

CAMP
KAWANHEE
for Boys

1945

*On a Mountain Lake
In the Maine Woods*

Training for Peace

American Boyhood Looks To The Future

The democratic way of life is America's heritage. As far as possible it should be guarded and maintained for our children in a quiet, normal atmosphere. The present world conflict was not of their making and should not be allowed to interfere with their physical, mental and spiritual growth.

For the coming season, perhaps, more than any other in the last two decades, a summer in camp will prove invaluable to them. They will benefit by getting away from radio broadcasts, and the excited war-talk of the cities, with its overdose of battle news and bloodshed. These things do not build courage or poise, but leave an indelible mark on the plastic souls of children.

Every parent is anxious to do all that he can to protect his children from physical dangers and at the same time to give them every opportunity for happy childhood and growth. A summer in the Maine Woods at Kawanhee meets these desires in every respect. The camp is in a sheltered location on a mountain lake — far removed from railroads and crowded cities. Here the Peace of Nature and Nature's God lend strength to growing boyhood.

Its program reaches the individual boy and gives him a clean, wholesome, useful vacation. Every tendency is to develop the manly side of his nature and to cultivate the sterling qualities of honor, obedience, consideration for the other fellow, and spiritual poise for moments of great decision lying ahead.

On its staff are mature men drawn from the ministry, social work, and the faculties of schools, colleges and universities — men who are wise in the ways of boyhood. The comradeship of the better camp with its close contacts of men and boys is one of the greatest assets of camping.

It is doubtful if the boys of camp age today will be called upon to bear arms in the present struggle. Each one, however, should appreciate that there is a definite contribution which he can make to his country at this time: that to be physically fit, to be able to stand on his own, to do hard things and do them well, to learn how to give-and-take, how to sacrifice and to serve are not idle gestures to be lightly set aside, but a most important part of a strong, healthy, and enduring nation.

Whatever else we do, we cannot afford to let down the children . . . It would be a poor thing to save the world for our children if we do not save our children for the world. WILLIAM C. OSBORN, President, Children's Aid Society

Making Camp for the Night

There are many choice camping spots on Lake Webb where boys may camp out for two or three days. On such trips each boy gains valuable experience preparatory for longer and more difficult trips to be taken later in the season. Shelters must be made, soft, fir-bough beds prepared, fires built in wind or rain, cook-

ing, reading the compass, trail-making—if the party explores inland through the forest, and all the various ways of overcoming the difficulties of life in the open. For the past few seasons several boys have included sleeping bags in their equipment for special trips.

A Message To Parents

THE Directors of Camp Kanawhee believe that when a youngster starts for camp, three people from his home go to that camp, for just as surely as the boy is there in person, his mother and father are with him in spirit. To the parents we want to say that:

At Kawanhee your boy will be comfortably housed with boys his own age in a dry sanitary cabin. He will sleep in his own individual cot and will never be left alone at night. A counselor will always be on duty.

He will be fed the finest of nourishing food and in quantities to satisfy the ravenous appetites of growing boys. Pasteurized milk, only, is served.

At the slightest sign of sickness he will be under the care of a graduate nurse who will be in attendance throughout the season. Three reputable physicians are within twenty minutes drive of the camp.

He will never be in the water except at the scheduled swim periods and will never take a canoe, rowboat or sailboat out by himself until he has passed the necessary swimming and boating tests. A beach guard is on duty throughout the day.

He will at all times be under the guidance of a group of mature men, who will surround him with safe, intelligent supervision. There is one man for every five boys enrolled. Permanent "life forces" effecting clean moral and spiritual growth are awakened in many boys through the close association and companionship with Kawanhee men.

At no time in life is health more rapidly or more permanently established than during the growing

years. Boys who have camped at Kawanhee during the past twenty-three years have returned to their homes in the fall greatly benefited in health. Every condition at Kawanhee, with its clear mountain air, its balanced diet of home-cooked food, its cool nights and refreshing sleep, contributes toward the development of strong, vigorous stamina so needed by the modern boy. To many boys it means greater resistance to colds for the coming school days, a keener appetite, and a more intelligent appreciation of regular health habits.

The benefits derived from a season at Camp Kawanhee are so numerous and varied that each boy enrolled is assured improvement along many lines. It is traditional for Kawanhee boys to work toward the achievement of some worthy objective. We do not believe in an aimless summer for active boys. Our program is highly diversified to meet the needs of a variety of interests. Each boy is encouraged to find his interests early in the season—something in which he can excel. In that accomplishment he learns not only the value of initiative and resourcefulness, but also how to apply himself to get effective results.

If he is timid and shy, he will learn through the joy of new adventure to do many things which every normal boy longs to accomplish. It will give him a chance to express himself in a group, to develop a higher degree of confidence, to stand on "his own" and realize he is standing alone without mother or dad to help him. Such experiences build backbone and dependability as no other youth experience can. With new vision and understanding, he will return to his home in the fall a lad of courage and bigger powers.

Two Young Fishermen Ready for Any Emergency

Playing Farmer for a Day

As shadows lengthen and the stars appear, we gather for our camp fires at Council Rock. It is here that the heart of camp life glows as boys and men sit before the blazing fire, enjoy their games and stunts and the humorous Camp Log of the week, written and read by Cam Scarlett

The Kris-Craft Makes a Turn at High Speed.

An Ideal Location

Safe, Healthy and Thrilling for Growing Boys

CAMP KAWANHEE is located on the east shore of Webb Lake, at Weld, Maine — eighty-five miles north of Portland and twelve miles from the nearest railroad. It comprises three hundred and sixty acres of timber land and has a shore line of woods and sandy beaches extending over a mile in length, on either side of the lake.

The exceptional location of the camp, at the entrance of the "Narrows" of the lake, has been pronounced by men qualified to judge camp sites, as one of the finest natural settings for a boys' camp in the country. There is a protected cove and sandy beach for safe swimming, — gravel subsoil and good drainage, pure drinking water from a hillside spring, miles of pines and pointed firs, an unsurpassed view of mountains, glorious sunsets, invigorating air, cool nights, and refreshing sleep. Neither word nor picture can do full justice to the delightful location of Kawanhee.

Lake Webb is five miles long and two miles wide, and is completely surrounded by mountains. It is fed by springs and mountain brooks. The water is clear and pure and never too cold for the early morning plunge. During the past several seasons the temperature of the water has averaged between 72° and 78° at the eleven o'clock swim period.

The surrounding country is wild and rugged and appeals to the adventurous spirit of regular boys. Just to run, to swim, to shout like a wild Indian on the warpath, to follow trails over lofty peaks, to spy on deer and moose as they come to the lake to drink, to investigate beaver dams, to capture woodchucks and porcupines, to fish for trout in swirling rapids, to sit by glowing camp fires at night, or roll up in blankets under the stars and listen to strange noises of the deep woods — What a life! Such thrilling experiences make every fellow worth his "salt" — a bigger, better, more self-reliant man.

Careful Instruction Given
A First-year Boy Learning the "J" Stroke

"Ma" Frank's Cabin

It is here that boys, counselors and parents gather to talk things over with Ma. There is a comfortable lounging room and a large stone fireplace which adds cheer and comfort on rainy days and chilly evenings.

The Two Captains Shake Hands

Jack Smith—Captain of the Maroons, Left Graham Watts—Captain of the Greys, Right
During the season of 1944, the Greys were victorious in the competitive point contest—
involving all activities, winning by the score of 17468 to 15175.

