the exception of the sleeping lodges, are electrically lighted.

**The Dining Lodge** has a well-equipped kitchen, storage, refrigeration and cook room, and will seat comfortably one hundred boys and counselors.

**The Sleeping Lodges** accommodate from seven to nine boys and a counselor. They have double wood floors, are thoroughly screened and open along the sides, and are absolutely free from dampness in rainy weather. They are equipped with standard army cots and mattresses.

**A Recreation Hall** provides for wet weather games. It contains a large assembly room, camp museum and nature room, library, dark room, a large stage, and the camp store and post office.

Two massive nine foot fire places keep the building warm and cheerful on rainy days and chilly evenings.

**Our New Shop Building** has a work room 24 ft. wide and 62 ft. long. There is an elaborate outfit of hand tools,

power machines, benches and vises. On several occasions, during the past season, sixty boys were accommodated in the shop at one time. Such facilities solve the rainy day problem at Kawanhee.

**The Hospital Building** is on high ground, facing lake and mountains, and has plenty of fresh air and sunshine.

All necessary conveniences are provided, including a room for first-aid treatment, a bath room, equipped with hot and cold water and flush toilet, and a room, with fireplace, for six beds.

**General Sports Equipment** includes a flotilla of 24 canoes, twelve row boats, five sail boats, two motor boats, and two large war-canoes. There is a diving tower with a high board twelve feet from the water and a low board four feet from the water. A substantial 8 ft. dock

extends from the shore to the tower.

In athletics, ample space is provided for tennis (four courts), basket and volley ball court, three baseball diamonds, a jumping runway, high jump and pole-vaulting pits. Boys eager to improve their athletic abilities have all the advantages of fine equipment and expert coaching.

# A Day at Kawanhee

## Boy Life at Its Best

**R**EVILLE sounds at 7:00 o'clock, after ten hours of refreshing sleep. Every fellow is up with a shout. There's a rush for the beach, a dive from the tower and the morning dip is over in five minutes. Breakfast follows at 7:30. And such a meal! There's fresh fruit, cereal, rich cream, cocoa, flap-jacks and bacon, served in quantities to meet the needs of the most ravenous of the Kawanhee tribe. Finicky appetites are soon forgotten. By 8:00 o'clock everyone is filled and satisfied and is ready for the day's program of work and play.

Breakfast over, each boy does his bit in cleaning up for lodge inspection, which follows in half an hour.

Instruction activities begin at 9:00 o'clock and take up the entire morning period. And what a variety of activities there are! It may be on the lake learning to row and handle a canoe, or sailing a new boat made in the shop, or flying an airplane just completed, or down through the Narrows after big fish, or on the athletic field in a close game, or mastering a difficult stroke in tennis, or off in the woods with a bow and arrow, or learning to box and wrestle and how to shoot, or how to ride and manage a horse, how to cook a meal over an open fire and to build a lean-to or a log cabin, or learning the trees, the birds and the flowers, completing merit tests in scouting, or rolling a pack for an over-night trip, or developing a picture for dad and mother.

The 11:00 o'clock swim comes just at the right time. Every one cools off after a strenuous morning in the open. The air is full of joyous shouts of happy youngsters. Some are learning to swim, others are mastering new strokes and dives, while a few are stretched out in the sun on the warm beach, hoping to

look like young Indians before camp closes. By 11:30 the all-out whistle sounds, after which, boys and counselors return to their lodges for thirty minutes of rest and sleep.

Dinner at 12:30 is followed by an hour's rest period—just enough time to finish those chapters of "The Sea Hawk," write a letter home, take a nap, or make final plans for that new cabin across the lake, or an over-night trip on the mountains.

