

CAMP
KAWANHEE
for Boys

*On a Mountain Lake
In the Maine Woods*

Camping in Maine

From the days of "Thoreau," Maine has been one of the most favored regions for camping in the country. With its great stretches of unspoiled forests, its thousands of clear, sparkling lakes, its fine fishing and lofty mountains, it has become, indeed, the "Playground of the Nation."

Here, Kawanhee boys revel in the rare beauty of its scenery; its quaint old country roads; its soft carpeted woodsy trails; its blue skies and gorgeous sunsets.

Here is a climate famous for its bracing air, with a "mountainy" tang that is unsurpassed. There are more hours of sunshine during July and August than is found in any other place this side of the Torrid Zone.

Here is wild life in abundance, from the screech of the eagle to the eerie cry of the loon at sunrise. Deer and moose roam its woods, and now and then one catches a glimpse of a mother bear and her cubs, on the road to Swift River.

This is indeed, God's Great Out-of-Doors, where Beauty! Health! and Color! lie in wait at every turn.

The camp is entirely free from hay fever and asthma

TWO YOUNG FISHERMEN READY FOR ANY EMERGENCY

PANNING GOLD . . . LIKE THE OLD "FORTY-NINERS"

A Message To Parents

THE Directors of Camp Kawanhee believe that when a youngster starts for camp, three people from his home go to that camp, for just as surely as the boy is there in person, his mother and father are with him in spirit. To the parents we want to say that:

At Kawanhee your boy will be comfortably housed with boys his own age in a dry sanitary cabin. He will sleep in his own individual cot and will never be left alone at night. A counselor will always be on duty.

He will be fed the finest of nourishing food and in quantities to satisfy the ravenous appetites of growing boys. Pasteurized milk, only, is served.

At the slightest sign of sickness he will be under the care of a graduate nurse who will be in attendance throughout the season. Three reputable physicians are within twenty minutes drive of the camp.

He will never be in the water except at the scheduled swim periods and will never take a canoe, rowboat or sailboat out by himself until he has passed the necessary swimming and boating tests. A beach guard is on duty throughout the day.

He will at all times be under the guidance of a group of mature men, who will surround him with safe, intelligent supervision. There is one man for every five boys enrolled. Permanent "life forces" effecting clean moral and spiritual growth are awakened in many boys through the close association and companionship with Kawanhee men.

At no time in life is health more rapidly or more

permanently established than during the growing years. Boys who have camped at Kawanhee during the past twenty-five years have returned to their homes in the fall greatly benefited in health. Every condition at Kawanhee, with its clear mountain air, its balanced diet of home-cooked food, its cool nights and refreshing sleep, contributes toward the development of strong, vigorous stamina so needed by the modern boy. To many boys it means greater resistance to colds for the coming school days, a keener appetite, and a more intelligent appreciation of regular health habits.

The benefits derived from a season at Camp Kawanhee are so numerous and varied that each boy enrolled is assured improvement along many lines. It is traditional for Kawanhee boys to work toward the achievement of some worthy objective. We do not believe in an aimless summer for active boys. Our program is highly diversified to meet the needs of a variety of interests. Each boy is encouraged to find his interests early in the season—something in which he can excel. In that accomplishment, he learns not only the value of initiative and resourcefulness, but also how to apply himself to get effective results.

If he is timid and shy, he will learn through the joy of new adventure to do many things which every normal boy longs to accomplish. It will give him a chance to express himself in a group, to develop a higher degree of confidence, to stand on "his own" and realize he is standing alone without mother or dad to help him. Such experiences build backbone and dependability as no other youth experience can. With new vision and understanding, he will return to his home in the fall a lad of courage and bigger powers.

As shadows lengthen and the stars appear, we gather for our camp fires at Council Rock. It is here that the heart of camp life glows as boys and men sit before the blazing fire, enjoy their games and stunts and the humorous Camp Log of the week, written and read by Cam Scarlett

ADJUSTING SAILS FOR THE RACE
Bouts Made in the Shop

An Ideal Location

Safe, Healthy and Thrilling for Growing Boys

CAMP KAWANHEE is located on the east shore of Webb Lake, at Weld, Maine—eighty-five miles north of Portland and twelve miles from the nearest railroad. It comprises three hundred and sixty acres of timber land and has a shore line of woods and sandy beaches extending over a mile in length, on either side of the lake.