Management

A Unique Family Organization

Directors — Camp Kawanhee is under the joint ownership and direction of two brothers, George R. Frank, Principal of McGuffey School, Columbus, Ohio — former Director of Manual Arts in the Columbus Schools, and Raymond C. Frank, Director of Young People's activities at the First Presbyterian Church, Englewood, N. J. They were born and reared in Maine, and are trained workers with boys of early adolescent age.

Camp Mother — "Ma" Frank, mother of the directors, has served as Camp Mother during the past twenty-three years. One reason for the success and popularity which the camp has enjoyed may be attributed to the confidence which parents have had in Kawanhee because of her presence there.

Assistant Camp Mother — Due to the serious illness of "Ma", the more exacting duties in her department will be placed in the capable hands of Mrs. Raymond Frank, who has served as Asst. Camp Mother for the past few years. She will give the same careful attention to each individual boy that "Ma" gave for so many years. Particular attention will be given the younger boys in camp, seeing that they have sufficient covers for the night — that they are adequately clad on cool mornings and in rainy weather — that buttons are sewed on, torn trousers patched, and sails constructed for new boats made in the shop.

Camp Dietitian — Mrs. George Frank serves as Camp Dietitian. She has made dietetics, as it relates to the proper feeding of growing boys, a careful study for many years. She plans the menus, does all the buying, and supervises the preparation of the delicious and carefully balanced meals served. Kawanhee has always been noted for its excellent food.

In addition to her duties at the boys' camp, she is resident manager and dietitian at Kawanhee Inn, where many parents and friends spend their vacation each year. The Inn is a half-mile from the boys' camp. See page 43.

Keen Sport
Enjoyed by Lake Swimmers

Taking Careful Aim

The Race Is On — Boats Made In the Shop
When a boy completes a beautiful boat in the shop, there is no thrill that quite equals the satisfaction of placing 'er in the water for the first time and watching 'er sail away on an even keel

At the Sound of the Whistle
The water is clear as crystal and just right for delightful swimming and diving. The temperature averages between 72° and 78° at the 11:00 A.M. swim period.

Health and Food

*Any Normal Boy Will Be Safer at Camp Kawanhee
Than in Any City in the Country*

Physical Improvement — Kawanhee is a place of abounding health. During the past several years, hundreds of parents have found it to be a good investment to send their boys to this beautiful spot in the Maine woods, where the invigorating air and sunshine are unrivalled. Each year, many boys who come to camp in a weakened and run-down condition, return to their homes in the fall, healthy, rugged and brown, with clear eyes and brain, keen for the work of the next school year. **Boys are entirely free from hay fever and asthma at Kawanhee.**

A long night's sleep of ten to eleven hours, and rest periods preceding and following the noon meal, prevent any possibility of over-doing.

Boys under weight receive special diets. Milk and orange juice are served during the forenoon, and chocolate malted milk before taps at night. Many boys consume over two quarts of milk daily. Gains of six to ten pounds are quite common each season.

Medical Attention — We are indeed fortunate to have the services of Dr. Garfield G. Defoe, a reputable physician who is within 20 minutes drive of the camp. Also, a resident graduate nurse is in attendance throughout the season. Skillful surgical assistance is available at the Rumford Memorial Hospital, one of the newest and most modern in the state, and less than an hour's drive from the camp. Experienced dentists are only a few miles away.

Lodge Interior
Two rest periods are observed each day

Careful Physical Examinations Given

Every boy receives a physical examination upon entering camp which is the basis for all corrective work throughout the season. Round shoulders, deficient chest development and poor carriage are given careful attention

The camp hospital has all necessary conveniences needed in caring for emergencies. There is room for six beds, a first-aid room and a fully equipped bath with hot and cold running water.

Food — The growing boy is prone to have three serious thoughts in life: When Do We Eat — Where Do We Eat — What Do We Eat? At Kawanhee, the purchase of food and the planning and balancing of meals are under the direct supervision of a dietitian. The food is excellent. No expense is spared to make it appetizing and nourishing. "Seconds" and "thirds" when needed are always on hand to satisfy the ravenous appetites of growing boys. All bread and pastries are made fresh each day in the camp kitchen. **Pasteurized milk, only, is served.**

Drinking water is secured from a hillside spring. Its sparkling purity is beyond question. Each year it passes the most severe tests by the State authorities.

Sanitation — Our "Class A" sanitary rating, awarded each year by the State Sanitary Inspector, ranks among the highest for camps in Maine. This record merits careful consideration by parents who are interested in placing their boys in a safe camp for the summer. Hot and cold shower baths and flush toilets are a part of the equipment. Each boy has two or three hot baths per week in addition to the daily swim periods. Baths are carefully supervised.

Vesper Service

Following the evening meal and just as the sun is setting, boys and counselors gather in boats and canoes about this rugged old rock, located about a mile from the camp shore. We look forward to this unique service more than any other event of the day. Voices rise in song and for ten to fifteen minutes we think serious thoughts in the fullness and beauty of God's great out-of-doors.

SUNDAYS — The religious life of Camp Kawanhee is nonsectarian. Sundays are spent quietly. Every fellow adorns himself in his cleanest "whites" before breakfast, and at 10:30 we assemble in our outdoor chapel among the trees by the shore of the lake. The service is simple and deals directly with the problems of a boy's daily life. Boys of Catholic faith attend church at Rumford, a short distance from camp.

Throughout the whole Kawanhee program there is an unobtrusive yet very positive religious influence. We seek leaders of broad sympathies, with an inspiring message for all, men who read "Sermons in Stone" and see good in all God's handiwork. Our camp chaplain understands the spiritual needs of boyhood, and enters into the physical and social life of the camp as one of its strongest leaders.

Greys and Maroons Pick Three Tons of Beans for War Effort

During the past season, a grand total of 5927 pounds of beans were picked by Kawanhee boys in three days! Nearly three tons of food for the United States government!

The drive for beans, torridly contested between the Maroon and Grey teams, was inaugurated on the morning of July 31. The Greys emerged victorious with a total of 3011 lbs. to the Maroons 2916 lbs. Each picker received 1 3/4 cents per pound, with picking honors going to the following boys: E. Durell, 184 lbs.; J. Moores, 161 lbs.; T. Bateman, 150 1/4 lbs.; C. Henry, 148 1/2 lbs.; E. Stewart, 140 1/2 lbs.

Dining Lodge
Where Finicky Appetites Are Soon Forgotten

General Equipment

THE camp is splendidly equipped. Most of the buildings are of heavy log construction, roomy, rustic, built for our purpose, and exactly suited to our needs.

Nestled among the trees by the shore of the lake are ten sleeping lodges built in regular frontier style. They are absolutely free from dampness in rainy weather. Each is equipped with comfortable cots and mattresses and accommodates from seven to nine boys and two counselors. We have never considered it advisable to sleep our boys in tents, preferring instead, well-built lodges which are safe, comfortable and sanitary.

Convenient to the sleeping lodges are the dining lodge and recreation building, a large shop where sixty-five boys may be accommodate, a new Scout and Campcraft building, a rifle and archery range, the camp hospital, boat houses, and the finest of boating and athletic equipment.

The entire equipment at Kawanhee is rated among the finest in the country for gentile boys.

