CAMP KAWANHEE

1947

On a Mountain Lake In the Maine Woods

Camping In Maine

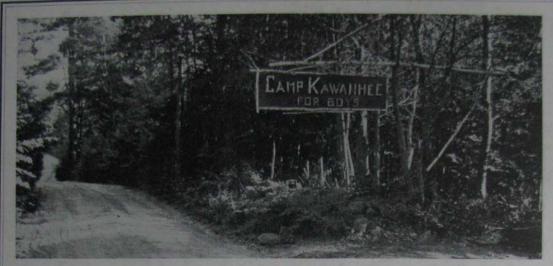

From the days of "Thoreau," Maine has been one of the most favored regions for camping in the country. With its great stretches of unspoiled forests, its thousands of clear, sparkling lakes, its fine fishing and lofty mountains, it has become, indeed, the "Playground of the Nation."

Here. Kawanhee boys revel in the rare beauty of its scenery; its quaint old country roads; its soft carpeted woodsy trails; its blue skies and gorgeous sunsets.

Here is a climate famous for its bracing air, with a "mountainy" tang that is unsurpassed. There are more hours of sunshine during July and August than is found in any other place this side of the Torrid Zone.

Here is wild life in abundance, from the screech of the eagle to the eerie cry of the loon at sunrise. Deer and moose roam its woods, and now and then one catches a glimpse of a mother bear and her cubs, on the road to Swift River.

This is indeed, God's Great Out-of-Doors, where Beauty! Health! and Color! lie in wait at every turn.

At Weld, Maine

Season 1947 From July 1st to August 26th

Playing Farmer for a Day

A Message To Parents

THE Directors of Camp Kanawhee believe that when a youngster starts for camp, three people from his home go to that camp, for just as surely as the boy is there in person, his mother and father are with him in spirit. To the parents we want to say that:

At Kawanhee your boy will be comfortably housed with boys his own age in a dry sanitary cabin. He will sleep in his own individual cot and will never be left alone at night. A counselor will always be on duty.

He will be led the finest of nourishing food and in quantities to satisfy the ravenous appetites of growing boys. Pasteurized milk, only, is served.

At the slightest sign of sickness he will be under the care of a graduate nurse who will be in attendance throughout the season. Three reputable physicians are within twenty minutes drive of the camp.

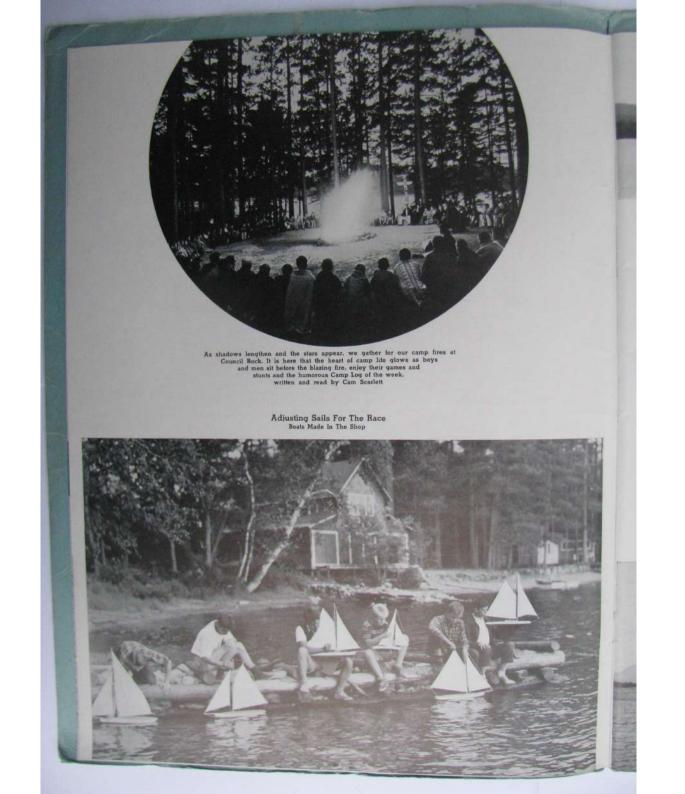

He will never be in the water except at the scheduled swim periods and will never take a canoe, rowboat or sailboat out by himself until he has passed the necessary swimming and boating tests. A beach guard is on duty throughout the day.

He will at all times be under the guidance of a group of mature men, who will surround him with safe, intelligent supervision. There is one man for every five boys enrolled. Permanent "life forces" effecting clean moral and spiritual growth are awakened in many boys through the close association and companionship with Kawanhee men.

At no time in life is health more rapidly or more permanently established than during the growing years. Boys who have camped at Kawanhee during the past twenty-five years have returned to their homes in the fall greatly benefited in health. Every condition at Kawanhee, with its clear mountain air, its balanced diet of home-cooked food, its cool nights and refreshing sleep, contributes toward the development of strong, vigorous stamina so needed by the modern boy. To many boys it means greater resistance to colds for the coming school days, a keener appetite, and a more intelligent appreciation of regular health habits.

The benefits derived from a season at Camp Kawanhee are so numerous and varied that each boy enrolled is assured improvement along many lines. It is traditional for Kawanhee boys to work toward the achievement of some worthy objective. We do not believe in an aimless summer for active boys. Our program is highly diversified to meet the needs of a variety of interests. Each boy is encouraged to find his interests early in the season—something in which he can excel. In that accomplishment he learns not only the value of initiative and resourcefulness, but also how to apply himself to get effective results.

If he is timid and shy, he will learn through the joy of new adventure to do many things which every normal boy longs to accomplish. It will give him a chance to express himself in a group, to develop a higher degree of confidence, to stand on "his own" and realize he is standing alone without mother or dad to help him. Such experiences build backbone and dependability as no other youth experience can. With new vision and understanding, he will return to his home in the fall a lad of courage and bigger powers.

An Ideal Location

Safe, Healthy and Thrilling for Growing Boys

CAMP KAWANHEE is located on the east shore of Webb Lake, at Weld, Maine — eighty-five miles north of Portland and twelve miles from the nearest railroad. It comprises three hundred and sixty acres of timber land and has a shore line of woods and sandy beaches extending over a mile in length, on either side of the lake.

The exceptional location of the camp, at the entrance of the "Narrows" of the lake, has been pronounced by men qualified to judge camp sites, as one of the finest natural settings for a boys' camp in the country. There is a protected cove and sandy beach for safe swimming,—gravel subsoil and good drainage, pure drinking water from a hillside spring, miles of pines and pointed firs, an unsurpassed view of mountains, glorious sunsets, invigorating air, cool nights, and refreshing sleep. Neither word nor picture can do full justice to the delightful location of Kawanhee.

Lake Webb is five miles long and two miles wide, and is completely surrounded by mountains. It is fed by springs and mountain brooks. The water is clear and pure and never too cold for the early morning plunge. During the past several seasons the temperature of the water has averaged between 72* and 78° at the eleven o'clock swim period.

The surrounding country is wild and rugged and appeals to the adventurous spirit of growing boys. Just to run, to swim, to shoul like a wild Indian on the warpath, to follow trails over lofty peaks, to spy on deer and moose as they come to the lake to drink, to investigate beaver dams, to capture woodchucks and porcupines, to fish for trout in swirling rapids, to sit by glowing camp fires at night, or roll up in blankets under the stars and listen to strange noises of the deep woods—What a life! Such thrilling experiences make every fellow worth his "salt"—a bigger, better, more self-reliant man.

Careful Instruction Given
A First-year Boy Learning the "J" Stroke

Health and Food

Any Normal Boy Will Be Safer at Camp Kaucanhee Than in Any City in the Country

Physical Improvement — Kawanhee is a place of abounding health. During the past neveral years, hundreds of parents have found it to be a good investment to send their boys to this beautiful spot in the Maine woods, where the invigorating air and sunshine are unrivelled. Each year, many boys who come to camp in a weakened and run-down condition, teturn to their homes in the fall, healthy, rugged and brown, with clear eyes and brain, keen for the work of the next school year. Boys are entirely free from hay fever and asthma at Kawanhee.

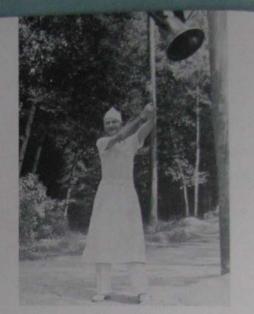

A long night's sleep of ten to eleven hours, and rest periods preceding and following the noon meal, prevent any possibility of over-doing.

Boys under weight receive special diets. Milk and crange juice are served during the forencon, and chocolate malted milk before taps at night. Many boys consume over two quarts of milk daily. Gains of six to ten pounds are quite common each season.

Medical Attention — We are indeed fortunate to have the services of Dr. Garfield G. Defoe, a reputable physician who is within 20 minutes drive of the camp. Also, a resident graduate nurse is in attendance throughout the season. Skillful surgical assistance is available at the Rumford Memorial Hospital, one of the newest and most modern in the state, and less than an hour's drive from the camp. Experienced dentists are only a few miles away.

Lodge Interior
Two rest periods are observed each day

Time to Eat

Lawrence Briggs ringing the dinner bell. He and Emma,
his wife, have been Head Cooks at Kawanhee for many
years. Their delicious meals are never forgotten by
Kawanhee boys.