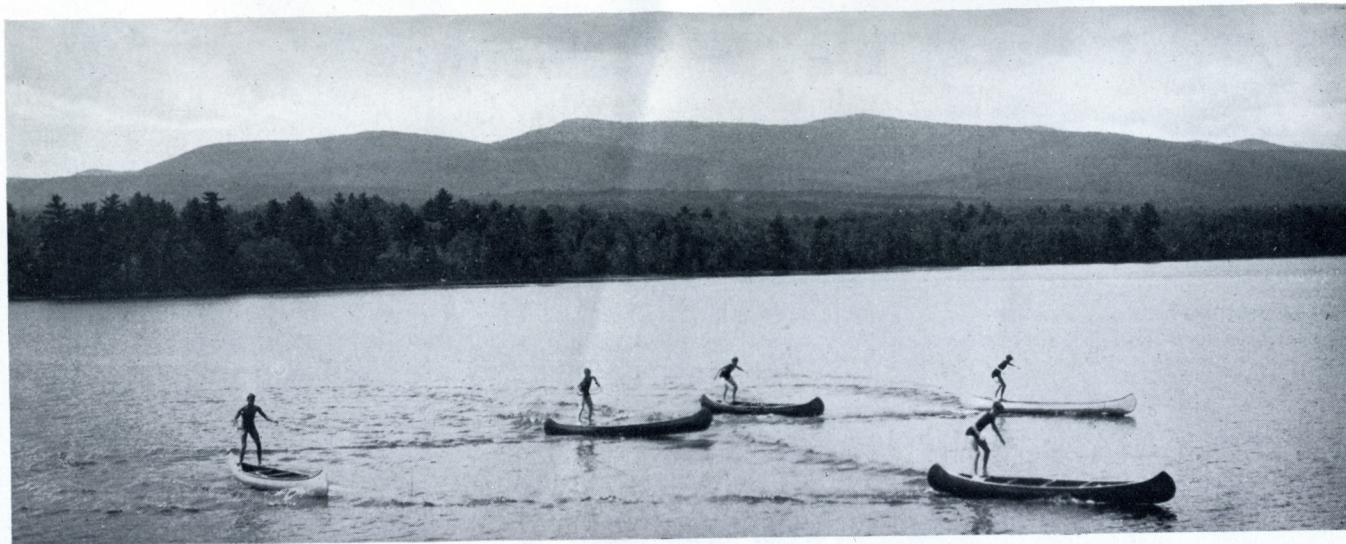

Three afternoons each week are planned for a baseball league, water sports and athletic meets. On the remaining afternoons, boys may choose what they would like to do. The 4:00 o'clock swim is a necessity, especially after one of those tie games in baseball. Before a boy realizes it, the sunshine of another day draws to a close, full of happy experiences never-to-be-forgotten.

Supper follows at 5:30, after which boating, fishing, baseball, tennis, hikes to the village, etc., are enjoyed.

As the shadows lengthen and the stars appear, we gather for our camp fires at Council Rock. A simple ceremony marks the lighting of the fire. There is singing together—happy and reverent songs, sung to the finest old tunes. It is here that the heart of camp life glows as boys and men sit before the blazing fire, enjoy their games and stunts, and recount the day's experiences.

Following a quiet story by the fire light—as the flames die down and the embers begin to glow, we rise, and in the stillness of the forest, sing our good-night song. Such a gathering, day after day, becomes a living force in a boy's life.

BOYS WHO WON A PADDLE AND CANOE PRIVILEGES—1931

**C**ANOEING—To become a canoe man at Kawanhee each boy must pass rigid tests, and win his right to a paddle. Marks of decoration indicate definite accomplishments. To win his "C" he swims the cove,  $\frac{1}{8}$  mile, and may then use a canoe in the cove, only. If he swims the lake in front of the camp,  $\frac{1}{2}$  mile, he receives a gray and maroon bar painted di-

agonally at the top of the blade. After passing a thorough canoe test, two bars at the bottom are added which give him the privilege, if permission is granted, to use the canoe on any part of the lake. Junior Life Savers and Camp Emblem winners, receive a "J. L. S." and a "K" between the top and bottom bars. Other decorations are also permitted.

# Aquatic Sports

## Swimming

Every boy learns to swim at KAWANHEE. The day's program begins with an early morning plunge for five minutes before breakfast followed by the regular half-hour swim periods at 11:00 o'clock and 4:00 o'clock.

The morning swim is used wholly as an instruction period in new strokes, diving, Red Cross tests, etc. Beginners are given special instruction in a place provided for them, and learn to swim within two or three weeks after camp opens.

Special aquatic meets are held Wednesday afternoons. This is the big event of the week, as Greys and Maroons compete for honors. There are rowing contests, canoe races, swimming, diving, water polo, canoe tilting, aqua planing and many other interesting stunts. Every boy in camp takes part. The shore is lined with parents and friends who add much to the spirit of the occasion.

## Boating

Next to swimming, boating ranks among the finest sports in camp. It is a pleasure that every boy looks forward to long before camp opens. Before our boys are considered competent to use a boat, carefully graded tests in swimming must be passed. Instruction in rowing, and the safe methods of handling a canoe are given each morning in regular class periods. The small boys in camp, whom the instructors believe are not strong enough to handle a row boat or canoe, are not permitted to take one out beyond the cove, even though they have passed their swimming tests.

## General Safety

Many mothers hesitate about sending their boys away to camp because of the fear of possible accident. It may fairly be said that at Camp Kawanhee they are safer than most boys are at home, because of the individual attention which they receive from mature men.

During swim periods, men are stationed on the docks, diving tower, beach, and at least two in patrol boats, ready to give instant assistance should need arise. No boy is permitted to enter the water until the guards are in position and the whistle has blown.

Bathing conditions are ideal for small boys and non-swimmers. The beach slopes gradually into the water. There are no deep holes or shelves. The swimming cove is protected in rough weather from the full sweep of the lake by Pine Point Ridge, which forms a natural break-water. Even when white-caps are running beyond the Point, our cove is comparatively calm. This element of safety assures the daily sched-

PLENTY OF BOATS TO MEET THE NEEDS OF A FULL CAMP

ule of water events.

**Rigid rules** are enforced affecting the use of boats. A beach guard is on duty from the time the boys are up in the morning until the last boat is checked in at dusk. Those desiring to use a boat must report to the guard, who has a list of the swimming tests passed by each boy, and the boat privileges each has won. Boys who are careless in the use of boats are denied boat privileges for a week.

Our entire safety program teaches many valuable lessons in discipline. No boy does just as he pleases. He is taught to respect the rules of the game and the rights of others.

JUNIOR RED CROSS EMBLEM WINNERS—1931

**LIFE-SAVING.** The six boys shown in the above cut successfully passed their Junior Red Cross tests which required hard work and perseverance throughout the season. It represents a great accomplishment. Special instruction was given each morning during the regular swim period.

Each one knows just what to do in approaching a person in the water who has lost his head—how to make the right approach to break the front hold, the strangle hold, and the exact things to do for resuscitation. The course is taught by our staff of swimming instructors who are Senior Red Cross Examiners.

*Athletic meets are held Saturday afternoons when Maroons and Greys compete for honors. The rivalry is keen but good natured. The motto is: "Sport for sports sake."*

## Athletics, Plays, and Sports

**T**HE excellent physical improvement made by many boys at KAWANHEE may be attributed to the outdoor exercise with its keen element of competitive sports. There is good wholesome fun in all the games and races. The friendly rivalry experienced shows a boy how he measures up with his fellows in a general test and stimulates him to gain the things he lacks. Athletic meets are held each week.