Sleeping Lodges — Among Stately Pines
Well Ventilated, Screened, Dry and Sanitary — A Safeguard to Good Health

Kawanhee Cove — Swimming and Boating Area — Fine Sandy Beach

The Boating Equipment Includes Twenty-four Canoes, Equipped with Keels for Lake Use, Six 18 Ft. Round Bottom Canoes for shooting Rapids on Long River Trips, Twelve Row Boats, Five Sail Boats, Three Motor Boats, Including a 21 Ft. Kris-Craft Purchased in 1939, and Two Large War Canoes Accommodating Fourteen Boys Each

The Camp Band Marching Out to the Baseball Field for the World Series

THE RECREATION HALL contains a large assembly room, camp museum and nature room, a new lapidary shop where minerals are cut and polished (see page 32), a large stage, and the camp store and post office. It is here that boys and counselors gather for those more intimate conferences so dear to the heart of every youngster. The day's work and fun must be talked over with the gang. Two massive nine-foot fireplaces keep the building warm and cheerful on chilly evenings.

A Day at Kawanhee

Fun

A SUMMER at Kawanhee assures each boy a never-to-be-forgotten experience of wholesome fun and sports, new friends and new accomplishments. A typical day begins with reveille at 7:30. Within the next half hour the camp is alive with jokes and laughter. "Me for a dip" is the familiar expression on every side. Although not compulsory, several boys are already splashing in the crystal clear water on the sandy beach or taking a dive from the high board. Soon the five-minute, all-out whistle blows and everyone sprints back to his lodge for a brisk rub-down. My, but it surely makes a fellow feel great! And such appetites! The smell of sizzling bacon is in the air.

By 8:00 o'clock, following the flag-raising ceremony the entire group of hungry braves file into breakfast, keen with anticipation. And such a meal! There's fresh fruit, cereal, rich cream, cocoa, flap-jacks, bacon, served in quantities to meet the needs of the most ravenous of the Kawanhee tribe. By 8:30 with appetites completely satisfied we are ready for the day's program. No two days are just alike.

First of all, each boy does his bit in cleaning up for lodge inspection. Beds are made, floors swept, shoes and toilet articles neatly arranged, clothes all in place, trunks ready for inspection, latern cleaned and polished, porches, floors, and steps swept and bathing suits arranged on the outside rack.

At 9:00 o'clock the instruction activities begin and last for two hours. And what a variety of activities there are! It may be on the lake learning to row or paddle a canoe—passing tests in J. L. S.—sailing the Sea Gull in a stiff breeze or a kayak just completed in the shop. It may be down through the Narrows after big fish or on the baseball field in a close game—or learning to pole-vault and put-the-shot—or mastering a difficult stroke in tennis. It may be learning to box and wrestle—how to handle the bow and arrow or shoot for a bulls-eye on the rifle range—how to build a fir-bough lean-to or a real log cabin—or cook a meal over an open fire. It may be in the shop having heaps of fun building boats and airplanes, hunting knives and kayaks—or learning the trees, the birds and the flowers—or grinding and polishing beautiful minerals—or completing merit tests in Scouting.

The 11:00 o'clock swim comes just at the right time. Everyone cools off after a strenuous morning in the open. The air is filled with joyous shouts of happy youngsters. Some are learning to swim, others are mastering new strokes and dives, while a few are stretched out in the sun on the warm, sandy beach, hoping to look like young Indians before camp closes. By 11:30 the all-out whistle sounds, after which boys and counselors return to their lodges for forty-five minutes of rest and sleep.

Plus

Boy Life at Its Best

Dinner at 12:45 is followed by a short rest period — just enough time to write a letter home, take a nap, or make final plans for a new cabin across the lake.

The afternoon program, to many boys, is the most interesting part of the day. There's the baseball league Mondays, the big water meet Wednesdays, and the athletic meet Saturday. On the remaining afternoons each boy chooses what he would like to do.

Usually one group goes out for golf, a second for tennis, a third works in the shop, the nature laboratory or dark room, a fourth fills the range. Eddie has challenged Frank to a sail-boat race—both boys are all pepped up to get underway. Bill and Tom have just pushed off on a lake trip after bass. Jack knows where a 3 lb. pickerel was jumping the other day and believes he can tempt the old fellow to bite. Joe, Tom and "Slim" are preparing for an over-night trip on the mountains. They expect to make this a real he-man trip — paddling to the head of the lake and hiking the rest of the way — no pink-tea trips for them. They are training for football and hope to be "hard as nails" when camp closes. "Jerry" and "Mike," equipped with saws, hammers and spikes are on their way to Sunday Beach to complete the log raft which has been under construction for the past few days. "Mac"

and "Skip" have reached their secret cabin down by the dam, about a half mile from shore. The ring of their ax is plainly heard through the dense forest. Smoke from their fire starts curling through the tree tops. Soon the coals are glowing red and potatoes, steak and perhaps a freshly caught bass are all done to a turn. What a life! What a thrill to be on your own in such a glorious setting! A boy never forgets days like these. Best of all are the enduring friendships which are cemented in the wholesome atmosphere of the great outdoors. Those who remained in camp have already enjoyed the 4:00 o'clock swim. Before a boy realizes it the sunshine of another day draws to a close, full of happy experiences never-to-be-forgotten.

Supper follows at 5:30, after which boating, fishing, hikes to the village, baseball, tennis, capture the fort, and other interesting games are enjoyed.

We then gather for our camp fires at Council Rock. A simple ceremony marks the lighting of the fire. There is singing together, traditional Kawanhee songs, sung to the finest old tunes. As the embers begin to glow and Dean Miller finishes one of his thrilling stories, we rise, and in the stillness of the forest, sing our good-night song. Such a gathering, day after day, becomes a living force in a boy's life.

Taps: Junior C's retire at 8:00 o'clock; Junior A's and B's at 9:00; Seniors at 9:30, and Master Campers at 10:00. All lights out at 10:30.

Aquaplaning At High Speed

A Busy Day In The Shop

Non-Swimmers Learning the Kick
An excellent method to develop confidence

Taking Careful Aim
Many fine bows are made in the camp shop each year

The New Scout Cabin

"Kah-Ne-Do-Go-Nah"

Twenty feet wide and thirty-four feet long. It is open on three sides and has a large rock fire-place at the closed end.

A Study of Indian Lore Is Included In the Scout Program

Scouting

A COMPLETE Scout program is offered at Kawanhee. The equipment and natural surroundings are ideal for boys who wish to pass Merit Badge Tests in Cooking, Camping, Pioneering, Bird Study, Sailing, Navigation and many others. On our three hundred and sixty acres of heavily wooded property there are plenty of trees available to build rafts, bridges of all types, lean-tos, log cabins and—best of all, comfortable bough beds of balsam.

During the past few years, fifteen boys have qualified for their Eagle Badges. Several boys each year join the Scouts during the season. The Scouts have organized themselves into Kah-ne-do-go-nah Tribe, meaning "among the pines." Scout meetings are held Wednesday evenings in the Scout cabin and consist of contests emphasizing special phases of the work, as well as games, stories, singing, and marshmallow roasts.

Eagle Scouts

We are proud to list the names of five Kawanhee boys who received their Eagle Badges during the season of 1943. Each boy followed an intensive course of training at Kawanhee for several seasons and received credit in his home troop for all merit badges passed in camp. We congratulate the boys, their parents, and the leaders of their home troops for this outstanding achievement.

Irvin Boughton	5 Seasons	Tenasly, N. J.

Robert Ward	4 Seasons	Tenasly, N. J.

The Monkey Bridge Nears Completion

This bridge is part of the new nature trail and was built by boys in the Kah-Ne-Do-Go-Nah Troup

A Little Coaching In Camp Cooking

Campcraft in its most vigorous forms is encouraged. Preparation for trips is an important part of the program. Boys must know how to build fires — how to cook — how to make rain-proof shelters and comfortable bough beds for the night — how to follow

trails through woods and over mountains and roll blankets into a neat pack — how to load a canoe — how to catch and clean fish — and the best bait to use — how to fell a tree — use of the ax and cross-cut saw. There is never a dull moment in the Campcraft program.