The camp hospital has all necessary conveniences needed in caring for emergencies. There is room for six beds, a first-aid room and a fully equipped bath with hot and cold running water.

Food — The growing boy is prone to have three serious thoughts in life: When Do We Eat — Where Do We Eat — What Do We Eat? At Kawanhee, the purchase of food and the planning and balancing of meals are under the direct supervision of a dietitian. The food is excellent. No expense is spared to make it appetizing and nourishing. "Seconds" and "thirds" when needed are always on hand to satisfy the ravenous appetites of growing boys. All bread and pastries are made fresh each day in the camp kitchen. Pasteurized milk, only, is served.

Drinking water is secured from a hillside spring. Its sparkling purity is beyond question. Each year it passes the most severe tests by the State authorities.

Sanilation — Our "Class A" sanilary rating, awarded each year by the State Sanilary Inspector, ranks among the highest for camps in Maine. This record merits careful consideration by parents who are interested in placing their boys in a safe camp for the summer. Hot and cold shower baths and flush toilets are a part of the equipment. Each boy has two or three hot baths per weak in addition to the daily awim periods. Baths are carefully supervised.

Management

A Unique Family Organization

Directors — Camp Kawanhee is under the joint ownership and direction of two brothers, George R. Frank, Principal of McGuffey School, Columbus, Ohio — former Director of Manual Arts in the Columbus Schools, and Raymond C. Frank, for twenty-five years Director of Young People's activities at the First Presbyterian Church, Englewood, N. J. He is now living at Weld, Maine, and is devoting his full time in the interest of Kawanhee. Both brothers were born and reared in Maine, and are trained workers with boys of early adolescent age.

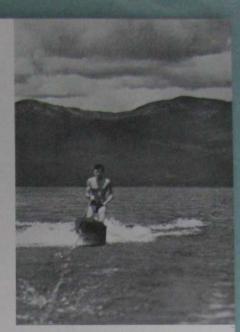

Camp Mother—Mrs. Raymond Frank will serve as Camp Mother for the coming season. She has had several years experience in camp work and has been Asst. Camp Mother at Kawanhee for the past few years. Parents may feel assured in sending their boys to Kawanhee that they will receive the type of personal attention that means so much, especially to boys in camp for the first year.

Particular attention will be given the younger boys in camp, seeing that they have sufficient covers for the night—that they are adequately clad on cool mornings and in rainy weather—that buttons are sewed on, torn trousers patched, and salls constructed for new boats made in the shop.

Camp Dietitian — Mrs. George Frank serves as Camp Dietitian. She has made dietetics, as it relates to the proper feeding of growing boys, a careful study for many years. She plans the menus, and supervises the preparation of the delicious and carefully balanced meals served. Kawanhee has always been noted for its excellent food.

In addition to her duties at the boys' camp, she is resident manager and dietitlan at Kawanhee Inn, where many parents and friends spend their vacation each year. The Inn is a half-mile from the boys' camp. See page 47,

Caretaker—Mr. Pegleg White, a resident of Weld and an experienced woodsman, has been Caretaker at Kawanhee for the past fourteen years. Under his able management, the Camp and Inn properties are kept in excellent condition. He is a great lover of boys and looks forward to the opening of camp each year when a host of his young friends return.

Keen Sport Enjoyed by Lake Swimmers

Taking Careful Aim

Good to the Last Seed

At the Sound of the Whistle

The water is clear as crystal and just right for delightful awimming and diving.

The temperature averages between 72° and 78° at the 11:00 A.M. swim perjod.

Dining Lodge Where Finicky Appetites Are Soon Forgotten

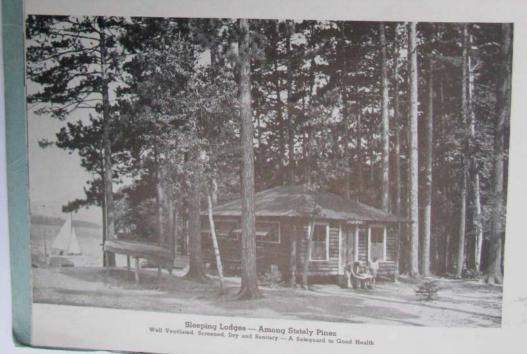

General Equipment

 $T^{\rm HE}$ camp is splendidly equipped. Most of the buildings are of heavy log construction, roomy, rostic, built for our purpose, and exactly suited to our needs.

Nestled among the trees by the ahore of the lake are ten sleeping lodges built in regular frontier style. They are absolutely free from dampness in rainy weather. Each is equipped with comfortable cots and mattresses and accommodates from seven to nine boys and two counselors. We have never considered it advisable to sleep our boys in tents, preferring instead, well-built lodges which are safe, comfortable and sanitary.

Convenient to the sleeping lodges are the dining lodge and recreation building, a large shop where sixty-five boys may be accommodated, a new Scout and Camporaft building, a rifle and archery range, the camp hospital, boat houses, and the finest of boating and athletic equipment.

The entire equipment at Kawanhee is rated among the finest in the country for gentile boys.

Kawanhee Cove - Swimming and Boating Area - Fine Sandy Beach The Boating Equipment Includes Twenty-four Canoes, Equipped with Keels for Lake Use, Six 18 Ft. Round Bottom Canoes for shooting Rapids on Long River Trips, Twelve Row Boats, Five Sail Boats, Two Motor Boats, and Two Large War Canoes Accommodating Fourteen Boys Each.

The Recreation Hall THE RECREATION HALL contains a large assembly room, camp museum and nature room, a new lapidary shop where minerals are cut and polished issee page 34), a large stage, and the camp store and post office. It is here that boys and counselors gather for those more infinate conferences so dear to the heart of every youngster. The day's work and fun must be talked over with the gang. Two massive nine-foot fireplaces keep the building warm and cheerful on chilly evenings.

A Day at Kawanhee

Fun

A SUMMER at Kawanhee assures each boy a never-to-be-forgotten experience of wholesome fun and sports, new friends and new accomplishments. A typical day begins with reveille at 7:30. Within the next half hour the camp is alive with jokes and laughter. "Me for a dip" is the familiar expression on every side. Although not compulsory, several boys are already splashing in the crystal clear water on the sandy beach or taking a dive from the high board. Soon the five-minute, all-out whistle blows and everyone sprints back to his lodge for a brisk rub-down. My, but it surely makes a fellow feel great! And such appetites! The smell of sizzling bacon is in the air.

By 8:00 o'clock, tollowing the flag-raising ceremony the entire group of hungry braves file into breakfast, keen with anticipation. And such a meal! There's iresh fruit, cereal, rich cream, cocoa, flaplacks, bacon, served in quantities to meet the needs of the most ravenous of the Kawanhee tribe. By 8:30 with appetites completely satisfied we are ready for the day's program. No two days are just alike.

First of all, each boy does his bit in cleaning up for lodge inspection. Beds are made, floors swept, shoes and toilet articles neatly arranged, clothes all in place, trunks ready for inspection, lanterns cleaned and polished, porches, floors, and steps swept and bathing suits arranged on the outside rack.

A Fine Sandy Beach

On Your Mark Several fast aprinters in this group

At 9:00 o'clock the instruction activities begin and last for two hours. And what a variety of activities there are! It may be on the lake learning to row or paddle a canoe-passing tests in J. L. S .sailing the Sea Gull in a stiff breeze or a kayak just completed in the shop. It may be down through the Narrows after big fish or on the baseball field in a close game-or learning to pole-vault and put-theshot-or mastering a difficult stroke in tennis. It may be learning to box and wrestle-how to handle the bow and arrow or shoot for a bulls-eye on the rifle range-how to build a fir-bough lean-to or a real log cabin-or cook a meal over an open fire. It may be in the shop having heaps of fun building boats and airplanes, hunting knives and kayaksor learning the trees, the birds and the flowers-or grinding and polishing beautiful minerals-or completing merit tests in Scouting.

The 11:00 o'clock swim comes just at the right time. Everyone cools off after a strenuous morning in the open. The air is filled with joyous shouts of happy youngsters. Some are learning to swim, others are mastering new strokes and dives, while a few are stretched out in the sun on the warm, sandy beach, hoping to look like young Indians before camp closes. By 11:30 the all-out whistle sounds, after which boys and counselors return to their lodges for forty-five minutes of rest and sleep.

Preparing a Supper-Out

Enjoying A Sail In His Kayak Made in the camp shop

Plus

Boy Life at Its Best

Dinner at 12:45 is followed by a short rest period—just enough time to write a letter home, take a nap, or make final plans for a new cabin across the lake.

The afternoon program, to many boys, is the most interesting part of the day. There's the base-ball league Mondays, the big water meet Wednesdays, and the athletic meet Saturdays. On the remaining afternoons each boy chooses what he would like to do.