The exceptional location of the camp, at the entrance of the "Narrows" of the lake, has been pronounced by men qualified to judge camp sites, as one of the finest natural settings for a boys' camp in the country. There is a protected cove and sandy beach for safe swimming—gravel subsoil and good drainage, pure drinking water from a hillside spring, miles of pines and pointed firs, an unsurpassed view of mountains, glorious sunsets, invigorating air, cool nights, and refreshing sleep. Neither word nor picture can do full justice to either the delightful, well-adapted location or the natural, scenic beauty of Kawanhee.

Lake Webb is five miles long and two miles wide, and is completely surrounded by mountains. It is fed by springs and mountain brooks. The water is clear and pure and never too cold for the early morning plunge. During the past several seasons the temperature of the water has averaged between 72 and 78 degrees at the eleven o'clock swim period.

The surrounding country is wild and rugged and appeals to the adventurous spirit of growing boys. Just to run, to swim, to shout like a wild Indian on the warpath, to follow trails over lofty peaks, to spy on deer and moose as they come to the lake to drink, to investigate beaver dams, to capture woodchucks and porcupines, to fish for trout in swirling rapids, to sit by glowing camp fires at night, or to roll up in blankets under the stars and listen to strange noises of the deep woods—What a life! Such thrilling experiences make every fellow worth his "salt"—a bigger, better, more self-reliant man.

TAKING CAREFUL AIM

Health and Food

*Any Normal Boy Will Be Safer at Camp Kawanhee
Than in Any City in the Country*

TIME TO EAT

Lawrence Briggs ringing the dinner bell. He and Emma, his wife, have been Head Cooks at Kawanhee for many years. Their delicious meals are never forgotten by Kawanhee boys.

PHYSICAL IMPROVEMENT—Kawanhee is a place of abounding health. During the past several years, hundreds of parents have found it to be a good investment to send their boys to this beautiful spot in the Maine woods, where the invigorating air and sunshine are unrivalled. *Boys are entirely free from hay fever and asthma at Kawanhee.*

A long night's sleep of ten to eleven hours, and rest periods preceding and following the noon meal, prevent any possibility of over-doing.

MEDICAL ATTENTION—We are indeed fortunate to have the services of Dr. Garfield G. Defoe, a reputable physician who is within 20 minutes drive of the camp. The camp hospital has all necessary conveniences needed in caring for emergencies. A resident graduate nurse is in attendance throughout the season. Skillful surgical assistance is available at the Rumford Memorial Hospital, one of the newest and most modern in the state, and less than an hour's drive from the camp. Experienced dentists are only a few miles away.

SANITATION—Our "Class A" Sanitary Rating, awarded for twenty-five years by the State Sanitary Inspector, ranks among the highest for camps in Maine. This record merits careful consideration by parents who are interested in placing their boys in a safe camp for the summer. Hot and cold shower baths and flush toilets are included in the equipment.

Drinking water is secured from a hillside spring. Its sparkling purity is beyond question. Each year it passes the most severe tests by the State authorities.

EMMA, SERVING HER APPLE PIES—YUM, YUM!

FOOD—The growing boy is prone to have three serious thoughts in life: *When Do We Eat—Where Do We Eat—What Do We Eat?* At Kawanhee, the purchase of food and the planning and balancing of meals are under the direct supervision of a dietitian. The food is excellent. No expense is spared to make it appetizing and nourishing. "Seconds" and "thirds" when needed are always on hand to satisfy the ravenous appetites of growing boys. *Pasteurized milk, only, is served.*

EMMA'S DELICIOUS PASTRIES—Few camps in the country serve the delicious pastries that Kawanhee boys enjoy. All bread (white, whole-wheat and raisin), rolls, pies, cookies, cakes, and muffins for breakfast that melt in your mouth, are cooked fresh each day in Emma's kitchen. Boys who are fortunate in having a birthday during the season receive a special cake with candles and all the trimmings for their table.

Management

A Unique Family Organization

DIRECTORS—Camp Kawanhee is under the joint ownership and direction of two brothers, George R. Frank, Principal of McGuffey School, Columbus, Ohio—former Director of Manual Arts in the Columbus Schools, and Raymond C. Frank, for twenty-five years Director of Young People's activities at the First Presbyterian Church, Englewood, New Jersey. He is now living at Weld, Maine, and is devoting much of his time in the interest of Kawanhee. Both brothers were born and reared in Maine, and are trained workers with boys of early adolescent age.