Ample space is provided for tennis (four courts), for basket and volley ball, for baseball (three diamonds), for the type of football coaching suitable for summer camps, for coaching in track, sprints, hurdles, high jumps, broad jump, pole vault, a ring for boxing and wrestling, and horse-shoe courts. Boys eager to improve their athletic abilities have all the advantages of fine coaching and instruction.

**Baseball** is played by every boy in camp. It is the favorite afternoon and after-supper sport. Three diamonds are in use most of the time. Teams and leagues in each division are organized soon after camp opens. Challenges between lodge groups are usually made and accepted during the supper hour. Before the dusk of evening settles, the game is on in dead earnest, with most of the camp cheering from the side lines.

**BROAD JUMP**  
Good Form Stressed

**Tennis** has always been a popular game at KAWANHEE. Some strong players have been developed. Special classes are formed for beginners, many of whom show marked improvement during the season. In 1927, one of our boys in the Junior B group, who had never played tennis before coming to camp, won the medal in his division. Two counselors, who are excellent players, devote their full time to instruction work. On open periods the four clay courts are filled to capacity.

### Careful Competition

No boy is allowed to over-tax his strength. The camp is organized in three distinct age groups—Midgets 7 to 10, Juniors 11 to 13, Seniors 14 to 16. Each group is sufficiently large to provide the right sort of competition with boys the same age or ability, yet small enough to allow individual instruction and supervision.

**A Flexible Program.** The organization of the camp and the equipment are such that boys may have all the athletics, play and land sports which they desire, or they may follow a less strenuous program in which emphasis is placed on such sports as sailing, rifle practice, scouting, campcraft, shop work or fishing, requiring less physical exertion.

## Shop Work

OUR new shop is the busiest place in camp. On rainy days it is filled to capacity. Many happy and profitable hours are spent here during the season. Shop work, when skillfully presented and sufficiently diversified, makes a valuable contribution in the education of every boy. Two experienced teachers of manual arts devote their full time to the work. The shop is open from 9:00 A. M. to 4:00 P. M.

Many parents find it a pleasure and revelation just to "sit in" and observe a room full of boys at work on a busy day. From one corner of the shop comes the sound of the forge, the ring of the anvil and shower of sparks, as some young enthusiast fashions a hunting knife, wrought from bar-steel of finest qual-

ity. Across the room, other youngsters are learning the secrets of hammered metal work. There are copper nut bowls and pewter plates for mother, ash trays for dad, arts and crafts lanterns, paper knives and beautiful book ends etched in heavy brass. In the larger section reserved for wood work, racing yachts and speed motor boats are taking shape, which the builders hope to finish in time for the big regatta, held the last week of camp. There are lemon wood bows, with horn tips, receiving a final polish, and rustic tables, birch-bark bird houses, canoe paddles of spruce, boomerangs of oak, and a variety of hand carved boxes. This is indeed a wonderful place, where surplus energy is burned up in creative thinking and worth-while doing.

EXHIBIT OF ARTCRAFT METAL WORK—1931

*Boys at Kawanhee are taught to do beautiful work in copper, brass and pewter by a trained artisan of several years experience. Latent talent of real merit is discovered in many boys each season. In order to win his camp emblem a boy must do satisfactory artcraft work in a least two different metals.*

## Boat Building

*Our model boat building program is a big success each year. There is pronounced educational value in this type of hand work. Accuracy is stimulated, for a boy knows instinctively that a lopsided boat will not sail properly, and that a better made boat will defeat the poorer made one.*

THE ANNUAL REGATTA

## Nature

EVERY good camper knows the secrets of out-of-doors. Mountain and valley, lake and stream, forest and meadow are the books from which he reads the laws of nature. His little brothers of fur and feather teach him many things, and he understands the language of the trees and brooks.

Kawanhee is a treasure house of Nature. Fragrant orchids and graceful ferns grow in the woods. The lake furnishes many interesting specimens and the upland meadows are rich in insect life.

In the Swift River valley, a colony of beavers are living. A series of dams in a mountain stream show their remarkable skill as construction engineers. Their hillside food store, mortar beds and early morning dip are sights which place the observer among the privileged few who have seen beavers at home.

The beginner learns the common trees, flowering plants, insects and birds. The boy who is farther advanced may collect and study in detail any of these groups.

Amid such natural opportunities, the camper sees and appreciates the wonderful Plan of Nature, which functions so efficiently all about him.

## Scouting

THE country surrounding Kawanhee is ideal for all phases of Boy Scout work. There are choice spots in the deep woods to build cabins and bridges, required for the pioneer Merit Badge; to build fires, pass cooking, tracking, judging and nature requirements, etc., while on the lake, each boy is coached in passing rowing, canoeing, sailing, swimming, diving and life saving tests.

Practically all Scouts advance in the work during the season. Some spend their entire time in passing merit badge requirements. Several boys each year join the Scouts while in camp and pass many tests before returning to their home troops in the fall. During the past four years six boys have won their Eagle Badge at Kawanhee.

THE NATURE TRAIL

**KAWANHEE STABLES**

**THE INTERIOR**  
Well ventilated, clean and comfortable

**R**IDING has become one of our most favorite sports with many boys. The nature of the surrounding country contributes to its popularity. On a cool snappy morning, mounted on his favorite horse, a thrill is in store for KAWANHEE boys as they ride along quaint old country roads, or follow a woodsy trail to the mountains.