Usually one group goes out for golf, a second for tennis, a third works in the shop, the nature laboratory or dark room, a fourth fills the range. Eddie has challenged Frank to a sail-boat race-both boys are all pepped up to get underway. Bill and Tom have just pushed off on a lake trip after bass. lack knows where a 3 lb. pickerel was jumping the other day and believes he can tempt the old fellow to bite. Joe, Tom and "Slim" are preparing for an over-night trip on the mountains. They expect to make this a real he-man trip - paddling to the head of the lake and hiking the rest of the way - no pink-tea trips for them. They are training for football and hope to be "hard as nails" when camp closes. "Jerry" and "Mike," equipped with saws, hammers and spikes are on their way to Sunday Beach to complete the log raft which has been under construction for the past few days. "Mac"

and "Skip" have reached their secret cabin down by the dam, about a half mile from shore. The ring of their ax is plainly heard through the dense forest. Smoke from their fire starts curling through the tree tops. Soon the coals are glowing red and potatoes, steak and perhaps a freshly caught bass are all done to a turn. What a life! What a thrill to be on your own in such a glorious setting! A boy never forgets days like these. Best of all are the enduring friendships which are cemented in the wholesome atmosphere of the great outdoors. Those who remained in camp have already enjoyed the 4:00 o'clock swim. Before a boy realizes it the sunshine of another day draws to a close, full of happy experiences never-to-be-forgotten.

Supper follows at 5:30, after which boating, fishing, hikes to the village, baseball, tennis, capture the fort, and other interesting games are enjoyed.

We then gather for our camp fires at Council Rock. A simple ceremony marks the lighting of the fire. There is singing together, traditional Kawanhee songs, sung to the finest old tunes. As the embers begin to glow and Dean Miller finishes one of his thrilling stories, we rise, and in the stillness of the forest, sing our good-night song. Such a gathering, day after day, becomes a living force in a boy's life.

Taps: Junior C's retire at 8:00 o'clock: Junior A's and B's at 9:00: Seniors at 9:30, and Master Campers at 10:00. All lights out at 10:30.

Aquaplaning At High Speed

A Busy Day In The Shop

Non-Swimmers Learning the Kick An excellent method to develop confidence

Taking Careful Aim

Many fine bows are made in the camp shop each year

The New Scout Cabin

Twenty feet wide and thirty-four feet long. It is open on three sides and has a large rock fire-place at the closed end.

Scouting

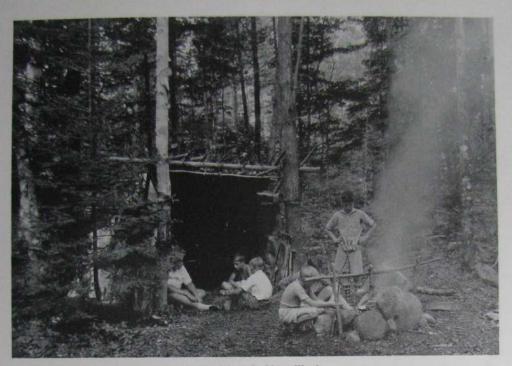

A COMPLETE Scout program is offered at Kawanhee. The equipment and natural surroundings are ideal for boys who wish to pass Merit Badge Tests in Cooking, Camping. Pioneering, Bird Study, Sailing, Navigation and many others. On our three hundred and sixty acres of heavily wooded property there are pienty of trees available to build raits, bridges of all types, isan-tos, log cohins and—best of all, comfortable bough beds of balsam.

During the past lew years, lifteen boys have qualified for their Eagle Badges. Several boys each year join the Scouts during the season. The Scouts have organized them selves into Kahne-do-go-nah Tribe, meaning among the pines." Scout meetings are held Wednesday evenings in the Scout cabin and consist of consests emphasizing special phases of the work, as well as games, stories, singing, and marshmallow roasts.

Cabin Under Construction

Built entirely by the boys including felling the trees, notching the logs and rolling them into place.

Healthy Life in the Maine Woods

Lean-to made by the boys. The roof and sides are covered with large sheets of birch-bark which make it a cory place to sleep even in rainy weather

A Little Coaching In Camp Cooking

Camperalt in its most vigorous forms is encouraged. Proparation for trips is an important part of the program. Boys must know how to build fires—how to cook—how to make rain-proof shelters and comfortable bough beds for the night—how to follow

trails through woods and over mountains and roll blankets into a neat pack — how to load a cance — how to catch and clean fish — and the best balt to use — how to fell a tree — use of the ax and crosscut saw. There is never a dull moment in the Campcraft program.

A Class In Resuscitation

Water Sports

KAWANHEE COVE, with its fine sandy beach and clear sparkling water, is unsurpassed as a safe and ideal setting for every conceivable type of fresh water sports.

Each boy in camp learns to swim. The morning period, beginning at 11:00 o'clock, lasts for a half hour and is used for special instruction in new strokes, diving, Red Cross tests, etc. At this time of day the water lemperature averages between 72' and 78'. The 4:00 o'clock period is used as a free-for-all swim, aqua-planing, water polo and for cove and lake swimming tests (a one-eighth and one-quarter mile swim, respectively).

It is important to note that accredited Red Cross Lifeguards and Supervisors are stationed on the docks, diving tower, beach, and at least two in patrol boats, ready to give Instant assistance should need arise. No boy is permitted to enter the water until the guards are in position and the whistle has blown. Absolute obedience is required.

Also, each Kawanhee boy must pass his swimming tests belore he is privileged to use the boats. A beach guard is on duty throughout the day. Those who wish to use a boat must report to him. It is his duty to check all boats out on the basis of the boat privileges each boy has won.

The big aquatic meet of the week is held Wednesday afternoon. This is the time when every fellow "struts his stuff," as Greys and Marcons compete for honors. There is swimming, diving, rowing and canoeing [singles and doubles], canoe bobing, war canoe races, aqua-planing, water polo, sailing, exhibitions of Red Cross Life Saving, fancy diving and special clowning stunts by counselors. The competition is keen and exciting.

During the past season of 1946, twenty-five boys completed the requirements for the Ir. Red Cross Life Saving Emblem and twelve completed the Senior requirements.

See Page 45 for name

Head Coach

Asst. Coach Chas. Bolon. Left Fourth Row

This was the largest class in the history of Kawanhes.

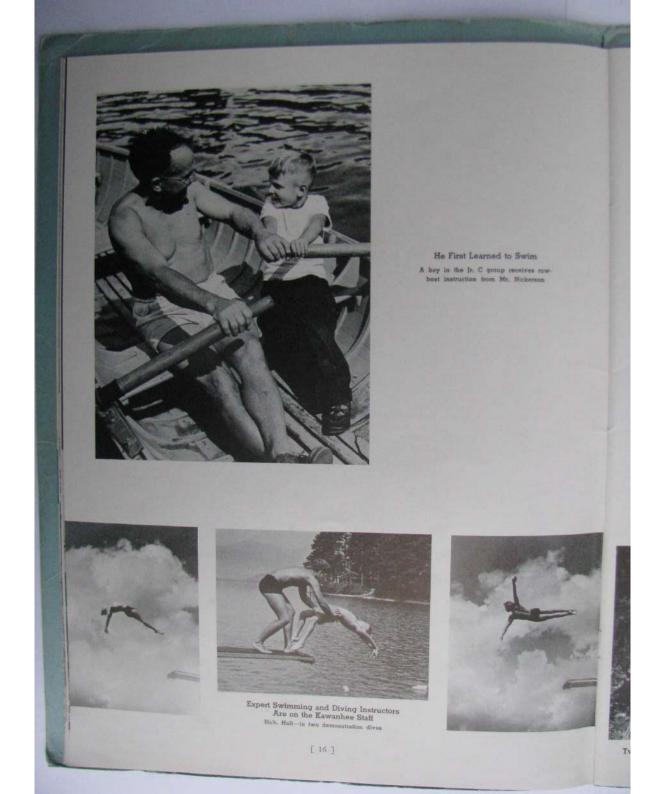

Boys Who Learned To Swim Season of 1948

At the outset of the camp season every boy who has not learned to swim receives instruction in a roped-off area of shallow water. The boys are taught in small groups and learn to swim within two or three weeks after camp opens. During the past season several swam the cove— Va mile while a few completed the lake swim of ¼ mile.

Swim Time

This is the happiest time of day for the majority of boys at Kawanhee. The water is clear as crystal and never too cold for a glorious swim. Coaches of championship quality are on the camp awimning staff each year. During the past season Mr. Richard Hall, a member of the famous awimning team at Ohio State University in '35 and '36 directed all swimming. He was ably assisted by Chas. Bolon, of Ohio State University.

Vesper Service

Held on the lake at twilight, boys and counselors gather in boats and canoes about this rugged old rock, located about a mile from the camp shore. The rock is known to all the boys as Bass Rock

Sundays

THE religious life of Camp Kawanhee is non-sectarian. Sundays are spent quietly. Every fellow adorns himself in his cleanest "whites" before breakfast, and at 10:30 we assemble in our outdoor chapel among the trees by the shore of the lake. The service is simple and deals directly with the problems of a boy's daily life. Boys of Catholic faith attend church at Rumford, a short distance from camp.

Following the noon meal of chicken and all the "fixings," the usual rest hour is observed. The Sunday

letter is written and plans are made for short trips, sailing, tennis, golf, canoeing, etc.

Throughout the whole Kawanhee program there is an unobtrusive yet very positive religious influence. We seek leaders of broad sympathies, with an inspiring message for all, men who read "Sermons in Stone" and see good in all God's handiwork. Our camp chaplain understands the spiritual needs of boyhood, and enters into the physical and social life of the camp as one of its strongest leaders.