CAMP MOTHER—Mrs. Raymond Frank is Camp Mother. She has had several years experience in camp work. Parents may feel assured in sending their boys to Kawanhee that they will receive the type of personal attention that means so much, especially to boys in camp for the first year.

Particular attention will be given the younger boys in camp, seeing that they have sufficient covers for the night—that they are adequately clad on cool mornings and in rainy weather—that buttons are sewed on, torn trousers patched, and sails constructed for new boats made in the shop.

CAMP DIETITIAN—Mrs. George Frank supervises the planning of all menus. She has made a careful study of the proper feeding of growing boys for the past twenty-five years. She is also Resident Manager of Kawanhee Inn—located a half-mile from the boys' camp, where many parents and friends vacation each summer. See page 43.

CAMP COOKS—Kawanhee is indeed fortunate to include in its family organization two people as loyal and interested in the general welfare of the camp as Mr. and Mrs. Briggs—known to all the boys as Emma and Lawrence. They have been Head Cooks at the camp since 1932—with the exception of three summers during the war, when Lawrence was busy at the Bath Iron Works—supervising restaurants and canteens.

CARETAKER—Mr. Peleg White, a resident of Weld and an experienced woodsman, has been Caretaker at Kawanhee for the past sixteen years. Under his able management, the Camp and Inn properties are kept in excellent condition. He is a great lover of boys and looks forward to the opening of camp each year when a host of his young friends return.

KEEN SPORT

DINING LODGE
Where Finicky Appetites Are Soon Forgotten

General Equipment

THE camp is splendidly equipped. Most of the buildings are of heavy log construction, roomy, rustic, built for our purpose, and exactly suited to our needs.

Nestled among the trees by the shore of the lake are ten sleeping lodges built in regular frontier style. They are absolutely free from dampness in rainy weather. Each is equipped with comfortable cots and mattresses and accommodates from seven to nine boys and two counselors. We have never considered it advisable to sleep our boys in tents, preferring instead, well-built lodges which are safe, comfortable and sanitary.

Convenient to the sleeping lodges are the dining lodge, recreation building and new nature building, a large shop where sixty-five boys may be accommodated, a scout and campcraft building, a rifle and archery range, the camp hospital, boat houses, and the finest of boating and athletic equipment.

The entire equipment at Kawanhee is rated among the finest in the country for gentle boys.

SLEEPING LODGES—AMONG STATELY PINES
Well Ventilated, Screened, Dry and Sanitary—A Safeguard to Good Health

KAWANHEE COVE—SWIMMING AND BOATING AREA—FINE SANDY BEACH
The boating equipment includes twenty-four canoes, equipped with keels for lake use, six 18 ft. round bottom canoes for shooting rapids on long river trips, twelve row boats, five sail boats, two motor boats, and two large war canoes accommodating fourteen boys each.

LODGE INTERIOR
An hour's rest period follows the noon meal.

A Day at Kawanhee

Fun Plus

A SUMMER at Kawanhee assures each boy a never-to-be-forgotten experience of wholesome fun and sports, new friends and new accomplishments. A typical day begins with reveille at 7:30. Within the next half hour the camp is alive with jokes and laughter. "Me for a dip" is the familiar expression on every side. Although not compulsory, several boys are already splashing in the crystal clear water on the sandy beach or taking a dive from the high board. Soon the five-minute, all-out whistle blows and everyone sprints back to his lodge for a brisk rub-down. My, but it surely makes a fellow feel great! And such appetites! The smell of sizzling bacon is in the air!

By 8:00 o'clock, following the flag-raising ceremony, the entire group of hungry braves file into breakfast, keen with anticipation. And such a meal! There's fresh fruit, cereal, rich cream, cocoa, flapjacks, bacon, served in quantities to meet the needs of the most ravenous of the Kawanhee tribe. By 8:30, with appetites completely satisfied, we are ready for the day's program. No two days are just alike.