Healthy Life in the Maine Woods

Lean-to made by the boys. The roof and sides are covered with large sheets of birch-bark which make it a cozy place to sleep even in rainy weather

Forging

Hunting Knives of Finest Quality Are Fashioned at Our Forge Each Season. It is Fun to Heat a Bar of Steel Red Hot and Hammer it into Shape

Skillfully constructed and highly polished.

Cutting To The Line

Using the power band saw is the first step in model boat building.

Each Boy Proud of His Handiwork

Sailboats completed in the camp shop—1944.

Shopwork

OUR shop is the busiest place in camp. On rainy days it is filled to capacity. Many happy and profitable hours are spent here during the season. Two experienced teachers of manual training devote their full time to the work.

It is a pleasure and revelation to observe a room full of boys at work on a busy day. Boats of all descriptions are being made, including 12-foot and 14-foot Kayaks, racing yachts and motor boats to be equipped with spring motors. In another section, model airplanes of all sizes and designs are nearing completion. In the metal-working department hunting knives, beautiful trays, plates, book-ends — etched or pierced in pewter, brass and copper are being hammered into shape. Many lemon-wood bows, beautifully finished, birch-bark bird houses, rustic furniture, and canoe paddles are made each year. In another section devoted exclusively to leather work, belts, bill-folders, moccasins, key holders, camera cases, ax sheaths, with many of the pieces hand tooled with initials and special designs, are in the process of completion. This is indeed a wonderful place, where surplus energy is directed into channels of creative thinking and worth-while doing.

Taller Than He Is
A 30-Inch Model Which Sails Nearly as Fast as Its "Skipper" Can Row. It Has a Heavy Lead Keel, Hollow Hull and Pine Spars

Sixty-five boys may be accommodated here in one Class. Such facilities solve the rainy day problem at Kawanhee.

Steady! Aim! Fire!

Several high medal marksmen are developed at Kewanee each year. Over twenty-five thousand rounds of ammunition were shot on the range last year.

TARGET PRACTICE

TARGET PRACTICE is one of the most popular sports in camp. Every boy learns the correct and safe way to handle a gun. The camp furnishes guns and ammunition. Several boys, however, bring their own guns with them. The range is carefully guarded. Military obedience prevails. Under the auspices of the National Rifle Association, boys shoot for the following medals which are awarded at the formal Saturday night Camp Fires: Pro-Marksman, Marksman, Marksman First Class, Sharpshooter, Bars 1-2-3-4-5.

ARCHERY

ARCHERY is one of the few sports that permits participation by the youngest as well as the oldest boy in camp. Many boys enjoy building their own bows in the shop. There are the great six-foot bows made by the older boys, powerful enough to bring down a deer or the largest moose that roams the woods of Maine. Then there are the smaller bows and arrows such as any Indian would handle with pride.

The following medals are awarded throughout the season under the rules and regulations of the Camp Archery Association:

1. Jr. Yeoman Pin
2. Jr. Yeoman Arrow
3. Yeoman Pin
4. Jr. Bowman Pin
5. Jr. Bowman Arrow
6. Bowman Pin
7. Bronze Medal
8. Silver Medal
9. Silver Bow Pin
10. Silver Pin

Good Form Is Stressed

Canoeing

FINE! Keen! Swell! — yes and even "Hot Dog!" characterizes the whole-hearted expressions given by many boys when they finally receive canoe privileges — one of the most favorite sports in camp. Before a boy may use a canoe he must pass swimming and canoe tests and win his right to a paddle. The camp furnishes paddles for each canoe but not for each individual boy. Those who prefer to have one of their own — with symbols of accomplishment painted on the blade, may purchase it, at cost, in the camp store.

To win his "C" a boy must swim the Cove, $\frac{1}{2}$ mile. If he swims the lake in front of the camp, $\frac{1}{4}$ mile, he receives a grey and maroon bar painted at the top of the blade. After passing the advanced canoe test, two bars are added at the bottom. Junior Life Savers receive a J.L.S. between the top and bottom bars. Jr. C's must stay within the cove and in sight of the Beach Guard at all times.

Learning the "J" Stroke

Boys must master the correct use of the paddle before permission to use a canoe on any part of the lake is granted.

War Canoe Crews
Each canoe accommodates fourteen boys

Ready to Shove Off
There are thirty well built canoes in the camp fleet. Six are the famous Guides' Model, used especially on long canoe trips shooting rapids.

A Class In Resuscitation

Water Sports

KAWANHEE COVE, with its fine sandy beach and clear sparkling water, is unsurpassed as a safe and ideal setting for every conceivable type of fresh water sports.

Each boy in camp learns to swim. The morning period, beginning at 11:00 o'clock, lasts for a half hour and is used for special instruction in new strokes, diving, Red Cross tests, etc. At this time of day the water temperature averages between 72° and 78°. The 4:00 o'clock period is used as a free-for-all swim, aqua-planing, water polo and for cove and lake swimming tests (a one-eighth and one-quarter mile swim, respectively).

It is important to note that accredited Red Cross Lifeguards and Supervisors are stationed on the docks, diving tower, beach, and at least two in patrol boats, ready to give instant assistance should need arise. No boy is permitted to enter the water until the guards are in position and the whistle has blown. Absolute obedience is required.

Also, each Kawanhee boy must pass his swimming tests before he is privileged to use the boats. A beach guard is on duty throughout the day. Those who wish to use a boat must report to him. It is his duty to check all boats out on the basis of the boat privileges each boy has won.

The big aquatic meet of the week is held Wednesday afternoon. This is the time when every fellow "struts his stuff," as Greys and Maroons compete for honors. There is swimming, diving, rowing and canoeing (singles and doubles), canoe bobbing, war canoe races, aqua-planing, water polo, sailing, exhibitions of Red Cross Life Saving, fancy diving and special clowning stunts by counselors. The competition is keen and exciting.

Winners — Junior Red Cross Life Saving Emblem

During the past season of 1944, fourteen boys completed the requirements for the Jr. Red Cross Life Saving Emblem and three completed the Senior requirements.

Back Row

Ted Pegg, Jr. Counselor and Asst. Instructor—Tom Williams—David Ford—Tom Brydon—Wilbur Smith, Sr. Counselor and Coach.

Middle Row

Chas. Bunch—Robt. Baldwin—T. D. Griley—Tom Baleman—Arthur McGovern—Jerry Staton—Rich. Taylor—Cliff Tuttle—John Kerr.

Front Row

David Logan and Tom Hamilton (Won Sr. Emblem)—Herbert Brown—Peter Baldwin. Note—Don Wambaugh (not in picture) also won the Sr. Emblem.

Swan Dive

Good form from the 12 ft. board. Expert swimming and diving instructors are on the Kawanhee staff

A Lesson in the Crawl Stroke

Every boy at Kawanhee learns to swim. Special emphasis is placed on technique and improvement of form

Swim Time

This is the happiest time of day for the majority of boys at Kawanhee. The water is clear as crystal and never too cold for a glorious swim.

Boys Who Learned to Swim — 1944

The boys are taught in small groups and learn to swim within two or three weeks after camp opens.

A Safe Hit Will Win the Game

An Interesting Project — Birch-bark Boxes Made by the Boys
Mr. and Mrs. Goodwin Emphasize the Craft Side of Nature Work

Building Their First Raft

Fun On a Slippery Log

A Lesson in Rowing
Jr. C's are enthusiastic oarsmen. They may use the boats in the cove
when the beach guard is on duty.