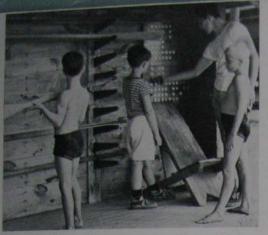

Two Young Weather Prophets

Mr. Bateman Has A Willing Helper Using the Crosscut Saw

Down the Lake in the Sea Gull

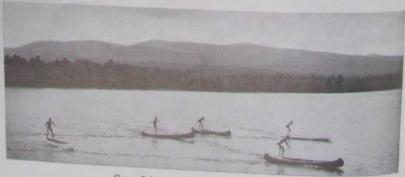

Oar House and Beach Guard Headquarters

Safety First

A beach quard is on duly throughout the day. Boys desiring to use row boats or canoes are checked out on the basis of the swimming and boating tests they have passed.

Paddle Winners — 1946

Canoe Bobbing — Each Boy a Skillful Swimmer

Canoeing

Finel Keenl Swell — yes and even "Hot Dog!" characterizes the whole-hearted expressions given by many boys when they finally receive cance privileges — one of the most favorite sports in camp. Before a boy may use a cance he must pass swimming and cance tests and win his right to a paddle. The camp furnishes paddles for each cance but not for each individual boy. Those who prefer to have one of their own — with symbols of accomplishment painted on the blade, may purchase it, at cost, in the camp store.

To win his "C" a boy must swim the Cove, 1/6 mile. If he swims the lake in front of the camp, 1/4 mile, he receives a grey and maroon bar painted at the top of the blade. After passing the advanced cance lest, two bars are added at the bottom, Junior Life Savers receive a J.L.S. between the top and bottom bars. Ir. C's must stay within the cove and in sight of the Beach Guard at all times.

War Canoe Crews
Each caree accommodates fourteen boys

Ready to Shove OH

There are thirty well built canoes in the camp fleet. Six are the famous Guides' Model, used especially on long canoe trips shooting rapids.

Steady! Aim! Fire!

Target Practice

TARGET PRACTICE is one of the most popular sports in camp. Every boy learns the correct and safe way to handle a gun. The camp turnishes guns and ammunition. Several boys, however, bring their own guns with them. The range is carefully guarded. Military obedience prevails. Under the auspices of the National Rifle Association, boys shoot for the following medals which are awarded at the formal Saturday night Camp Fires: Pro-Marksman, Marksman, Marksman First Class, Sharpshooter, Bars 1-2-3-4-5.

Several High Medal Marksmen in This Group — 1946
Over twenty-five thousand rounds of ammunition were shot on the range last year

Archery

A RCHERY is one of the few sports that permits participation by the youngest as well as the oldest boy in camp. Deep in everyone is the instinct to pull a strong bow and watch the keen shaft fly.

Many boys enjoy building their own bow in the shop. Imported lemon wood is used. The bows are beautifully finished and some are horn-tipped. There are the great six-foot bows made by the older boys, powerful enough to bring down a deer or the largest moose that roams the woods of Maine. Then there are the smaller bows and arrows such as any Indian

The following medals are awarded throughout the season under the rules and regulations of the Camp Archery Association:

- 1. Jr. Yeoman Pin
- 2. Jr. Yeoman Arrow 3. Yeoman Pin
- 4. Jr. Bowman Pin
- 5. Jr. Bowman Arrow 10. Silver iPn
- 6. Bowman Pin
- 7. Bronze Medal 8. Silver Medal
- 9. Silver Bow Pin

Good Form Is Stressed

The new Archery Range is located at the north end of the athleetic field. For the coming neason several new archery games will be introduced with Archery Golf as one of the main attractions.

A Lesson in Rowing
In Cs are authusiantic oursees. They may use the boats in the cove
when the beach quard is on duty.

The New Junior C Program

For Boys 7-8 and 9 Years of Age

M ANY parents who appreciate the value of mature leadership for their younger boys are enrolling them at Kawanhee. Perhaps at no other age does camping offer more glamour and appeal. The little folks are enthusiastic campers. They learn to live and play happily with boys their own age, develop self-confidence, resourcefulness, and a spirit of comradeship.

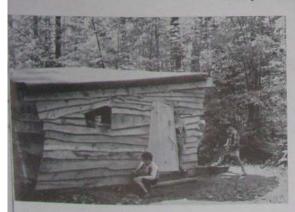

Their projects are carefully chosen and are kept well within the strength and ability of the smallest boy. For the coming season there will be hours to play on the sandy beach and grow big and strong in the fresh mountain air and sunshine; time to sail small boats and fly toy airplanes; to explore fields and woods under trained leaders and learn many of Nature's wonders. In the shop, boys will build boats, kites, airplanes, and useful articles of their own choice. Others will enjoy building rafts which they can paddle in the shallow water of the cove.

Each boy will learn to fish and swim and row. Some will even swim the one-quarter mile across Webb Lake and receive the coveted paddle and use of canoes in the cove. Best fun of all for many will be trips to the nearby mountains or paddling across the lake to sleep in an Adirondack lean-to, listening to strange noises in the woods at night and enjoying the never-to-be-forgotten thrill of cooking over an open fire. Baseball, tennis, and archery will be carefully taught, and boys who enjoy shooting a gun will have opportunity to try their skill on the range under sale supervision. There is never a dull moment in the lunior Corogram.

Throughout the entire program the importance of adequate rest is emphasized. Special rest periods [for naps] follow the morning and afternoon awim at 11:30 and 4:00, respectively. Also, a quiet hour from 1:00 to 2:00 precedes the afternoon activities. Taps are at 8:00 o'clock.

Trying Hard to Improve Their Game Many mistakes are corrected on the practice board

Breaking His Own Record

Keep Your Eye On The Ball

Golf instruction is provided as part of the regular program. A sporty is within easy riding distance of camp. Boys pay their own greens fees.

Athletics

THERE is good wholesome fun in all the games and sports at Kawanhee. Boys eager to improve their athletic abilities have all the advantages of skillful coaching and instruction.

On the three hundred and sixty acres of camp property, a fine level athletic field has been developed. Games which are most beneficial, and which appeal especially to boys of camp age, are taught by trained athletes. There is baseball, tennis, boxing and wrestling, football—suitable for summer camps—horseshoe pitching, high, broad jump and pole vaulting pits.

Baseball receives special prominence throughout the season. Soon after camp opens, every boy is chosen on one of the Junior or Senior League teams—usually six teams in each league. The competition is keen and exciting. Coaches are on hand to teach the finer points of the game. The climax of the season occurs when the World's Series games are played the last week of camp.

During the past season of '46, the Pirates topped the Braves 11 to 8 in the Senior League and in the Junior League, Pete Capra's team defeated the team headed by Ray Brown by 5 to 4.

Tennis — For many boys, tennis is the most popular game in camp. Two counselors give their full time to coaching. Special classes are organized for beginners, many of whom show marked improvement during the season.

Careful Competition — No boy is allowed to overtax his strength. Those who do not enjoy athletics may follow a program requiring less physical exertion, such as, sailing, rifle practice, shop work, fishing or trips.

Won the Praise of Many World Travelers

Sailing Through the Narrows

Off to a Good Start
Sails swell to the breeze as trim crafts skim the blue surface of Lake Webb

Sailing

SAILING has been adopted as an important camp activity. To many boys it is the most enjoyable sport in camp. Advancement in the course depends upon one's ability to take orders from the Sailing Master and execute them skillfully without delay.

The month of July is devoted to group instruction. To pass the required tests boys must demonstrate their ability to do four things well: (1) To tie the common sailor knots; (2) To do at least one form of splice; (3) To pass an examination based upon a course in Theory and Practice of Seamanship; (4) To go to a sail boat lying at her moorings, get her under way, sail her around a prescribed course, pick up

moorings, tie up, and leave the boat in ship-shape condition as to sails, center-board, etc. (No boy who cannot swim the lake—¼ mile, is allowed under any conditions to take the last test). A thorough grounding is given in how to meet the unusual situation, such as a sudden squall or a difficult landing.

By August the majority of boys have passed their individual tests and are ready for the thrills and excitement of crew racing. We anticipate the keenest kind of rivalry as to who will receive the silver medals awarded to the most skillful skippers at the close of camp. One and two-men crews will compete.

Hunting Knives of Finest Quality Are Fashioned at Our
Forge Each Season. It is Fun to Heat a Bar of
Steel Red Hot and Hammer it into Shape

Shopwork

OUR shop is the busiest place in camp. On rainy days it is filled to capacity. Many happy and profitable hours are spent here during the season. Two experienced teachers of manual training devote their full time to the work.

It is a pleasure and revelation to observe a room full of boys at work on a busy day. Boats of all descriptions are being made, including 12-foot and 14-foot Kayaks, racing yachts and motor boats to be equipped with spring motors. In another section, model airplanes of all sizes and designs are nearing completion. In the metal-working department hunting knives, beautiful trays, plates, book-ends—etched or pierced in pewter, brass and copper are being hammered into shape. Many lemonwood bows, beautifully finished, birch-bark bird houses, rustic furniture, and canoe paddles are made each year. In another section devoted exclusively to leather work, belts, bill-folders, moccasins, key holders, camera cases, ax sheaths, with many of the pieces hand tooled with initials and special designs, are in the process of completion. This is indeed a wonderful place, where surplus energy is directed into channels of creative thinking and worth-while doing.

Two Fine Strings of White Perch
The best fishing is after supper. The boys go out in
two or three boats, with Mr. Spangler in charge,
and fish until taps.