First of all, each boy does his bit in cleaning up for lodge inspection. Beds are made, floors swept, shoes and toilet articles neatly arranged, clothes all in place, trunks ready for inspection, lanterns cleaned and polished, porches, floors, and steps swept and bathing suits arranged in place.

At 9:00 o'clock the instruction activities begin and last for two hours. And what a variety of activities there are! It may be on the lake learning to row or paddle a canoe—passing tests in J.L.S.—sailing the *Sea Gull* in a stiff breeze or a kayak just completed in the shop. It may be down through the Narrows after big fish or on the baseball field in a close game—or learning to pole-vault and put-the-shot—or mastering a difficult stroke in tennis. It may be learning to box and wrestle—learning how to win or lose with a good spirit—how to handle the bow and arrow or shoot for a bulls-eye on the rifle range—how to build a fir-bough lean-to or a real log cabin—or cook a meal over an open fire. It may be in the shop having heaps of fun building boats and airplanes, hunting knives and kayaks—or learning the trees, the birds and the flowers—or grinding and polishing beautiful minerals—or completing merit tests in Scouting.

The 11:00 o'clock swim comes just at the right time. Everyone cools off after a strenuous morning in the open. The air is filled with joyous shouts of happy youngsters. Some are learning to swim, others are mastering new strokes and dives, while a few are stretched out in the sun on the warm, sandy beach, hoping to look like young Indians before camp closes. By 11:30 the all-out whistle sounds. Boys and counselors return to their lodges for a brisk rub-down, after which a period of relaxation, or games in the Recreation Hall and boating are enjoyed.

Plus

Boy Life at Its Best

Dinner at 12:30 is followed by an hour's rest period—just enough time to write a letter home, take a nap, or make final plans for a new cabin across the lake.

The afternoon program, to many boys, is the most interesting part of the day. There's the baseball league Mondays, the big water meet Wednesdays, and the athletic meet Saturdays. On the remaining afternoons each boy chooses what he would like to do.

Usually one group goes out for golf, a second for tennis, a third works in the shop, the nature laboratory or dark room, a fourth fills the range. Eddie has challenged Frank to a sailboat race in the *Gull* and *Hawke*—both boys are all pepped up to get underway. Bill and Tom have just pushed off on a lake trip after bass. Jack knows where a 3 lb. pickerel was jumping the other day and believes he can tempt the old fellow to bite. Joe, Tom and "Slim" are preparing for an overnight trip on the mountains. They expect to make this a real he-man trip—paddling to the head of the lake and hiking the rest of the way. They are training for football and hope to be "hard as nails" when camp closes. "Jerry" and "Mike," equipped with saws, hammers and spikes are on their way to Sunday Beach to complete the log raft which has been under construction for the past few days. "Mac" and "Skip" have reached their secret cabin down by the dam,

about a half mile from shore. The ring of their ax is plainly heard through the dense forest. Smoke from their fire starts curling through the tree tops. Soon the coals are glowing red and potatoes, steak and perhaps a freshly caught bass are all done to a turn. What a life! What a thrill to be on your own in such a glorious setting! A boy never forgets days like these. Best of all are the enduring friendships which are cemented in the wholesome atmosphere of the great outdoors. Those who remained in camp have already enjoyed the 4:00 o'clock swim. Before a boy realizes it the sunshine of another day draws to a close, full of happy experiences never-to-be-forgotten.

Supper follows at 5:30, after which boating, fishing, hikes to the village, baseball, tennis, capture the fort, and other interesting games are enjoyed.

We then gather for our camp fires at Council Rock. A simple ceremony marks the lighting of the fire. There is singing together, traditional Kawathee songs, sung to the finest old tunes. As the embers begin to glow and Dean Miller finishes one of his thrilling stories, we rise, and in the stillness of the forest, sing our good-night song. Such a gathering, day after day, becomes a living force in a boy's life.

Taps: Junior C's retire at 8:00 o'clock; Junior A's and B's at 9:00; Seniors at 9:30, and Master Campers at 10:00. All lights out at 10:30.

AQUAPLANING AT HIGH SPEED

A BUSY DAY IN THE SHOP

NON-SWIMMERS LEARNING THE KICK
An excellent method to develop confidence

PULLING A STRONG BOW
Many fine bows are made in the shop each year.

THE NEW SCOUT CABIN

Twenty feet wide and thirty-four feet long. It is open on three sides and has a large rock fireplace at the closed end.