The New Junior C Program

For Boys 7-8 and 9 Years of Age

MANY parents who appreciate the value of mature leadership for their younger boys are enrolling them at Kawanhee. Perhaps at no other age does camping offer more glamour and appeal. The little folks are enthusiastic campers. They learn to live and play happily with boys their own age, develop self-confidence, resourcefulness, and a spirit of comradeship.

Their projects are carefully chosen and are kept well within the strength and ability of the smallest boy. For the coming season there will be hours to play on the sandy beach and grow big and strong in the fresh mountain air and sunshine; time to sail small boats and fly toy airplanes; to explore fields and woods under trained leaders and learn many of Nature's wonders. In the shop, boys will build boats, kites, airplanes, and useful articles of their own choice. Others will enjoy building rafts which they can paddle in the shallow water of the cove.

Each boy will learn to fish and swim and row. Some will even swim the one-quarter mile across Webb Lake and receive the coveted paddle and use of canoes in the cove. Best fun of all for many will be trips to the nearby mountains or paddling across the lake to sleep in an Adirondack lean-to, listening to strange noises in the woods at night and enjoying the never-to-be-forgotten thrill of cooking over an open fire. Baseball, tennis, and archery will be carefully taught, and boys who enjoy shooting a gun will have opportunity to try their skill on the range under safe supervision. There is never a dull moment in the Junior C program.

Throughout the entire program the importance of adequate rest is emphasized. Special rest periods (for naps) follow the morning and afternoon swim at 11:30 and 4:00, respectively. Also, a quiet hour from 1:00 to 2:00 precedes the afternoon activities. Taps are at 8:00 o'clock.

Learning to Swim — Safety for the Future

With Its Forested Hills and Mountains on Every Side, the Loveliness of Lake Webb Has
Won the Praise of Many World Travelers

Sailing Through the Narrows

Off to a Good Start

Sails swell to the breeze as trim crafts skim the blue surface of Lake Webb

Sailing

SAILING has been adopted as an important camp activity. To many boys it is the most enjoyable sport in camp. Advancement in the course depends upon one's ability to take orders from the Sailing Master and execute them skillfully without delay.

The month of July is devoted to group instruction. To pass the required tests boys must demonstrate their ability to do four things well: (1) To tie the common sailor knots; (2) To do at least one form of splice; (3) To pass an examination based upon a course in Theory and Practice of Seamanship; (4) To go to a sail boat lying at her moorings, get her under way, sail her around a prescribed course, pick up

moorings, tie up, and leave the boat in ship-shape condition as to sails, center-board, etc. (No boy who cannot swim the lake— $\frac{1}{4}$ mile, is allowed under any conditions to take the last test). A thorough grounding is given in how to meet the unusual situation, such as a sudden squall or a difficult landing.

By August the majority of boys have passed their individual tests and are ready for the thrills and excitement of crew racing. We anticipate the keenest kind of rivalry as to who will receive the silver medals awarded to the most skillful skippers at the close of camp. One and two-men crews will compete.

Demonstrating the Correct Grip

Four double tennis courts are in demand throughout the season

Trying Hard to Improve Their Game

Many mistakes are corrected on the practice board

Breaking His Own Record

The World Series

Played the last week of camp between the winning teams in the two leagues. During the 1944 playoff the Tigers topped the Yanks 10 to 0.

Baseball receives special prominence at Kawanhee. Soon after camp opens every boy and most of the counselors are chosen on either the American or National League—usually six teams in each league. Monday is set aside for the games. The competition is keen and exciting. Both hard and soft ball games are scheduled. Coaches are on hand to teach the finer points of the game.

Athletics

THERE is good wholesome fun in all the games and sports at Kawanhee. Boys eager to improve their athletic abilities have all the advantages of skillful coaching and instruction. While an effort is made to develop spectacular performers among the boys who show ability, the primary interests are "Sports for All" and "Sports for Health's Sake."

On the three hundred and sixty acres of camp property, a fine level athletic field has been developed. Games which are most beneficial, and which appeal especially to boys of camp age, are taught by trained athletes. There is baseball, tennis, boxing and wrestling, football — suitable for summer camps — horseshoe pitching, high, broad jump and pole vaulting pits.

Tennis — With few exceptions, more boys show enthusiasm for tennis than for any other game in camp. Many skillful players have been developed. Two counselors who are excellent players give their full time to coaching. Special classes are organized for beginners, many of whom show marked improvement during the season. It is quite a thrill to these youngsters to zoom the balls across the net, and make hard smashing returns. All boys are coached how to make the best of footwork, team work, as well as net play, serving, volleying and, in fact, all the finer points of the game.

Careful Competition — No boy is allowed to over-tax his strength. Those who do not enjoy athletics may follow a program requiring less physical exertion, such as, sailing, rifle practice, shop work, fishing or trips.

The smallest boys in camp receive careful individual instruction.

Watching the Ball

Many Boys Elect Boxing as Part of Their Daily Program

Who Won?

Five horseshoe courts have been developed and many interesting challenge games are played during the season

High In the Air
Good Form Stressed in All Athletics

A Familiar Scene On A Maine Trout Stream

Landing A Beauty
Many fine catches are made within the cove

Fishing from the Camp Dock
Every now and then some boy lands a prize and becomes a hero throughout the camp. Perch, bass and pickerel are frequently caught here

Fishing Is Good

FISHING almost attained the status of a major activity at camp last summer. Mr. Spangler took charge of it and did much to help and encourage the camp's budding fishermen. He revived the custom of awarding points for fish caught, ranging from 2 points a pound for perch to 20 per pound for salmon.

The fish themselves co-operated nobly to make this the most memorable piscatorial year in Kawanhee annals. To Gardner Defoe, only 8 yrs. of age, goes the distinction of catching the fish to end all local fish stories. Early the morning of July 30, he was fishing from the main dock and successfully hauled in a 5 lb. bass. This is the biggest on the camp records and no one has seriously contested the claim that it is the largest taken out of this lake. Other sizable bass were brought in during the season. Just two days before Gardner made his prize catch, Herbert Hedges, fishing from the small dock, landed a 3½ lb. bass and early in July, John Nowald brought in the first bass of the season — slightly under 3 lbs. in weight. The largest of several pickerel was one weighing 2½ lbs., caught by Robt. Kitchel. Perch have furnished many a fine breakfast. The white perch fishing in Webb Lake is considered among the finest in the state. The fish average from ⅓ to ¼ lb. Wm. Mallory caught twenty-four in one evening. An unusual catch was the 1 lb. salmon taken by Wm. Clark. Even the sunfish come jumbo-sized. Fred Stevens landed one weighing more than half a pound.

Instruction Given — Boys who love to fish or those who would like to know how will have the time of their lives at Kawanhee. Individual instruction is given to the youngest Jr. C who has never held a pole nor baited a hook, as well as to the experienced Master Camper who may wish to improve his skill in bait casting or fly fishing.

A Big Fish For a Small Boy — 5 lb. Bass

Caught from the main dock by Gardner Defoe, 8 yrs. of age. For a while it was a question whether the bass would be pulled out or Gardner pulled in. He landed it without a net.

A Fine String of White Perch

The best fishing is after supper. The boys go out in two or three boats with Mr. Spangler in charge and fish until taps.

The First Catch of the Season

A beauty, nearly 3 lbs. in weight.

Pines Along The Shore

The shore line at Kawanhee is heavily wooded with pines, birches, pointed firs and hemlock. Such natural surroundings add to the health and enjoyment of every boy who camps here.