Maine is famous for its trout, salmon, white perch, bass, and pickerel fishing. Cold rapid streams of clear water and thousands of sparkling lakes provide ample opportunity for boys who wish to test their skill in this most interesting sport.

The white perch fishing on Lake Webb is considered the finest in the state. It is not unusual for boys to catch twenty-five to thirty in an evening's fishing. The fish average in weight from 1/4 lb. They are delicious eating and furnish many a fine breakfast for Kawanhee boys.

Landing A Beauty
Many fine catches are made within the cove

Fishing Is Good

FISHING has attained the status of a major activity at camp. Mr. Spangler takes charge of it and has done much to help and encourage the camp's budding fishermen. He follows the custom of awarding points for fish caught, ranging from 2 points a pound for perch to 20 per pound for salmon.

Instruction Given — Boys who love to fish, or those who would like to know how, will have the time of their lives at Kawanhee. Individual instruction is given to the youngest Jr. C who has never held a pole nor baited a hook, as well as to the experienced Senior and Master Camper who may wish to improve their skill in bait casting or fly fishing.

Every fellow will want to know the correct bait to use for different fish—how to play them, land them, and clean them—the best time of day to fish—how to hold a pole for trolling when you are alone in a boat—how to care for equipment and practice safety on all trips.

Equipment — Each fisherman must provide his own rod, reel, line and lures. Those who prefer to purchase their equipment in camp will find suitable tackle at the camp store.

Trout Fishing at Tim Pond — A three-day trip of 85 miles to the famous Sporting Camps at Tim Pond is arranged for boys who are interested in trout fishing. Fly fishing, only, is permitted. Over 500 trout have been caught on one trip by Kawanhee boys. The trip costs \$15.00 for the three days to cover the expense of meals, lodging and use of boats.

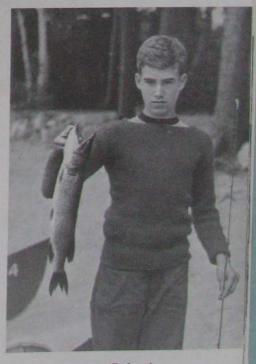

Fishing from the Camp Dock

Every now and then some boy lands a prize and becomes a hero throughout the camp. Perch. bass and pickerel are frequently caught here

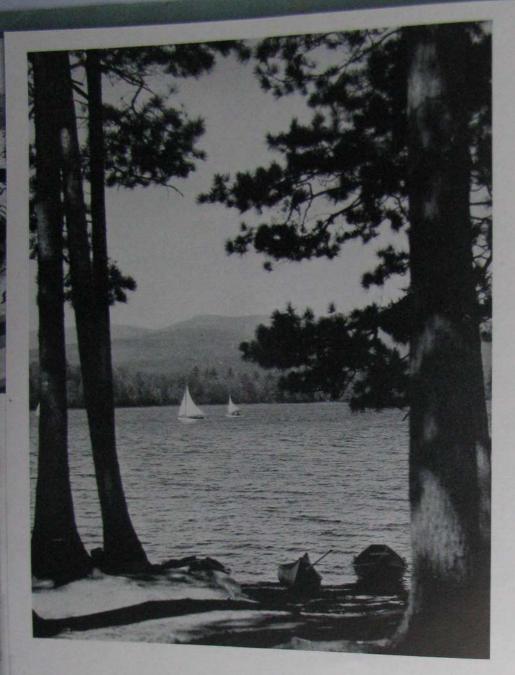

A Big Fish For a Small Boy — 5 lb. Bass

Caught from the main dock by Gardner Defoe,
8 yrs. of age. For a while it was a question whether
the bass would be pulled out or Gardner pulled in.
He landed it without a net.

Pickerel

A beauty, nearly 4 lbs. in weight,
Caught by Chas. Barkwill.

Pines Along The Shore

The shore line at Kawanhee is heavily wooded with pines, birches, pointed firs and hemlock. Such natural surroundings add to the health and enjoyment of every boy who camps here.

Learning From Nature

KAWANHEE is unusually rich in natural beauty, with plant and animal life in abundance. Lake and hillside, with shaded paths and tangled woodland provide places to explore the secrets and beauty of Nature.

"Learning by doing" is the Kawanhee way and nowhere in camp is this more observed than in the Nature department. Acquaintance with wild life is gained by caring for pets in the camp zoo, pursuing tirds on trips afield, and observation of the beaver colony a short distance from the camp.

In the Nature Museum familiarization is begun by means of the Electric Bird Panel, the Ant Palace and Coal Mine, and by means of aquariums and herbariums filled by the boys themselves and watched through every stage of development.

Overnight trips are made occasions for study of the stars, simplified by the "stellarium" in the Nature Museum which flashes familiar constellations later to be identified under the open sky.

A well marked Nature Trail extends nearly a mile through a beautiful wooded section of the camp. Here under stalwart trees, the ground pine and Indian pipe, the red fruits of the bunch berry, and the blue of Clintonia are found in profusion. Ferns, together with mosses and lichens, the products of centuries, cover

New Interests

the rocks and brook bed, and all are made part of a carefully designed project to acquaint the observer with the wonders that Nature has to offer him who will but pause to read.

Microscopic observations, study of ferns and fungi, moth and butterfly propagation, nature photography and other fields of original research voluntarily chosen, are open to boys who wish to become "Naturalists," the highest honor the department confers. Such activities look beyond a single summer's enioyment. They aim to quicken appreciation, awaken interests and develop resources which will in many cases continue throughout the boy's life, adding to his accomplishments and contributing habits which may yield rich returns in later years.

A new Lapidary Department, where boys may cut and polish rocks and semi-precious stones, was added to the equipment in the Nature Laboratory in 1942. See Page 34 showing a picture of boys at work and a more detailed description of this most fascinating activity.

An Early Morning Bird Hike With Mr. Kiefer

A Corner of the Nature Museum

This Is the Way It's Done

Many interesting collections of moths and butterflies are
prepared for mounting in the latest approved method.

The New Lapidary Shop Cutting and Polishing Stones

Mineral Mining Trips

THE splendid collection of minerals noted below, were mined at Newry, where the boys go to add to their rock collections. Each specimen was identified, carefully labeled and placed in the mineral boxes which the boys made in the camp shop. The mineral wealth of Maine is yet untapped, and thousands of dollars worth of semi-precious stones are taken annually from the hills such as these at Newry. Every boy has the thrill of finding beautiful green tourmalines and clear quartz crystals. The more fortunate may emerge with pieces of beryl, smokey quartz or even amethyst.

The New Lapidary Shop — The strange fascination that rocks and minerals possess for many boys is given added stimulus by the new lapidary equipment installed at Camp Kawanhee as a part of the Nature Department's expanding Interest in geology and minerology. This equipment, possibly the only set-up of its kind in any boys' camp in the country, consists of diamond saws for slicing or cutting, horizontal metal disks for rough grinding and a series of wood and metal wheels for polishing.

Here, in addition to the collecting and classifying of Maine's abundant variety of semi-precious stones, the embryo geologist may have the unusual experience of cutting, shaping and polishing his treasures to bring out hidden beauty and unsuspected colors.

The Collection of Beautiful Minerals Is Very Popular With Kawanhee Boys

Making Camp for the Night

Special Trips

F^{EW} camps, if any, are surrounded with the wide range of trip possibilities found at Kawanhee. The very vastness of the surrounding country, from the rock-bound coast of the Atlantic to the towering inland mountains, provides a variety of interesting trips that appeal at once to every normal wide-awake boy.

There are long canoe trips, shooting rapids that are thrillers and real Maine guides, famous throughout the country—spectacular mountain trips, rugged peaks that rise above the clouds, and campfires by the trail at night — fishing trips of all descriptions, and on the banks of Swift River, we pan for gold like the old "Forty-Niners." Then there are seashore trips for surf-bathing at Pophams Beach — only a short ride from camp, and a Windjammer Cruise on the Atlantic in a real two-masted schooner.

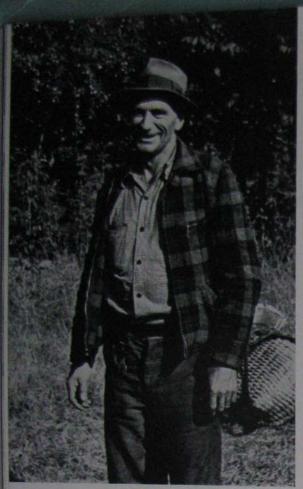

Preparation for these trips is an important part of the daily work at Kawanhee. The first weeks are spent in training on Webb Lake and the local mountains, which rise nearly 4,000 feet above sea level.

The New Trailer Was Designed Especially for Kawanhee. It Holds Six 18 ft. Guides' Model Canoes and Has a Compartment for Supplies and Pup Tents

Each Boy Has His Assigned Task On Portages

Perlie Durgin — Registered Maine Guide

We are very fortunate to have the services of Perlie Durgin, who has charge of all canoe trips where a registered guide is required. He's a rugged woodsman, having had years of experience as guide, log driver and Chief Game Warden on the Canadian Border Patrol. He is greatly admired by every boy in camp.

He knows the trails, the best camping spots, how to shoot rapids in a rushing stream, where the fish bite best, and how to prepare an appetizing meal for hungry boys.

It is indeed a privilege and education for Kawanhee boys to live with these rugged men of the out-of-doors, who know the story which mountains, streams, and wild life have to tell.