Scouting and Campcraft

A COMPLETE Scout program is offered at Kawan-hee. The equipment and natural surroundings are ideal for boys who wish to pass Merit Badge Tests in Cooking, Camping, Pioneering, Bird Study, Sailing, Navigation and many others. On our three hundred and sixty acres of heavily wooded property there are plenty of trees available to build rafts, bridges of all types, lean-tos, log cabins and bough beds of balsam.

During the past few years, fifteen boys have qualified for their Eagle Badges. Several boys each year join the Scouts during the season. The Scouts have organized themselves into Kab-ne-do-go-nah Tribe, meaning "among the pines." Scout meetings are held Wednesday evenings in the Scout cabin and consist of

contests emphasizing special phases of the work, as well as games, stories, singing, and marshmallow roasts.

Campcraft in its most vigorous forms is encouraged. Preparation for trips is an important part of the program. Boys must know how to build fires—how to cook—how to make rainproof shelters and comfortable bough beds for the night—how to follow trails through woods and over mountains and roll blankets into a neat pack—how to load a canoe—how to catch and clean fish, and the best bait to use—how to fell a tree—use of the ax and crosscut saw. There is never a dull moment in the Campcraft program. Read about the Trail Blazing Trip to West Mountain—Page 33, and the Outpost Camp—Page 34.

HEALTHY LIFE IN THE MAINE WOODS

Lean-to made by the boys. The roof and sides were covered with large sheets of birch-bark which make it a cozy place to sleep, even in rainy weather.

KAWANHEE'S MOST POPULAR CAMPER IN '51

The little fawn, which the boys named "Fonhee," arrived in camp in July. Her mother had previously been killed by a car. She was fed a special diet four times daily. At the close of the season she was returned to one of the State Game Reserves.

KAWANHEE STAFF

[14]

Water Sports

KAWANHEE COVE, with its fine sandy beach and clear sparkling water, is unsurpassed as a safe and ideal setting for every conceivable type of fresh water sports.

Each boy in camp learns to swim. The morning period, beginning at 11:00 o'clock, lasts for a half hour and is used for special instruction in new strokes, diving, Red Cross tests, etc. At this time of day the water temperature averages between 72 and 78 degrees. The 4:00 o'clock period is used as a free-for-all swim, aqua-planing, water polo and for cove and lake swimming tests (a one-eighth and one-quarter mile swim, respectively). If the day has been hot, a twilight swim, around 8:00 o'clock, is enjoyed by the entire camp.

IT IS IMPORTANT TO NOTE that accredited Red Cross Life-guards and Supervisors are stationed on the docks, diving tower, beach, and at least two in patrol boats, ready to give instant assistance should need arise. No boy is permitted to enter the water until the guards are in position and the whistle has blown. Absolute obedience is required.

ALSO, each Kawanhee boy must pass his swimming tests before he is privileged to use the boats. A beach guard is on duty throughout the day. Those who wish to use a boat must report to him. It is his duty to check all boats out on the basis of the boat privileges each boy has won.

THE BIG AQUATIC MEET of the week is held Saturday afternoon. This is the time when every fellow "struts his stuff," as Greys and Maroons compete for honors. There is swimming, diving, rowing and canoeing (singles and doubles), canoe bobbing, war canoe races, aqua-planing, water polo, sailing, exhibitions of Red Cross Life Saving, fancy diving and special clowning stunts by counselors. The competition is keen and exciting.

SENIOR AND JUNIOR LIFE SAVING

A major accomplishment in any season is the earning of an American Red Cross Life Saving Emblem.

During the past season of 1951, twenty boys completed the requirements for the Junior Emblem and nine completed the Senior requirements.

HEAD COACH

Malcolm Davis, Columbian U.
Ted Wilson, Assistant

BOYS WHO LEARNED TO SWIM—'51

At the outset of the camp season every boy who has not learned to swim receives instruction in a roped-off area of shallow water. The boys are taught in small groups and learn to swim within two or three weeks after camp opens.

SWIM TIME

This is the happiest time of day for the majority of boys at Kawanee. The water is clear as crystal and never too cold for a glorious swim. Coaches of championship quality are on the camp swimming staff each year. During the past season Malcolm Davis, of Columbia U., directed the aquatics program. He was ably assisted by Ted Wilson, of Miami U.