Learning From Nature

KAWANHEE is unusually rich in natural beauty, with plant and animal life in abundance. Lake and hillside, with shaded paths and tangled woodland provide places to explore the secrets and beauty of Nature.

"Learning by doing" is the Kawanhee way and nowhere in camp is this more observed than in the Nature department. Acquaintance with wild life is gained by caring for pets in the camp zoo, pursuing birds on trips afield, and observation of the beaver colony a short distance from the camp.

In the Nature Museum familiarization is begun by means of the Electric Bird Panel, the Ant Palace and

Coal Mine, and by means of aquariums and herbariums filled by the boys themselves and watched through every stage of development.

Overnight trips are made occasions for study of the stars, simplified by the "stellarium" in the Nature Museum which flashes familiar constellations later to be identified under the open sky.

A well marked Nature Trail extends nearly a mile through a beautiful wooded section of the camp. Here under stalwart trees, the ground pine and Indian pipe, the red fruits of the bunch berry, and the blue of Clintonia are found in profusion. Ferns, together with mosses and lichens, the products of centuries, cover

New Interests

the rocks and brook bed, and all are made part of a carefully designed project to acquaint the observer with the wonders that Nature has to offer him who will but pause to read.

Microscopic observations, study of ferns and fungi, moth and butterfly propagation, nature photography and other fields of original research voluntarily chosen, are open to boys who wish to become "Naturalists," the highest honor the department confers. Such activities look beyond a single summer's enjoyment. They aim to quicken appreciation, awaken interests and develop resources which will in many cases continue throughout the boy's life, adding to his accomplishments and contributing habits which may yield rich returns in later years.

A new Lapidary Department, where boys may cut and polish rocks and semi-precious stones, was added to the equipment in the Nature Laboratory in 1942. See Page 32 showing a picture of boys at work and a more detailed description of this most fascinating activity.

An Early Morning Bird Hike With Mr. Kiefer

A Corner of the Nature Museum

This Is the Way It's Done

Many interesting collections of moths and butterflies are prepared for mounting in the latest approved method.

The New Lapidary Shop
Cutting and Polishing Stones

The New Lapidary Shop—The strange fascination that rocks and minerals possess for many boys is given added stimulus by the new lapidary equipment installed at Camp Kawanhee as a part of the Nature Department's expanding interest in geology and mineralogy. This equipment, possibly the only set-up of its kind in any boys' camp in the country, consists of diamond saws for slicing or cutting, horizontal metal disks for rough grinding and a series of wood and metal wheels for polishing.

Here, in addition to the collecting and classifying of Maine's abundant variety of semi-precious stones, the embryo geologist may have the unusual experience of cutting, shaping and polishing his treasures to bring out hidden beauty and unsuspected colors.

This project, well within the range of the average boy, enables him to make paper weights and book ends, and fashion articles of lasting use and value.

Exploring For Minerals Along the Shore

Mineral Mining Trips

THE splendid collections, noted below, were mined at Newry, where the boys go to add to their rock collections. Each specimen was identified, carefully labeled and placed in the mineral boxes which the boys made in the camp shop. The mineral wealth of Maine is yet untapped, and thousands of dollars worth of semi-precious stones are taken annually from the hills such as these at Newry. Every boy has the thrill of finding beautiful green tourmalines and clear quartz crystals. The more fortunate may emerge with pieces of beryl, smokey quartz or even amethyst.

Mountain Trips

THERE are many opportunities for mountain climbing at Kawanhee for boys who enjoy healthy, vigorous life in the open. Within a radius of only eight miles, five mountain peaks — nearly 4,000 feet high cut across the horizon. Two of them, West Mountain and Mt. Jackson, are blind-trail trips and take "all you've got" to scale them.

Mt. Blue — A short distance from camp — and easily climbed over a trail $1\frac{1}{2}$ miles in length. At the top is a 40 foot observation tower where a friendly Forest Ranger always welcomes our campers, allowing them to use his overnight cabin if they wish.

Tumbledown Mountain — Across the lake from camp is, perhaps, the favorite local trip among the Kawanhee tribe. Many boys stay overnight by the shore of Crater Lake near the top and enjoy a crawl through "Fat Man's Misery" and the "Lemon Squeeze."

Bald Mountain — This a favorite trip for many of the younger boys in camp for their first year — especially those who wish to "train" for the more difficult climbs later in the season. Old "Bald" is well named because its peak is entirely barren of trees. Supper is usually cooked on the top. We return to camp in time for taps.

Near the Top of the Mountain
Mountain climbing is enjoyed by every boy in camp.

West Mountain and Mt. Jackson — Each nearly 4,000 feet high, are about 8 miles from camp. We ride to the foot of the mountains and unload packs and provisions. They are both blind-trail trips, reserved for the older and more experienced campers who get a real "kick" in blazing their own way rather than following a well marked trail.

The Coos Canyon Trip on Swift River, 12 miles from camp, always provides keen enjoyment for adventure-minded boys. To shoot the rapids or climb under the falls gives a boy a never-to-be-forgotten experience. For those who do not care to swim, there are beautiful rock formations to be explored or gold-panning and trout-fishing to be enjoyed. Sizzling steaks, broiled to a turn over live coals, baked potatoes, cocoa, fruit and cookies provide the finish to a memorable day.

An Afternoon of Fun at Coos Canyon
Wading Upstream

An Over-Night Sailing Trip Gets Under Way

The boys drop anchor 5 miles up the lake near a secluded beach. Duffle is brought ashore and beds made for the night. A mess of freshly caught perch, or a 3 lb. bass or salmon—cooked over red-hot coals, complete a thrilling day, never-to-be-forgotten in the lives of healthy, red-blooded boys.

Panning Gold On Swift River

A thrilling and unique experience awaits every boy at Kawanheel! The first gold found in the United States was discovered not 15 miles from the Camp on Swift River. It is a most fascinating experience for a boy to hold a genuine miner's pan in his hands, just like the old "Forty-Niners," wash out a pile of pay dirt and pick out a few precious pieces of gold. We are looking forward with the keenest enthusiasm to renewing our search for gold during the coming camp season.

Age Distribution

Jr. C—7-8 and 9 yrs. Jr. B—10 and 11 yrs. Jr. A—12 and 13 yrs.
Senior—14 and 15 yrs.

Creative Program and Camp Honors

THE Creative Program at Kawanhee is a free choice program of interesting, constructive things to do, so fascinating to boys, yet quite entirely free from over-organization and routine. Each boy experiences the satisfaction that comes from the successful completion of worth-while tasks. Such experiences develop confidence and self-reliance and stimulate boys to go on and on toward the accomplishment of new goals and new achievement.

The choice of interests and objectives are definite and clearly defined. Six major activities—*Athletics, Aquatics, Handicraft, Nature, Sailing and Campcraft*, with many contributing activities make it possible for boys with varied interests to enjoy a safe, well-rounded program for the summer.

Each major activity is divided into three *Achievement Levels* which the boys endeavor to win. Each level

is carefully graded to meet the needs of the youngest as well as the oldest boy in camp.

In addition to the natural interest and enthusiasm which every normal boy has in the activities, the stimulus to complete the level requirements is enhanced through the honors which are presented at the Saturday night campfires to the boys who have completed levels during the week. This is one of the prized moments in a camper's life when recognition is given for a "job well done". Those winning the first level in three or more major activities are awarded a beautiful leather plaque upon which the honors won during the summer are appropriately arranged.

Each boy is encouraged to fill his plaque in not to exceed two seasons in camp for Jr. C's, and three seasons for Jr. B, Jr. A, and Senior groups. Boys returning to camp for the coming season should bring their incompleting plaques with them.