Our riding master will not take any boy out of the camp

grounds until he has mastered the fundamentals of riding and can control his horse. There is a riding ring on the grounds and also brush jumps over which the more experienced rider may learn to take his horse before the season closes.

Riding, bridling, saddling, feeding and the general care of a horse are taught by an experienced instructor of riding. Neatness and orderliness are stressed at all times.

AN EMBLEM REQUIREMENT IN CAMP CRAFT

*Construct a lean-to, sleep in it over night, cook breakfast over an open fire. There is ample room for this phase of healthy out-door life on our three hundred and sixty acres of forest land.*

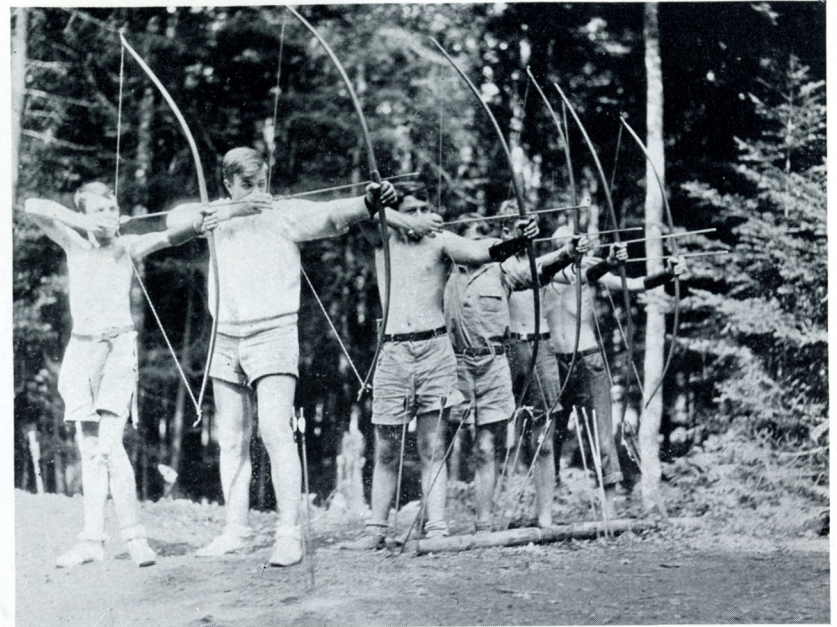

CABIN UNDER CONSTRUCTION

**Camp Craft** in its most vigorous forms is encouraged at Kawanhee. The above cabin was built entirely by the boys, including felling the trees, notching the logs and rolling them into place. It is equipped with a fire place and bunks and is used through the season by boys who enjoy the thrill of spending the night in the deep woods.

SIX POINT RANGE

ARCHERY IS VERY POPULAR

**Target Practice** is open to all boys over ten years of age. Rifles and ammunition are kept under lock and key, and are used only at scheduled hours under the careful supervision of a special instructor. The range is conducted under the rules and regulations of the National Rifle Association of America. Medals are awarded throughout the season.

**Archery** is taught to all groups throughout the summer. Each boy is encouraged to make his own bow in the shop and to use it in the tournament at the close of the season, for which he receives an additional number of points toward his emblem. The bows are made of lemon wood and are horn-tipped.

THE "SACHEM" GROUP

ONE of the most worthwhile honors which can come to any boy in camp is that of being elected by the boys in his lodge to act as their Sachem, or lodge leader. Two boys are so chosen from each lodge. It is their duty to consult frequently with their lodge group for the purpose of improving the spirit and general conditions about

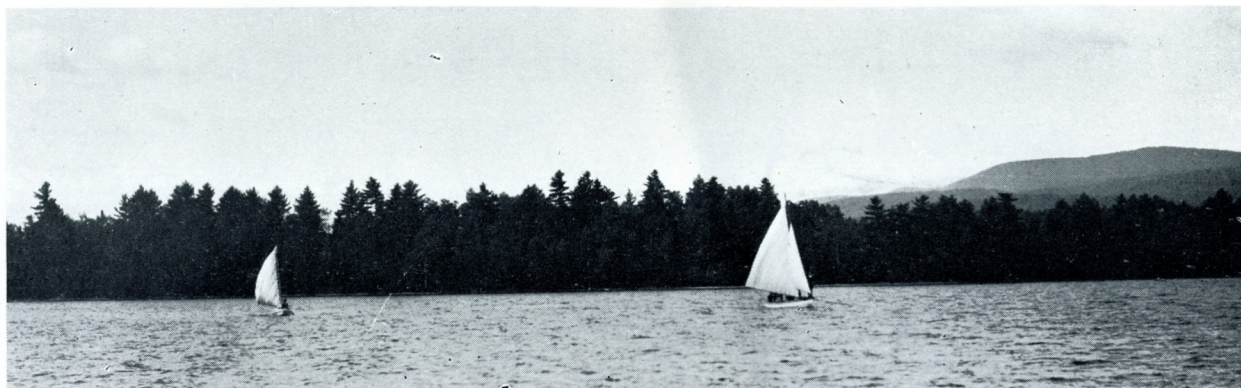

camp — to see that everything runs smoothly and without friction. Meetings are held each week at which time lively discussions are the order. The final results, as approved by the Sachems, are passed on to the entire camp and voted upon by the Camp Council at each Saturday evening Camp Fire.