Canoe Trips

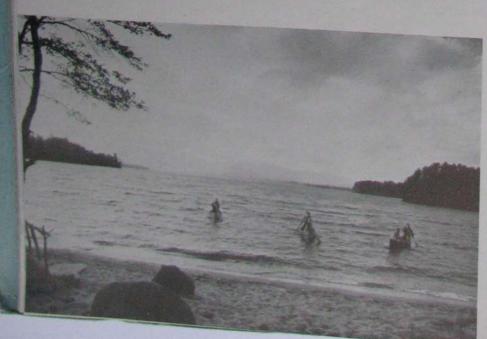

The Kennebec River Trip For the boys who are interested in (Guide required) an all-river three-day trip, the cruise down the Kennebec is hard to beat. It is divided into two trips. The Upper Kennebec is reserved for Seniors and Master Campers, only. It is fast water all the way and more spectacular, even, than any stretch of equal distance on the famous "Allegash." Boys who are looking for a real thrill will find it here.

The Lower Kennebec is a three-day trip of 40 miles and especially suitable for the younger boys in camp who are not ready physically for the more difficult trips. There is plenty of wild country for the first twenty miles and some good stretches of fast water to tempt the adventurous spirit of any boy.

The Moose River Trip This is a three-day trip through wild (Guide required) country for the entire fifty miles. There's fine fishing — fast water — and easy portages.

We put it on Moose River, north of Jackman and paddle down stream to Moosehead Lake, taking out at Rockwood, or, the trip may be continued 20 miles down to Moosehead to Greenville, where we are met by the camp truck.

The Chain-O-Ponds Trip—A three-day trip especially planned for young and less experienced campers. It is 85 miles from camp and passes through a country of dense forests and rare scenic beauty. We reach the Ponds in the early afternoon and enjoy a short paddle before supper. Tents must be pitched and bough-beds made comfortable for the night. The following morning we cruise to the end of the chain—beach our canoe and hike over the famous Arnold Trail to the Canadian Border.

Coming Ashore for the Night

There are many choice camping spots on Lake Webb where boys may camp out for two or three days. On such trips each boy gains valuable experience preparatory for longer and more difficult trips to be taken later in the season. Shelters must be made soft, fir-bough beds prepared, fires built in wind or rain, cooking, reading the compass, trail-making—lif the party explores inland through the forest, and all the various ways of overcoming the difficulties of life in the open.

Mountain Trips

THERE are many opportunities for mountain climbing at Kawanhee for boys who enjoy healthy, vigorous life in the open. Within a radius of only eight miles, five mountain peaks—nearly 4,000 feet high cut across the horizon. Two of them, West Mountain and Mt. Jackson, are blind-trail trips and take "all you've got" to scale them. Later in the season, if you are in good condition and want something really spectacular, there's Mt. Katahdin, a mile high; Mt. Spec, over 5,000 feet, and Mt. Washington, 6,293 feet above the sea.

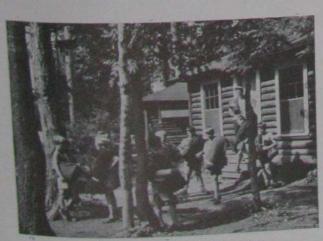

Mt. Blue — A short distance from camp — and easily climbed over a trail 1½ miles in length. At the top is a 40 foot observation tower where a friendly Forest Ranger always welcomes our campers, allowing them to use his overnight cabin if they wish.

Bald Mountain—This is a favorite trip for many of the younger boys in camp for their first year — especially those who wish to "train" for the more difficult climbs later in the season. Old "Bald" is well named because its peak is entirely barren of trees. Supper is usually cooked on the top. We return to camp in time for taps.

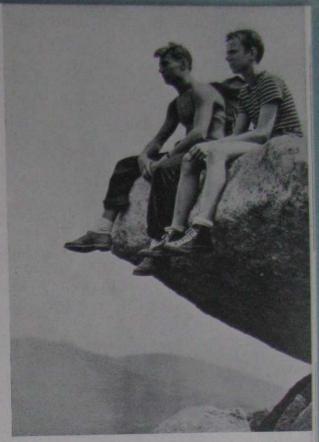

Tumbledown Mountain — Across the lake from camp is, perhaps, the favorite local trip among the Kawanhee tribe. Many boys stay overnight by the shore of Crater Lake near the top and enjoy a crawl through "Fat Man's Misery" and the "Lemon Squeeze."

West Mountain and Mt. Jackson — Each nearly 4,000 feet high, are about 10 miles from camp. We ride to the foot of the mountains and unload packs and provisions. They are both three-day blind-trail trips, reserved for the older and more experienced campers who get a real "kick" in blazing their own way rather than following a well-marked trail.

Mt. Bigelow — This trip of two days adds a touch of romance and history to the scenic beauties that are revealed from its summit. History tells us that Major Bigelow, a member of Benedict Arnold's expeditionary force that marched through the Maine wilderness to Quebec during the Revolutionary War, climbed this mountain, hoping to see the Canadian city from its top. It is 65 miles from camp.

All Packed for a Trip to the Mountains

Near the Top of Mt. Katahdin

Mt. Katahdin Trip — For the boy with a venturesome spirit and a genuine love of the wilds, there is no trip in New England that surpasses the one to Mt. Katahdin, Maine's highest mountain, and declared by experienced mountain climbers the most spactacular and beautiful elevation east of the Rockies. Thrusting its spruce-clad slopes and rocky summit a mile into the clouds, this giant of the East is the first spot in the United States to greet the morning sun.

The trip takes from three to four days and covers a distance of nearly 400 miles. En route to the mountain we stop at Old Town, where we see the famous Old Town Canoe Factory and the Penobscot Indian Reservation nearby.

Several trails up this famous mountain may be used, taxing the skill of the most expert. We follow a safe trail which is well marked, climbing up one side over the "Saddle Trail" and down the other on the "Hunt Trail." We camp both nights at the foot of the mountain, sleeping in Adirondack lean-to's.

Mt. Spec is about 40 miles from camp. It is over 5,000 feet above the sea and is one of the most difficult climbs in the state. It's steep all the way and an excellent test for the boys who plan to climb Mt. Katahdin or Mt. Washington later in the season. It's an overnight, two-day trip.

This is the Life

Biscuits Fresh from the Rock Oven

A Time For Work And A Time For Play Washing dishes at the Outpost Camp

THE OUTPOST CAMP TRIP ON SWIFT RIVER

THE three and four-day trips to the Outpost Camp on Swift River are of special interest to boys in the Jr. B, Jr. A and Sr. groups. This is the trip that every healthy, normal boy dreams about, long before camp opens.

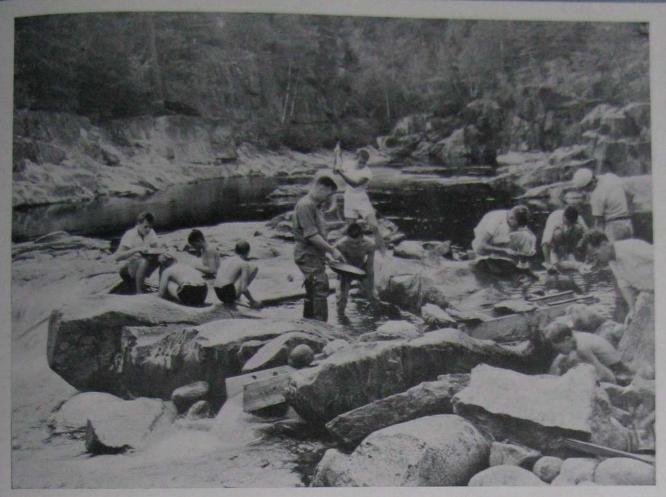

Here, under the shadow of Tumbledown Mountain, is a real "back to Nature" camp. There are pup tents, a large main tent, a cook's tent for rainy weather, a spring hole where milk and other perishables are kept ice cold, and near by, a good supply of firewood.

Every boy is thrown on his own in helping to maintain a clean and healthy camp. He assists with the cooking—washing dishes—sawing and splitting wood—fetching water from the brook, etc. His bed is as comfortable as he makes it. Many boys, however, bring sleeping bags.

Every minute of the day is filled with fun, work and new adventure: There's gold-panning, building dams, trout fishing, tests to pass in scouting, exploring old lumber camps and beaver dams, capturing porcupines, blind-trailing up Tumbledown and, best of all, delicious meals cooked in the open, and roaring camp fires at night.

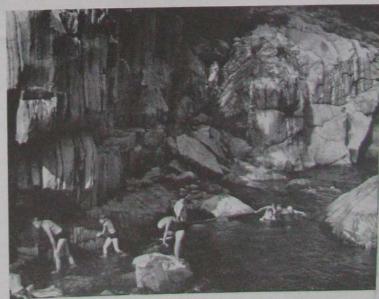

Plenty to Eat It won't be long now.

Panning Gold On Swift River

A thrilling and unique experience awaits every boy at Kawanhee! The first gold found in the United States was discovered not 15 miles from the Camp on Swift River. It is a most fascinating experience for a boy to hold a genuine miner's pan in his hands, just like the old "Forty-Niners," wash out a pile of pay dirt and pick out a few precious pieces of gold. We are looking forward with the keenest enthusiasm to renewing our search for gold during the coming camp season.