Boys Who Completed Achievement Plaques --- 1944

We wish to congratulate the boys who completed their plaques during the past season. It represents an achievement of real merit.

Junior C Plaque

Reynolds Girdler...Completed in 1 Season
Tyler Halsted...Completed in 1 Season —Plus 2 Jr. B Levels

Junior B Plaque

T. D. Griley...Completed in 3 Seasons—Plus 6 Jr. A Levels
Wm. Licklider...Completed in 1 Season Plus 3 Jr. A Levels
Plus 3 Sr. Levels
Jack Loveless...Completed in 2 Seasons—Plus 9 Jr. A Levels

Junior A Plaque

Wm. Daley...Completed in 2 Seasons—Plus 4 Sr. Levels
James Liggett...Completed in 2 Seasons—Plus 8 Sr. Levels
Gordon Willard...Completed in 2 Seasons—Plus 7 Sr. Levels
David Yates...Completed in 2 Seasons—Plus 2 Sr. Levels

Senior Plaque

*Norval Goss...Completed in 2 Seasons —

*Norval is the second boy to have completed the Jr. C—Jr. B—Jr. A and Senior Plaques during a period of six seasons at Kawanhee

LODGE GROUPS — 1944

Aquaplaning
Rowing
Canoeing
Water Meets

*Campcraft

Camp Cooking
Shelter Building
Log Cabins
Fir-bough Lean-tos
Felling Trees
Use of Ax and Saw
Sleeping Out
Building Rafts
Boat Repairing
Bridge Building
Trail Cutting
Reading the Compass
Archery—Boys Make Bows in Shop
Range
Fishing
Birch Bark Craft
Totem Pole Carving

*Sailing

Tie Common Sailor Knots
Do One Form of Splice
Theory and Practice of Seamanship
Demonstrate Sailing Skills
Got to boat at moorings
Get her underway
Sail prescribed course
Pick up moorings—tie up
Leave boat in shipshape condition
Types of Boats and Their Uses
Types of Rig and Their Advantages
Racing Rules
Racing—Over Prescribed Course
One man per boat
Two men per boat

Scouting

Complete Scout Program
Boys May Join Scouts in Camp
Many Boys Have Become Eagle Scouts

*Handicraft—Things to Build

Sail Boats
Motor Boats
Airplanes
Kayaks—12 to 16 feet
Built with parents' permission
Hunting Knives
Use of Forge
Rustic Furniture
Leather Work
Cutting to Pattern
Lacing and Hand Tooling
Artcraft Metal
Hammeerd Copper and Pewter
Piercing—Embossing
Etching—Soldering
Electric Motors—1/16 H. P.
Bows of Lemon Wood
Canoe Paddles
Use of Power Machines

*Nature

Forestry—Tree Study
Forestry—Fire Prevention
Flower Identification
Study of Ferns and Fungi
Bird Hikes and Identification

Kawanhee Inn for Parents

One-Half Mile From Boys' Camp

EXCELLENT ACCOMMODATIONS are provided at Kawanhee Inn for parents who visit their boys in camp. Some drive their boys to camp and remain to enjoy the early trout and salmon fishing. Others come via rail and are at the Inn from six to eight weeks, while many arrive a week or two early before the close of camp on Aug. 26. Boys subject to hay fever usually remain with their parents until the middle of September.

Informal, Friendly and Inviting — The Inn is not a fashionable summer resort. Guests dress in comfortable outing clothes and live the simple life. The entire organization and development appeal to men and women of refined taste and discrimination who desire a vacation of rest, relaxation and wholesome enjoyment. The charm and beauty of the surrounding country has won the praise of many world travelers.

The Food is unsurpassed and is all home cooked. A dietitian is in charge. Special diets for children or adults are arranged without extra charge.

Recreation — At Kawanhee you can rest undisturbed or participate in a wide variety of sports. There's good fishing, delightful bathing on a beach of fine white sand—ideal and safe for small children, tennis, rowing, canoeing, sailing, mountain climbing, excellent roads for motoring, and Maine's finest golf course only 20 minutes drive from the Inn.

The Inn opens July 1st and closes Sept. 20th. Reservations may be made by the week, month or the entire season. Rates are very reasonable and include board, and the use of boats. Those desiring accommodations should consult the directors of Camp Kawanhee for detailed information and reservations.

Kawanhee Inn — View from the Shore of the Lake

The Inn is splendidly equipped. There are large lounging rooms, massive fireplaces, screened dining porch, fourteen bedrooms, comfortable twin beds, private baths and other conveniences which you would expect to find in your own home. An open porch for sunbaths is enjoyed by all the guests

Private Cottages — Among the Pines

These cottages are the "last word" in camping comfort. Some accommodate three people, others are equipped for five. There are twin beds, modern bath facilities, electric lights, living room with stone fireplace, comfortable chairs reading lamps and screened porches.

Screened Dining Porch — Accommodates Forty-five Guests

Comfortable Lounging Room — Kawanhee Inn

Leadership

PARENTS are vitally concerned with the associates their boys have, the fellows they play with, the teachers at school, the men they admire and want to be like.

At camp a boy eats and sleeps with his lodge counselor. He works and plays every day with some activity leader. The game he wants to know and the man who coaches it are knit together in the boy's thought inseparably. If the man is the right kind, the best that is in the boy responds. Clean sportsmanship, grit, the impulse to help the other fellow — all the finest traits of personality come out in a boy when he sees them in a favorite counselor. "Character is caught, not taught."

That's why Kawanhee is concerned about its choice of counselors. That's why one camp is more successful than another, more helpful, more stimulating, more successful in developing the finest in fine boys. Physical health, mastery at games, a love of nature, a knowledge of woods-ways and mountain trails — these are the lure to the great objective of camping, the development of personality.

Good Form Is Stressed

Oar House and Beach Guard Headquarters

A beach guard is on duty throughout the day. Boys desiring to use row boats or canoes are checked out on the basis of the swimming and boating tests they have passed.

THE WIGWAM

Under the talented and skillful leadership of Mr. Campbell Scarlett, and a staff of loyal assistants, the official camp paper "The Wigwam" was published last summer for the ninth consecutive season.

Copies are mailed to parents each week during the season. Information pertaining to each boy's achievements in the different activities, a digest of the weekly Camp Log (written by Mr. Scarlett) and other information of special interest to parents are mentioned in "The Wigwam."

A Group of Enthusiastic Sailors
Sailing Masters wearing caps—Geo. Page, Left and Chas. Henry, Right.

Rates

All-Inclusive — For Scheduled Camp Activities

Tuition — Boys 7 to 16 yrs. old — 8 weeks.....\$325

The tuition is payable as follows: \$10.00 with the application and the balance by July 1st. By special arrangement the balance may be paid in equal payments by July 1st and August 1st.

The following is a list of items included in the tuition for the eight-weeks period:

- Lodging in dry, sanitary cabins.
- The finest of meals — carefully balanced.
- Instruction in all activities — Mature Counselors.
- Use of the entire camp equipment.
- Shop supplies — except material for kayaks, house-boats or other projects comparable in size.
- Ammunition for rifle practice.
- Archery and Nature Supplies.
- Dark Room Chemicals —
- Laundry.
- Remedial gymnastics to correct minor physical defects.
- Use of the camp hospital — including the services of a graduate trained nurse and medical supplies.
- All trips scheduled during the summer.

There are no extras whatever required for a boy to enjoy a most happy and profitable summer at Kawan-
heh for the coming season.