SAILING INTO KAWANHEE COVE

Our new boats are built for salt water sailing and are sturdy and sea-worthy

*From the standpoint of pure exhilaration, sailing on Webb Lake, with its pine-clad mountains on every side, is a joy and pleasure long to be remembered.*

A CLOSE RACE  
The "Sea Gull"—Camp Training Boat, Leading on the Right

## Sailing

**S**AILING has been adopted as one of the major activities at KAWANHEE. It is part of the regular camp program and is one of the most enjoyable sports in camp.

The course in sailing is arranged to suit the strength and ability of Juniors and Seniors who pass satisfactory swimming tests. It must be elected as one of their summer's objectives. Boys who want to sail just for the fun of it are not included in this group. Only those who are serious minded are enrolled, for work is involved as well as play. Mention should be made at this point, that there is no form of training in a summer camp that does more to develop a boy's reasoning power, self-reliance, and his ability to think and act quickly than sailing a boat in competition. The value of prompt obedience and safety is emphasized the minute he steps aboard (with shoes removed) our camp training boat, "The Sea Gull"—a "Cape Cod Knockabout" type. His advancement in the course de-

pends upon his ability to take orders from the Sailing Master and execute them skillfully and without delay.

Instruction is given in groups. Each boy takes his turn at the tiller and sheet. He is taught to go to a sail boat lying at her moorings, get her under way, sail her around a prescribed course, pick up moorings, tie up, and leave the boat in ship-shape condition as to sails, center board, etc. He receives a thorough grounding in how to meet the unusual situation, such as a sudden squall or a difficult landing.

For the coming season the whole month of July will be given over to sailing for group instruction each morning, with individual instruction and sailing for pleasure confined to afternoons. August will see the beginning of crew racing by those who pass their individual tests. We anticipate the keenest kind of rivalry among the boys as to who will receive the cup awarded to the most skillful racing skipper at the close of camp.

THE KAWANHEE ORCHESTRA  
Recreation Hall Stage in the Rear

*Under the fine leadership of a man who knows boys as well as music, the Kawanhee orchestra was a delight to every one in camp during the past season. Boys are encouraged to bring their musical instruments to camp. Three rehearsals are held each week. The orchestra makes its official appearance on Thursday nights which is our weekly stunt night, when every fellow in camp has an opportunity to "strut his stuff".*

# Camp Honors

THE Point System of Camp Honors is so organized that each boy accomplishes something definite and worthwhile during the summer. The classification by age and weight into a Senior A, Senior B, Junior A, Junior B and Midget groups, makes the competition very keen, and promotes a live interest in all-round activities.

It is our desire that each boy enrolled may find something

in which he can excel, and in that accomplishment learn not only the value of initiative, but also how to apply himself to get effective results. One of the most prized moments of the camper's life is when, at the final banquet, boys who have won prominent honors have the various emblems, medals and ribbons indicating successful work done, presented to them, with the whole camp singing and cheering in their honor.