The Coos Canyon Trip on Swift River, 15 miles from camp, always provides keen enjoyment for adventurous-minded boys. Its sparkling cool pools of pure mountain water offer most unusual opportunities for short trips from camp. To dive off cliffs, shoot the rapids or climb under the falls gives a boy a never-to-be-forgotten experience. For those who do not care to swim, there are beautiful rock formations to be explored or gold-panning and trout-fishing to be enjoyed. Sizzling steaks, broiled to a turn over live coals, baked potatoes, cocoa, fruit and cookies provide the finish to a memorable day.

An Afternoon of Fun at Coos Canyon Wading Upstream

Seashore Trips

THE WINDJAMMER CRUISE on the Atlantic will appeal at once to every boy who loves the open sea. Two three-day cruises will be made in the vicinity of the historic and legendary Penobscot Bay.

The cruises are under the direct supervision of Capt. Frank Swift, a typical Down East Yankee ship captain. Since carrying his idea into effect, his first little two-masted schooner has grown into a fleet of five. Each one sails under the direction of an old timer, who is a seasoned salt-water skipper.

Which ports you anchor in depend upon wind, and wave, and whim. You sail as you please, heave to when you please, and anchor where you please—in near or distant harbors whose picturesque names recall long-forgotten tales of seafarers; Duck Trap Harbor, and Owl's Head Light, and Hurricane Sound, and Eggemoggin Reach, and the fabled Isle au Haut, where the blackhearted pirate Captain Kidd and his bully boys lay in wait for fat, heavy-laden merchant vessels waddling across the Atlantic.

The life is a simple one. You bunk in a tiny cabin large enough for two and bring your own blankets. You lend a hand in the work of sailing the ship, reefing sail, weighing and letting go anchor, spelling the helmsman and steering by compass and chart.

The food is excellent—not fancy, but good, appetizing, and wholesome. If you want fish aboard, you'll have to catch it yourself. Fine catches of flounders, cod and haddock are recorded on many trips.

The Surf-Bathing Trip at Popham Beach is a very popular two-day trip with boys in the Jr. B and Jr. A groups.

We leave camp after breakfast and reach the coast around noon. Every boy enjoys the fun of plunging into rolling breakers and running and digging in the clean white sand. If the tide is out, we explore for shells, starfish, jellyfish and crabs. At night we sleep in an old stone fort near the beach and cook our meals within its walls.

The Casco Bay Trip

Another salt water trip—new this year, will be a delightful and picturesque sail down Casco Bay in a little island steamer. This is a one-day trip and will appeal especially to boys 9 to 12 years of age.

We motor to Portland early in the morning and go aboard around 10:30 a. m. Several stops are made en route to one of the distant islands—where we all enloy a picnic dinner with all the fixings. Exploring and surf bathing will be enjoyed by all. We sail back to Portland in the late afternoon and arrive in camp shortly after taps. Don't miss this one!

Under Full Sail

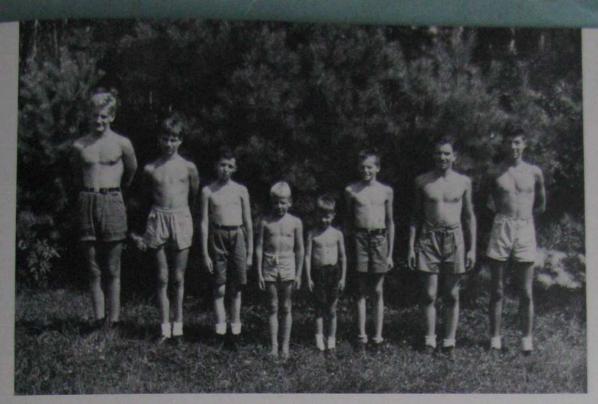

Boys who love the sea will have the unique experience of a three-day Windjammer Cruise on the Atlantic in a real two-masted schooner. The trips are arranged for boys 12 years of age and older and will appeal especially to those who have been in camp more than one season.

The total expense is \$32.60. It includes the Federal Transportation Tax and the bus fare from camp, covering a round trip distance of approximately 200 miles.

As the groups will be limited to seventeen boys on each cruise, we shall have to adhere to the plan of firstcome-first-served in making reservations. Last year several boys were turned away.

Surf-Bathing at Popham Beach Considered one of finest beaches on the Atlantic. It is 80 miles from camp.

Age Distribution

Jr. C-7-8 and 9 yrs. Jr. B-10 and 11 yrs. Jr. A-12 and 13 yrs. Senior-14 and 15 yrs.

Enrolled In 1946

16 Boys— 6 to 9 Yrs. of Age
26 Boys—12 and 13 Yrs. of Age
36 Boys—10 and 11 Yrs. of Age
26 Boys—14 and 15 Yrs. of Age
17 Boys—16 Yrs. of Age

Creative Program and Camp Honors

THE Creative Program at Kawanhee is a free choice program of interesting, constructive things to do, so fascinating to boys, yet quite entirely free from over-organization and routine. Each boy experiences the satisfaction that comes from the successful completion of worth-while tasks. Such experiences develop confidence and self-reliance and stimulate boys to go on and on toward the accomplishment of new goals and new achievement.

The choice of interests and objectives are definite and clearly defined. Six major activities—Athletics, Aquatics, Handicraft, Nature, Sailing and Camperaft, with many contributing activities make it possible for boys with varied interests to enjoy a safe, well-rounded program for the summer.

Each major activity is divided into three Achievement Levels which the boys endeavor to win. Each level is carefully graded to meet the needs of the youngest as well as the oldest boy in camp.

In addition to the natural interest and enthusiasm which every normal boy has in the activities, the stimulus to complete the level requirements is enhanced through the honors which are presented at the Saturday night campfires to the boys who have

completed levels during the week. This is one of the prized moments in a camper's life when recognition is given for a "job well done". Those winning the first level in three or more major activities are awarded a beautiful leather plaque upon which the honors won during the summer are appropriately arranged.

Each boy is encouraged to fill his plaque in not to exceed two seasons in camp for Jr. C's, and three seasons for Jr. B, Jr. A, and Senior groups. Boys returning to camp for the coming season should bring their incompleted plaques with them.

The Race Is On

Kawanhee Inn for Parents

One Half Mile From Boys' Camp

EXCELLENT ACCOMMODATIONS are provided at KAWANHEE Inn for parents who wish to visit their boys in camp and, at the same time, to enjoy a delightful recetton in the Maine woods. Some drive their boys to camp and remain to enjoy the early frout and calmon nehing. Others are in camp from six to eight weeks, while many arrive a week or two early in August and drive their hove home at the close of camp. Boys subject to hay lever usually remain with their parents until the middle of September.

Informal Friendly and Inviting - The Irm is not a fashionable summer resort. Guests dress in comfortable outing clothes and live the simple life. The entire organiza-Hon and development appeal to men and women of refined taste and discrimination who desire a vacation of rest relaxation and wholesome enjoyment. The charm and beauty of the surrounding country has won the

The Food is unsurpassed and is all home cooked. A dietitian is in charge. Special diets for children or adults are arranged without extra charge.

Recreation - At Kawanhee you can rest undisturbed or participate in a wide variety of sports. There's good fishing, delightful bathing on a beach of fine white sandideal and safe for small children, tennis, rowing, canoeing, sailing, mountain climbing, excellent roads for motoring, and Maine's finest golf course only 20 minutes drive from the Inn.

The Inn opens July 1st and closes Sept. 20th. Reservalions may be made by the week, month or the entire season. Rates are very reasonable and include board, and the use of boats. Those desiring accomodations should consult the directors of Camp Kawanhee for detailed information and reservations. A beautifully illustrated folder will be mailed upon request.

Kawanhee Inn - View from the Shore of the Lake The Inn is splendidly equipped. There are large lounging rooms. massive fireplaces, screened dining porch, fourteen hedrooms, commassive interacts, screened dining poten, number neurousis, con-fortable twin heds, private haths and other conveniences which you would expect to find in your own home. An open potch for sun baths is enjoyed by all the quests

Private Cottages - Among the Pines These cottages are the last word" in camping comfort. Some accommodate three people, others are equipped for five. There are twin beds, modern bath facilities, electric lights, living room with stone fireplace, comfortable chairs reading lamps and screened perches.

Leadership

PARENTS are vitally concerned with the associates their boys have, the fellows they play with, the teachers at chool, the men they admire and want to be like.

At camp a boy eats and sleeps with his lodge counselor. He works and plays every day with some activity leader. The game he wants to know and the man who coaches it are knill together in the boy's thought inseparably. If the man is the right kind, the best that is in the boy responds. Clean sportsmanship, grit, the impulse to help the other fellow — all the finest traits of personality come out in a boy when he sees them in a favorite counselor.

That's why Kawanhee is concerned about its choice of counselors. That's why one camp is more successful han another, more helpful, more stimulating in developing the linest in line boys.

There is one man for every five boys enrolled.

MASTER CAMPERS

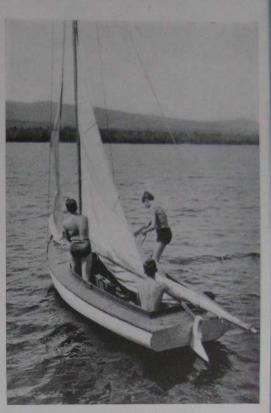

The Master Campers group is organized for boys fifteen and sixteen years of age who wish to continue their camp training. It is the beginning of the Counselor Training Course at Kawanhee and is limited to twelve boys.