BASKETBALL IS POPULAR

OUT AT FIRST

MANY BOYS ELECT BOXING AS PART OF THEIR DAILY PROGRAM
[16]

Athletics

THERE is good wholesome fun in all the games and sports at Kewanee. There is baseball, tennis, boxing and wrestling, football—suitable for summer camps—horseshoe pitching, high, broad jump, and pole vaulting pits, basketball and tetherball.

BASEBALL receives special prominence throughout the season. Soon after camp opens, every boy is chosen on one of the Junior or Senior League teams—usually six teams in each league. The competition is keen and exciting. Coaches are on hand to teach the finer points of the game. The climax of the season occurs when the World Series games are played the last week of camp.

During the World Series of '51, Sherm Denison's Indians, the undefeated league winners with a 6-0 record, opposed Bill Fleming's Red Sox, the second place finalists. After a hard-fought battle, in which the Red Sox held a two-run lead until the last inning, the Indians finally emerged the winners by a score of 6-7.

TENNIS—For many boys, tennis is the most popular game in camp. Two counselors give their full time to coaching. Special classes are organized for beginners, many of whom show marked improvement during the season.

BASKETBALL—A fine basketball court was developed during the season of '48. Ample opportunity is now provided for those who wish to keep in training during the summer.

DEMONSTRATING THE CORRECT GRIP AND SERVE
Three double tennis courts are in demand throughout the season

Canoeing

CANOEING is one of the most popular sports in camp for the majority of boys. Before using the canoes, each boy must pass swimming and canoe tests and win his right to a paddle. The camp furnishes paddles for each canoe but not for each individual boy. Those who prefer to have one of their own—with symbols of accomplishment painted on the blade, may purchase it, at cost, in the camp store.

To win his "C" a boy must swim the Cove, one-eighth mile. If he swims the lake in front of the camp, one-quarter mile, he receives a grey and maroon bar painted at the top of the blade. After passing the advanced canoe test, two bars are added at the bottom. Junior Life Savers receive a J.L.S. between the top and bottom bars. Jr. C's are permitted to use the canoes within the cove only, and in sight of the Beach Guard at all times.

The New Junior C Program

For Boys 7-8 and 9 Years of Age

MANY parents who appreciate the value of mature leadership for their younger boys are enrolling them at Kawanee. Perhaps at no other age does camping offer more glamour and appeal. The little folks are enthusiastic campers. They learn to live and play happily with boys their own age, develop self-confidence, resourcefulness, and a spirit of comradeship.

Their projects are carefully chosen and are kept well within the strength and ability of the smallest boy. For the coming season there will be hours to play on the sandy beach and grow big and strong in the fresh mountain air and sunshine; time to sail small boats and fly toy airplanes; to explore fields and woods under trained leaders and learn many of Nature's wonders. In the shop, boys will enjoy boat building, metal and leather work. Others will enjoy building rafts which they can paddle in the shallow water of the cove.

Each boy will learn to fish and swim and row. Some will even swim the one-quarter mile across Webb Lake and receive the coveted paddle and use of canoes in the cove. Best fun of all for many will be trips to the nearby mountains or rowing across the lake to sleep in an Adirondack lean-to, listening to strange noises in the woods at night and enjoying the never-to-be-forgotten thrill of cooking over an open fire. Baseball, tennis, and archery will be carefully taught, and boys who enjoy shooting a gun will have opportunity to try their skill on the range under safe supervision. There is never a dull moment in the Junior C program.

Throughout the entire program the importance of adequate rest is emphasized. Special rest periods (for naps) follow the morning and afternoon swim at 11:30 and 4:00, respectively. Also, a quiet hour from 1:00 to 2:00 precedes the afternoon activities. Taps is at 8:30.

LEARNING TO SWIM . . . SAFETY FOR THE FUTURE

EAGLE LODGE—JUNIOR C—'51

FALCON LODGE—JUNIOR C—'51

TARGET PRACTICE

TARGET PRACTICE is enjoyed by every boy in camp, nine years of age and older. Guns and ammunition are furnished by the camp. Several boys, however, bring their own guns with them. The range is carefully guarded. Military obedience prevails. Under the auspices of the National Rifle Association, boys shoot for the following medals which are awarded at the formal Saturday night camp fires:

Pro-Marksman
Marksman
Marksman 1st Class
Sharpshooter
Bars 1-2-3-4-5

STEADY! AIM! FIRE!