# THROUGH AUTO ROUTES TO CAMP KAWANHEE FOR BOYS AND KAWANHEE INN ADULT CAMPS

AT WELD, MAINE

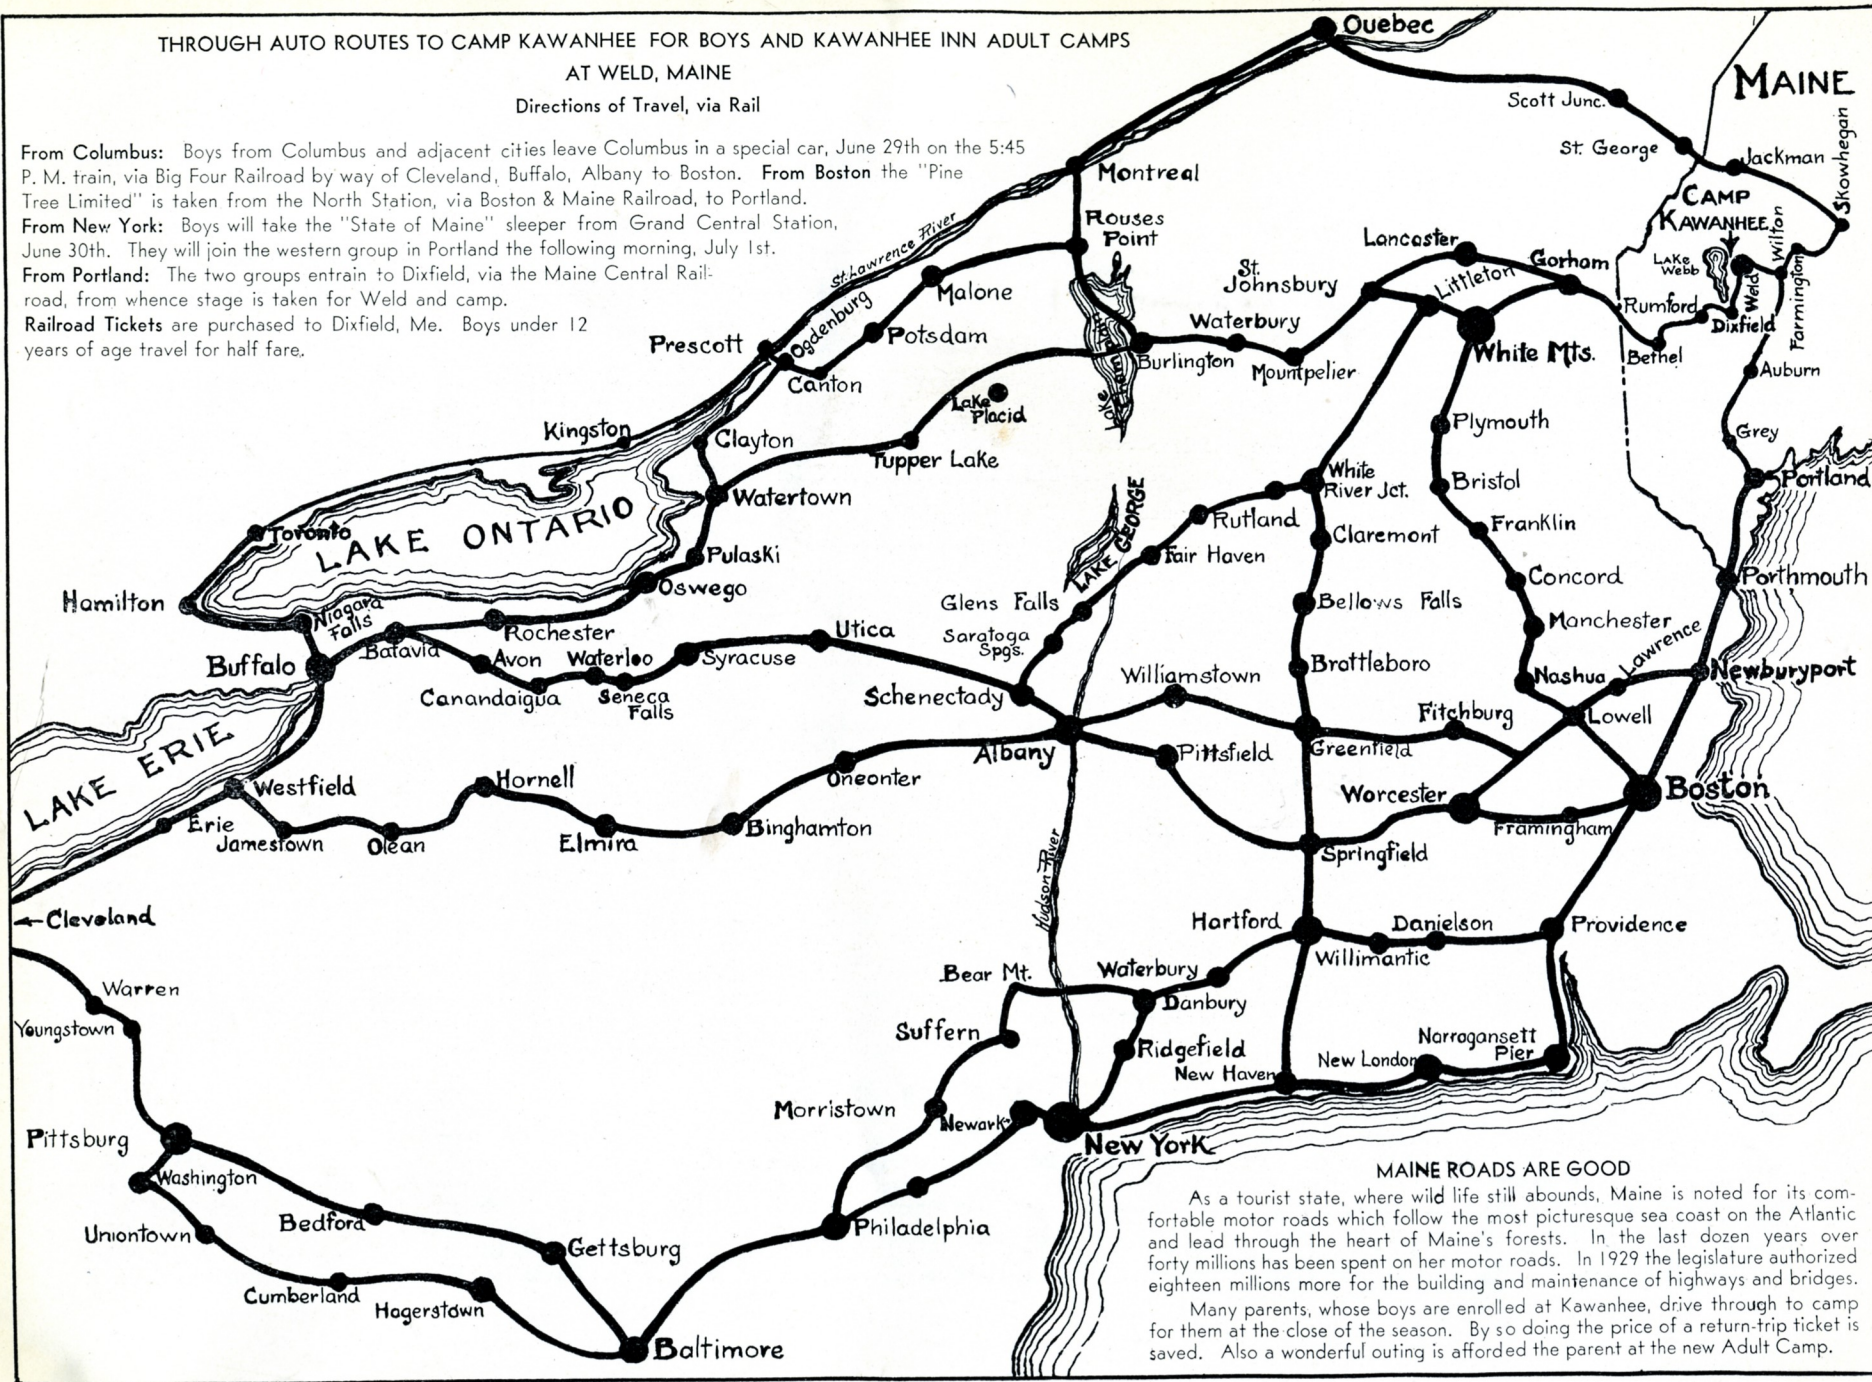

Directions of Travel, via Rail

From Columbus: Boys from Columbus and adjacent cities leave Columbus in a special car, June 29th on the 5:45 P. M. train, via Big Four Railroad by way of Cleveland, Buffalo, Albany to Boston. From Boston the "Pine Tree Limited" is taken from the North Station, via Boston & Maine Railroad, to Portland.