The boys participate in all phases of the regular camp program in addition to one or two hours of definite responsibility each day. They assist in lodge supervision, when the regular Junior Counselors are away, and in the activities in which they are interested.

Maine Junior Guide — For the first time in the history of Kawanhee, an opportunity will be given Master Campers to train for the Junior Guide insignia. The work involves all phases of camping, such as—shelter building and planning camp sites — cooking — trip equipment — cancemaning—axemanship—the use of map and compass, etc.

Master Campers—'46 Sr. Counselor—John Nowald

Out for a Sail in the "Sea Gull"

THE WIGWAM

Under the talented and skillful leadership of Mr. Campbell Scarlett, and a staff of loyal assistants, the official camp paper "The Wigwam" was published last summer for the eleventh consecutive season.

Copies are mailed to parents each week during the season. Information pertaining to each boy's achievements in the different activities, a digest of the weekly Camp Log (written by Mr. Scarlett) and other information of special interest to parents are mentioned in "The Wildwarn."

Rates

*All-Inclusive - For Scheduled Camp Activities

| Tultion - Boys 7 to 15 yrs. old - 8 weeks. | \$350 |
|--|-------|
| Tultion - Master Campers - 8 weeks | \$325 |

The nution is payable as follows: \$10.00 with the application and the balance by July 1st. By special arrangement the balance may be paid in equal payments by July 1st and August 1st.

The following is a list of items included in the tuition for the eight-weeks period:

Lodging in dry, sanitary cabins, The finest of meals - carefully balanced. Instruction in all activities - Mature Counselors. Use of the entire camp equipment. Shop supplies - except material for kayaks, houseboats or other projects comparable in size. Ammunition for rifle practice. Archery and Nature Supplies. Dark Room Chemicals -Fishing License - For boys under 18 years. Remedial gymnastics to correct minor physical defects. Use of the camp hospital - including the services of a graduate trained nurse and medical supplies. All trips scheduled during the summer, except: The Tim Pond Trouting Trip The Windjammer Cruise. The Casco Bay Sail.

There are **no extras** whatever required for a boy to enjoy a most happy and profitable summer at Kawanbee for the coming season. Pre-Camp and Post-Camp Season—Special reduced rates, including laundry, are quoted for boys who come to camp early or for those who remain after camp closes on August 26. Boys subject to hay lever usually remain until the middle of Septembor. Many interesting activities are scheduled and the camp is adequately supervised in every respect.

Spending Money — We recommend a deposit of \$15 for boys under 12 years and \$25 for boys 12 years and over. These amounts may be increased or decreased at the parents' discretion.

The account provides for an allowance of 25c per week for boys under 12 yrs. — 50c for boys 12 yrs. and older, and such incidentals as candy, ice cream, stationery, stamps, post cards, fishing equipment, camera and flashlight supplies, haircuts, tollet articles, laundry, and canoe paddle (see page 19).

The allowance is deposited in the camp bank. At the end of the season a financial statement of each boy's account, together with a check covering any remaining cash balance, will be mailed the parent.

Tutoring — Under the direct supervision of experienced teachers we are able to handle all grade and high school subjects. The rate is \$1.75 per hour. Please notify the Directors before camp opens if tutoring is desired.

*The all inclusive rate applies to the regular camp activities. The Tim-Pond Trip (page 31), the Windjamuser Cruise—and the Casco Bay Trip, Golf and Tuoting are not included in this classification. Each boy must pay his own greens fees and transportation to and from the Wilson Lake Cho.

The Young Boat Builder

When a boy completes a beautiful boat in the shop, there is no thrill that quite equals the satisfaction of placing or in the water for the first time and watching er sail away on an even keel.

The House-Boat Shown Above Was Constructed by Master Campers, It was thoroughly calked, made water-light and equipped with four bunks. The boys anchored it to a reef in the lake and slept in it several nights during the season-

Special Information

Camp Program — 1947 — The complete program, as outlined in this booklet, will be followed insolar as it is physically possible. However, emergencies arising beyond our control may necessitate minor changes.

Loyalty of Parents — The loyalty of the boys and parents has made it possible to fill the camp to capacity without periodical advertising. This means that most new boys who enter each year are friends of old campers and recommended by their parents.

Visiting Days for Parents — Kawanhee not only permits, but invites parents to visit camp any day and any time with the exception of the rest period, from 1:00 to 2:00. Me Frank's cabin is usually the place where parents first report when entering camp. Parents vacationing at the Inn attend the Water Sports program, Camp Shows, Camp Fires, and the Sunday Morning Church Service in the outdoor chapel and the Vesper Service on the lake at twilight.

Parents Urged To Cooperate — Parents are earnestly requested not to send candy or sweets of any kind to their boys. Our food is well balanced and adequate. No boy at Kawanhee goes to bed hungry.

Smoking In Camp — The camp rules are as few as possible. Smoking, admittedly injurious to growing boys, cannot be permitted by the campers.

The Mail — Telephone and Telegraph Address, Camp Kawanhee, Weld, Maine—Phone 6—Ring 2.

The Express Office is Wilton, Maine. Send all articles in care of Camp Kawanhee.

The Distance to Camp is only 22 hours via rail from Columbus and 12 hours from New York City.

Letters Home — Each boy must write a letter home on Wednesdays and Sundays. These letters are collected as the boys file in to supper. No letter, no supper, is understood by every fellow in camp.

Girls' Camp — One of Maine's finest camps for girls is located at Wilton, Maine, only 12 miles from Kawanhee. Sooklets describing the camp will be furnished upon request.

The Camp Colors are grey and marcon.

An Educator Tells of a Dad's Impressions of Kawanhee

By DR. REES EDGAR TULLOSS, President of Wittenberg Coilege

A NY tailer who has watched the interested face of his son in a Kawanhee camp fire circle, or has seen him in the midst of a group of attentive listeners in boats around Vesper Rock at sunset on a Sunday evening, or watched the head of a little swimmer making his way across the lake to qualify for water privileges, or looked with fatherly pride upon the awards on a plaque indicating the passing of successive levels of achievement in various fields, knows what it is to appreciate the values of his son's summers at Camp Kawanhee.

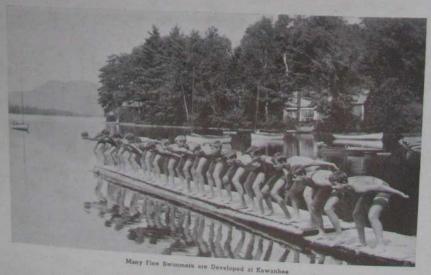

To me, far more significant than the rare beauty of its environment, its excellent physical equipment, its exhibitanting lake and mountain air, is the recognition of Kawanbee as a place of ideals.

If every worthy institution is "but the lengthened shadow of some great man," we should expect Kawanhee to reflect the ideals and purposes of its founders and directors. Here they have built into actuality their fully developed conceptions of what a camp should he, and what a camp should mean, to boys. Here is a camp where good times fill all the hours, where every reasonable freedom is allowed, not as a privilege, but as a matter of right; but back of every phase of the whole well-rounded program—aquatics, athletics, woodcraft, nature study, shop, scouting, range, archery, dramatics—is the conception of youthful activity ordered in such a way as to build character. What I have seen in the

summer-time growth of my own son, what other parents have told me as to what Kawanhee has meant to their sons, justifies the statement that here is an effective influence in the development of worthy and enduring qualities of personality. That in the end, is what makes a camp worth while.

If there were space for it, one would write of counselors chosen not only for their knowledge of some form of camp activity, but for their understanding of boy life and problems, their leadership ability, their personal worth and ideals; of junior counselors them selves in part a product of Kawanhee training of the unlimited helpfulness and pervasive influence of Ma Frank; of the Sunday morning talks by various members of the staff; of the impressive Sunday evening service, of the moral tone and positive religious spirit of the camp as a whole; of the comments and confidences of sons revealing the learning of lessons of unselfishness, obedience, dependability, perseverance, confidence, courage, manliness.

Five hundred words allowed me to express appreciation, heart-felt gratitude, recognition of high ideals faithfully adhered to, of values of life-long significance! Totally inadequate! To put it all in one sentence, Kawanhee must be placed along with home and church and school as agencies which have helped to shape rightly the ideals and attitudes of my son.

CAMP KAWANHEE - 1947

General Directions

Personal Outfit—No expensive special costume is required. Clothing which a boy would customarily wear at home during the summer proves quite satisfactory. For general daily wear we recommend

2-Cotton Gym Shirts-White or Gray (Preferred) 2-Pairs Shorts-Kaki or Gray Drill (Preferred)

Mark All Clothes with woven name tapes or with a good grade of indelible ink. Place adhesive tape in shoes and mark plainly. There will be ample room for all clothes in the lodge.

Ship by Express-If there is not room in the trunk for blankets, sheets and pillow, ship in duffle bag or carton by June 25, via American Express, in the boy's name, to Wilton, Maine, care of Camp Ka-

Directions for Traveling and the shipping of trunks, etc., will be mailed the camper at least two weeks before camp opens.

Steamer Trunks are preferred. They are kept under cots. List the contents and post on inside of

Two Trunk Keys should be provided-one to be retained by the boy and the other tagged with his name and mailed to the camp or handed to the directors at the station on the day of departure.