Pre-Camp and Post-Camp Season—Special reduced rates, including laundry, are quoted for boys who come to camp early or for those who remain after camp closes on August 26. Boys subject to hay fever usually remain until the middle of September. Many interesting activities are scheduled and the camp is adequately supervised in every respect.

Spending Money — We recommend a deposit of \$10 for boys under 12 years and \$15 for boys 12 years and over. These amounts may be increased or decreased at the parents' discretion.

The account provides for an allowance of 25c per week for boys under 12 yrs. — 50c for boys 12 yrs. and older, and such incidentals as candy, ice cream, stationery, stamps, post cards, fishing license, fishing equipment, camera and flashlight supplies, haircuts toilet articles, canoe paddle (see page 19).

The allowance is deposited in the camp bank. At the end of the season a financial statement of each boy's account, together with a check covering any remaining cash balance, will be mailed the parent.

Tutoring — Under the direct supervision of experienced teachers we are able to handle all grade and high school subjects. The rate is \$1.75 per hour. Please notify the Directors before camp opens if tutoring is desired.

Special Information

Camp Program — 1945 — The complete program, as outlined in this booklet, will be followed insofar as it is physically possible. However, emergencies arising beyond our control may necessitate minor changes.

Loyalty of Parents — The loyalty of the boys and parents has made it possible to fill the camp to capacity without periodical advertising. This means that most new boys who enter each year are friends of old campers and recommended by their parents.

Visiting Days for Parents — Kawanhee not only permits, but invites parents to visit camp any day and any time with the exception of morning rest periods, from 11:45 to 12:30. Ma Frank's cabin is usually the place where parents first report when entering camp. Parents vacationing at the Inn attend the Water Sports program, Camp Shows, Camp Fires, and the Sunday Morning Church Service in the outdoor chapel and the Vesper Service on the lake at twilight.

Parents Urged To Cooperate — Parents are earnestly requested not to send candy or sweets of any kind to their boys. Our food is well balanced and adequate. No boy at Kawanhee goes to bed hungry.

Smoking In Camp — The camp rules are as few as possible. Smoking, admittedly injurious to growing boys, cannot be permitted by the campers. Master Campers and Jr. Counselors are permitted to smoke at a specific time and place if permission is granted in writing by their parents.

The Mail — Telephone and Telegraph Address. Camp Kawanhee, Weld, Maine—Phone 6—Ring 2.

The Express Office is Wilton, Maine. Send all articles in care of Camp Kawanhee.

The Distance to Camp is only 22 hours via rail from Columbus and 12 hours from New York City.

Letters Home — Each boy must write a letter home on Wednesdays and Sundays. These letters are collected as the boys file in to supper. No letter, no supper, is understood by every fellow in camp.

Girls' Camp — One of Maine's finest camps for girls is located at Wilton, Maine, only 12 miles from Kawanhee. Booklets describing the camp will be furnished upon request.

The Camp Colors are grey and maroon.

Developing a Solid Punch

All Packed for a Trip to the Mountains

The Prize Catch of the Season — See Page 29
Gardner Defoe, (right) who landed it and Herbert Hedges, runner-up,
who pulled in a 3½ lb. bass from the small dock.

An Educator Tells of a Dad's Impressions of Kawanhee

By DR. REES EDGAR TULLOSS, *President of Wittenberg College*

ANY father who has watched the interested face of his son in a Kawanhee camp-fire circle, or has seen him in the midst of a group of attentive listeners in boats around Vesper Rock at sunset on a Sunday evening, or watched the head of a little swimmer making his way across the lake to qualify for water privileges, or looked with fatherly pride upon the awards on a plaque indicating the passing of successive levels of achievement in various fields, knows what it is to appreciate the values of his son's summers at Camp Kawanhee.

To me, far more significant than the rare beauty of its environment, its excellent physical equipment, its exhilarating lake and mountain air, is the recognition of Kawanhee as a place of ideals.

If every worthy institution is "but the lengthened shadow of some great man," we should expect Kawanhee to reflect the ideals and purposes of its founders and directors. Here they have built into actuality their fully developed conceptions of what a camp should be, and what a camp should mean, to boys. Here is a camp where good times fill all the hours, where every reasonable freedom is allowed, not as a privilege, but as a matter of right; but back of every phase of the whole well-rounded program—aquatics, athletics, woodcraft, nature study, shop, scouting, range, archery, dramatics—is the conception of youthful activity ordered in such a way as to build character. What I have seen in the

summer-time growth of my own son, what other parents have told me as to what Kawanhee has meant to their sons, justifies the statement that here is an effective influence in the development of worthy and enduring qualities of personality. That in the end, is what makes a camp worth while.

If there were space for it, one would write of counselors chosen not only for their knowledge of some form of camp activity, but for their understanding of boy life and problems, their leadership ability, their personal worth and ideals; of junior counselors themselves in part a product of Kawanhee training; of the unlimited helpfulness and pervasive influence of Ma Frank; of the Sunday morning talks by various members of the staff; of the impressive Sunday evening service, of the moral tone and positive religious spirit of the camp as a whole; of the comments and confidences of sons revealing the learning of lessons of unselfishness, obedience, dependability, perseverance, confidence, courage, manliness.

Five hundred words allowed me to express appreciation, heart-felt gratitude, recognition of high ideals faithfully adhered to, of values of life-long significance! Totally inadequate! To put it all in one sentence, Kawanhee must be placed along with home and church and school as agencies which have helped to shape rightly the ideals and attitudes of my son.

Many Fine Swimmers are Developed at Kawanhee

CAMP KAWANHEE—1945

General Directions

Personal Outfit—No expensive special costume is required. Clothing which a boy would customarily wear at home during the summer proves quite satisfactory. For general daily wear we recommend the following:

- 2—Cotton Gym Shirts—White or Gray (Preferred)
- 2—Pairs Shorts—Kaki or Gray Drill (Preferred)

Mark All Clothes with woven name tapes or with a good grade of indelible ink. Place adhesive tape in shoes and mark plainly. There will be ample room for all clothes in the lodge.

Ship by Express—If there is not room in the trunk for blankets, sheets and pillow, ship in duffle bag or carton by June 25, via American Express, in the boy's name, to Wilton, Maine, care of Camp Kawanhee.

Directions for Traveling and the shipping of trunks, etc., will be mailed the camper at least two weeks before camp opens.

Steamer Trunks are preferred. They are kept under cots. List the contents and post on inside of lid.

Two Trunk Keys should be provided—one to be retained by the boy and the other tagged with his name and mailed to the camp or handed to the directors at the station on the day of departure.

Necessary Articles

- | | |
|-----------------------------------|---|

APPLICATION

Camp Kawanhee - 1945

Full Season — July 1st to August 26th

Application Fee, \$10.00

I wish to enter my son in CAMP KAWANHEE for the season of 1944. Enclosed find the application fee of ten dollars (\$10.00) to be applied on the tuition.

In case of dismissal, or departure on account of voluntary withdrawal, there will be no refund of camp fees for the time reserved. If, however, unforeseen circumstances, such as sickness or accident, make it necessary for a camper to withdraw before the expiration of the term for which he is enrolled, the tuition loss will be shared equally by the camp with the parent. There will be no reduction in tuition for slight delays in entrance or departure.

Maine---A Wilderness State

Three-fourths of the State is Still Heavily Wooded

From the days of "Thoreau," Maine has been one of the most favored regions for camping in the country. With its great stretches of unspoiled forests, its thousands of clear, sparkling lakes, its fine fishing and lofty mountains, it has become, indeed, the "Playground of the Nation."