From New York: Boys will take the "State of Maine" sleeper from Grand Central Station, June 30th. They will join the western group in Portland the following morning, July 1st.

From Portland: The two groups entrain to Dixfield, via the Maine Central Railroad, from whence stage is taken for Weld and camp.

Railroad Tickets are purchased to Dixfield, Me. Boys under 12 years of age travel for half fare.

## MAINE ROADS ARE GOOD

As a tourist state, where wild life still abounds, Maine is noted for its comfortable motor roads which follow the most picturesque sea coast on the Atlantic and lead through the heart of Maine's forests. In the last dozen years over forty millions has been spent on her motor roads. In 1929 the legislature authorized eighteen millions more for the building and maintenance of highways and bridges.

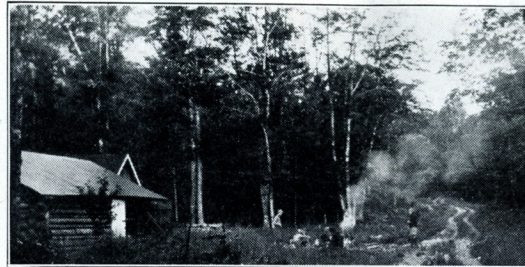

Many parents, whose boys are enrolled at Kawanhee, drive through to camp for them at the close of the season. By so doing the price of a return-trip ticket is saved. Also a wonderful outing is afforded the parent at the new Adult Camp.

# Trips

**T**HERE is something about rolling a pack, securing provisions, and striking off for the hills and mountains, or up the lake in a canoe, that one never knows unless he has lived the life and experienced the thrills.

On such trips, each boy gains practical experience in making shelters, building fires in wind and rain, cooking, reading the compass, trail-making and all the various means of overcoming the difficulties of life in the open.

## *Included in Regular Program*

BY THE SIDE OF THE TRAIL  
On the Way to Swift River Cabin

Among the interesting local trips taken are visits to "The Devil's Kitchen," overnight trips on Tumbledown, with a crawl through "Fat Man's Misery," hikes up Blue and Bald Mountains, and shorter trips about the lake and woods.

In addition to several trips to Swift River Canyon, where delightful swimming and delicious steak suppers are enjoyed, two of the most popular mountain trips in the East will be made—the Mt. Katahdin and Mt. Washington trips.

### **Mt. Katahdin Trip—Four Days**

For the boy with a venturesome spirit and a genuine love of the wilds, there is no trip in New England that surpasses the one to Mt. Katahdin, Maine's highest mountain, and declared by experienced mountain climbers the most spectacular and beautiful elevation east of the Rockies.

### **Mt. Washington Trip—Four Days**

The trip to Mt. Washington needs no special introduction. It includes such historical land marks as the "Old Man of the Mountains," the "Flume," the "Tip-Top House" where we spend the night, and a hike over several of the other Presidential Ranges.

## Special Trips

*See Page 46 for Special Trip Rates*

### **"Tim Pond" Trout Fishing—Four Days**

Of special interest to the boy who enjoys the sport of catching trout is the four days' fishing trip to Tim Pond, about 85 miles from camp.

According to the report of anglers who have fished in some of the gamest waters in Maine and other states, Tim Pond trout fishing ranks second to none in their experience.

### **Salt Water Trip—Four Days**

A thrill is in store for the boy who is fortunate enough to be included on the Salt Water Trip. The round trip distance from camp is about 250 miles.

There will be deep sea fishing, sailing, digging clams, a tour of Half-Way Rock Light House, and surf bathing at Old Orchard Beach—the largest and finest beach in the world.

# Fine Accommodations For Parents

At

## KAWANHEE INN ADULT CAMP

One-half mile from the Boys' Camp

Exceptional accommodations are provided for parents who wish to visit their boys in camp, or for professional men and women, of refined taste, who long for complete rest and relaxation. Here, nerves that have tightened for years slowly relax under the spell of lake and mountains, and the health-giving qualities of a Maine summer. **There is absolute freedom from hayfever and asthma.**

The Adult Camp is not a fashionable summer resort. Our guests dress in comfortable camp clothes and live a simple life. Due to a limited enrollment, there is a homelike atmosphere that everyone enjoys.

The new Inn has all modern conveniences including large lounging rooms, massive fireplaces, a screen dining porch accommodating forty-five guests, fourteen bed rooms—some with running water and private bath, electric lights, and many other comforts.

The finest of home cooked food is served, and in quantities that has gained the Inn an enviable reputation. Guests may order extra portions of any part of the menu without additional expense. Our most popular specialties are: Maryland Fried Chicken, "Webber" Duck, Choice Tenderloin Steak, Delicious Spring Lamb Chops, Southern Cured Ham and Shore Dinners.

For those who enjoy a program of activities, there is lake fishing of great variety including salmon, bass, pickerel and perch, trout fishing in mountain streams, and swimming (fine white sandy beach), riding, tennis, rowing, canoeing, sailing, and mountain climbing. A fine golf course is within easy riding distance of camp.