Several high medal marksmen are developed at Kananhae each year. Over twenty-five thousand rounds of ammunition were shot on the range last year.

ARCHERY

A RCHERY is one of the few sports that permits participation by the youngest as well as the oldest boy in camp. Many boys enjoy building their own bows in the shop. There are the great six-foot bows made by the older boys, powerful enough to bring down a deer or the largest moose that roams the woods of Maine. Then there are the smaller bows and arrows such as any Indian would handle with pride.

The following medals are awarded throughout the season under the rules and regulations of the Camp Archery Association:

1. Jr. Yeoman Pin
2. Jr. Yeoman Arrow
3. Yeoman Pin
4. Jr. Bowman Pin
5. Jr. Bowman Arrow
6. Bowman Pin
7. Bronze Medal
8. Silver Medal
9. Silver Bow Pin
10. Silver Pin

GOOD FORM IS STRESSED

The Greys and Maroons

MUCH of the fun and enthusiasm at Kawanhee revolves around the Greys and Maroons—the two competing teams in camp. Following the selection of the captains, the first week of camp, every boy enrolled is chosen on one of the teams.

The captains do a grand job in encouraging each boy to participate in the activities, to finish what he starts, and to win as many points as possible for his team.

The interest and excitement increases as both groups gather for the Saturday night camp fires. The names of those who have passed achievement levels during the week are read. And then the big moment arrives! The score is announced! There's a burst of cheering, and speeches by the captains exhorting every fellow to even greater effort for the coming week.

During the hard-fought contest of 1951, the Maroons finally emerged with 19,190 points, and the Greys 16,121.

The camp has never seen two teams more evenly matched in good spirit. No small part of this is to be attributed to the summer's two fine captains, Herbert Hedges of the Greys, and Byron Ford of the Maroons. Their rivalry was always in the best tradition of clean sportsmanship.

Shopwork

OUR SHOP is the busiest place in camp. On rainy days it is filled to capacity. Many happy and profitable hours are spent here during the season. Two experienced teachers of manual training devote their full time to the work.

It is a pleasure and revelation to observe a room full of boys at work on a busy day. Boats of all descriptions are being made, including 12-foot and 14-foot kayaks, racing yachts and motor boats to be equipped with spring motors. In another section, model airplanes of all sizes and designs are nearing completion. In the metal-working department hunting knives of finest quality are fashioned at our forge each season. It is fun to heat a bar of steel red hot and hammer it into shape.

Across the room, beautiful trays, plates, bookends—etched or pierced in pewter, brass and copper—and lemonwood bows—highly finished, birch-bark bird houses, rustic furniture, and canoe paddles are under construction. In the leather working section, belts, billfolds, moccasins, key holders, camera cases, ax sheaths, with many of the pieces hand tooled with initials and special designs are in the process of completion. This is indeed a wonderful place, where surplus energy is directed into channels of creative thinking and worthwhile doing.

SAILING THROUGH THE NARROWS

OFF TO A GOOD START

Sails swell to the breeze as trim craft skim the blue surface of Lake Webb

Sailing

SAILING is one of the major activities. To many boys it is the most enjoyable sport in camp. Advancement in the course depends upon one's ability to take orders from the Sailing Master and execute them skillfully without delay.

The month of July is devoted to group instruction. To pass the required tests boys must demonstrate their ability to do four things well: (1) To tie the common sailor knots; (2) To do at least one form of splice; (3) To pass an examination based upon a course in Theory and Practice of Seamanship; (4) To go to a sailboat lying at her moorings, get her under way, sail her around a prescribed course, pick up moorings, tie

up, and leave the boat in shipshape condition as to sails, centerboard, etc. (No boy who cannot swim the lake—one-quarter mile, is allowed under any conditions to take the last test.) A thorough grounding is given in how to meet the unusual situation, such as a sudden squall or a difficult landing.

By August the majority of boys have passed their individual tests and are ready for the thrills and excitement of crew racing. We anticipate the keenest kind of rivalry as to who will receive the silver medals awarded to the most skillful skippers at the close of camp. One and two-men crews will compete.