The camp opens June 15th and closes October 1st. Reservations may be made by the week, month or the entire season. Prices are reasonable, ranging from \$25.00 to \$45.00 per week.

As our capacity is limited, those desiring accommodations should consult the directors of Camp Kawanhee as soon as possible for detailed information and reservations. **A beautifully illustrated booklet will be mailed upon request.**

### *A Personal Word to Parents*

**Lodge Assignments**—In assigning boys to lodges, groups are formed according to age, interests and physical development. A questionnaire will be mailed you before camp opens in which we solicit your cooperation pertaining to any information about your boy which would assist us in giving him a safe, happy and profitable summer's experience.

The influences brought to bear upon boys through group association, under the friendly leadership of mature men, make one of the strongest features of Camp Kawanhee.

**First Night in Camp**—Each boy must be provided with blankets, sheets and pillow. These articles and clothes for immediate change after reaching camp, should be sent four days in advance by **American Railway Express to Dixfield, Maine, care "Camp Kawanhee."** (Ship in Duffle Bag.)

**Trunks**—Steamer type preferred. Have two keys, one to be mailed to Director for use in case the other is lost. List contents—post on inside of lid. Mark all clothing with name tapes (full name).

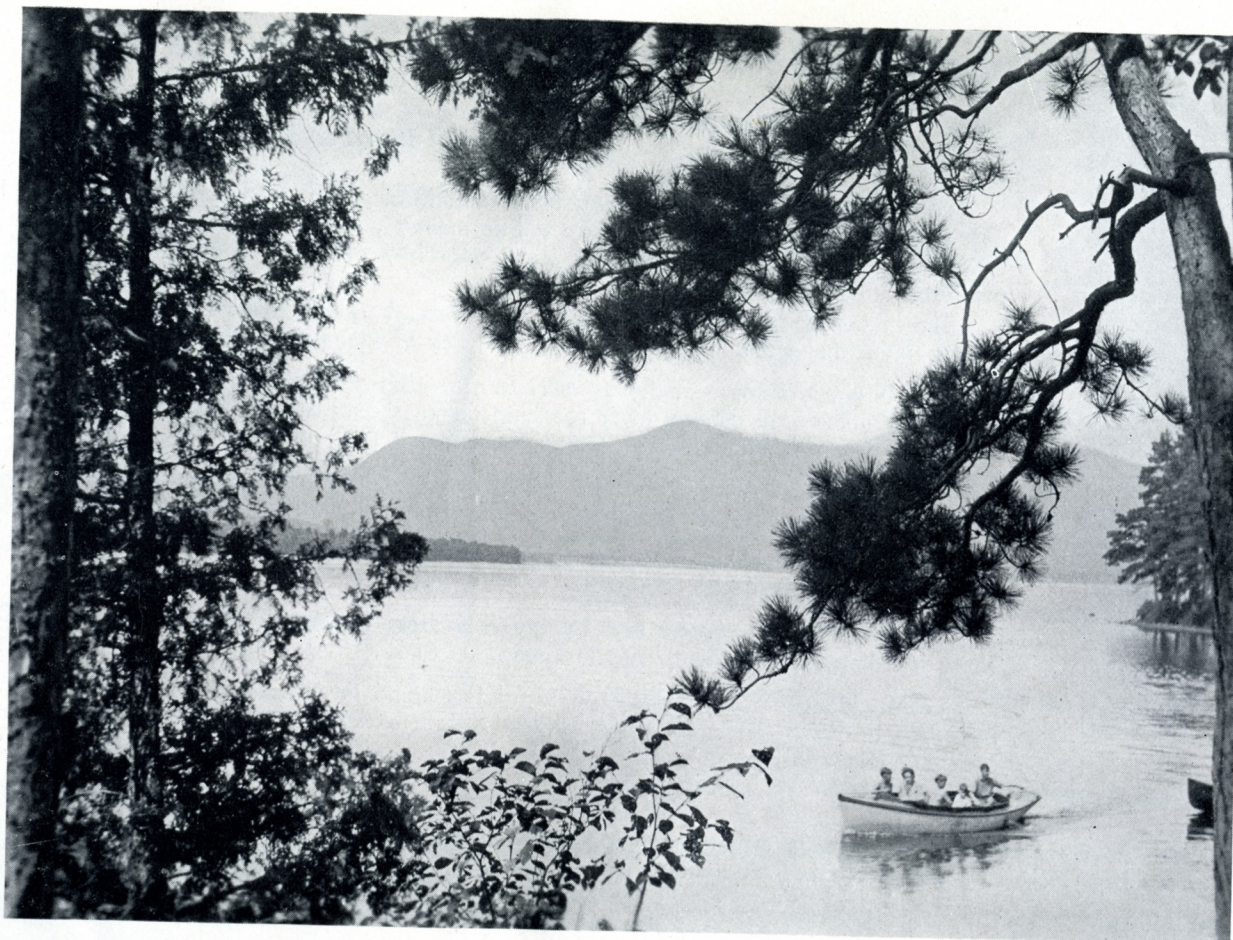

**Clothes for Traveling**—The only civilian clothes to be brought are those worn to camp. A change of shirts on the trip should be provided.

**The Postoffice**, Telephone and Telegraph address is Camp Kawanhee, Franklin County, Weld, Maine. There is a long-distance telephone in Camp.

**Letters Home**—Each boy must write a letter home on Wednesdays and Saturdays. The letters are collected as the boys file in to supper and constitute a ticket of admission. No letter, no supper, is understood by every fellow in camp.