PINES ALONG THE SHORE

The shore line at Kamunah is heavily wooded with pines, birches, pointed firs and hemlock. Such natural surroundings add to the health and enjoyment of every boy who camps here.

BIRCH LODGE, JUNIOR B—'51

BEAVER LODGE, JUNIOR A—'51

Fishing Is Good

FISHING has attained the status of a major activity at camp. Mr. Spangler takes charge of it and has done much to help and encourage the camp's budding fishermen. Individual instruction is given to the youngest Jr. C, who has never held a pole nor baited a hook, as well as to the experienced Senior and Master Camper who may wish to improve their skill in bait casting or fly fishing.

Every fellow will want to know the correct bait to use for different fish—how to play them, land them, and clean them—the best time of day to fish—how to hold a pole for trolling when you are alone in a boat—how to care for equipment and practice safety on all trips.

MAINE IS FAMOUS for its trout, salmon, white perch, bass, and pickerel fishing. The white perch fishing on Lake Webb is considered the finest in the state. It is not unusual for boys to catch twenty-five to thirty in an evening's fishing. The fish average in weight from one-eighth to one-quarter pound. They are delicious eating and furnish many a fine breakfast for Kawanhee boys.

EQUIPMENT—Each fisherman must provide his own rod, reel, line and lures. Those who prefer to purchase their equipment in camp will find suitable tackle at the camp store. We do not recommend expensive equipment.

A BIG FISH FOR A SMALL BOY
5-lb. bass caught from the main dock by Gardner Defoe. For a while it was a question whether the bass would be pulled out or Gardner pulled in. He landed it without a net.

A FINE STRING OF WHITE PERCH
The best fishing is after supper. The boys go out in two or three boats, with Mr. Spangler in charge, and fish until taps.

ANOTHER BEAUTY
... That didn't get away.

AN EARLY MORNING BIRD HIKE WITH MR. KIEFER

Learning From Nature

KAWANHEE is unusually rich in natural beauty, with plant and animal life in abundance. Lake and hillside, with shaded paths and tangled woodland provide places to explore the secrets and beauty of Nature.

"Learning by doing" is the Kawanhee way and nowhere in camp is this more observed than in the Nature department. Acquaintance with wild life is gained by caring for pets in the camp zoo, pursuing birds on trips afield, and observation of the beaver colony a short distance from the camp.

In the Nature Museum familiarization is begun by means of the Electric Bird Panel, the Ant Palace and Coal Mine, and by means of aquariums and herbariums filled by the boys themselves and watched through every stage of development.

Overnight trips are made occasions for study of the stars, simplified by the "stellarium" in the Nature Museum which flashes familiar constellations later to be identified under the open sky.

A well marked Nature Trail extends nearly a mile through a beautiful wooded section of the camp. Here under stalwart trees, the ground pine and Indian pipe, the red fruits of the bunch berry, and the blue of Clintonia are found in profusion. Ferns, together with mosses and lichens, the products of centuries, cover

THIS IS THE WAY IT'S DONE
Many interesting collections of moths and butterflies are prepared for mounting in the latest approved method.

THE NEW NATURE BUILDING

New Interests

the rocks and brook bed, and all are made part of a carefully designed project to acquaint the observer with the wonders that Nature has to offer him who will but pause to read.

Microscopic observations, study of ferns and fungi, moth and butterfly propagation, nature photography and other fields of original research voluntarily chosen, are open to boys who wish to become "Naturalists," the highest honor the department confers. Such activities look beyond a single summer's enjoyment. They aim to quicken appreciation, awaken interests and develop resources which will in many cases continue throughout the boy's life, adding to his accomplishments and contributing habits which may yield rich returns in later years.

THE NEW NATURE BUILDING—The Ma Frank Nature Memorial Building was completed during the season of '48. With its convenient arrangement and splendid equipment, Kawanhee boys are assured a most interesting and profitable experience in all phases of nature study which, under Mr. Kiefer's able leadership, has become one of the most worthwhile and deservedly popular of Kawanhee activities.

Adjacent to the large work room, toward the north, is the lapidary equipment and woodworking room, while the room toward the south contains the Nature Director's desk, plant presses, a work table for dissection, insect-mounting and microscope work.

SPECIAL LABORATORY ROOM

SECTION OF MAIN WORK ROOM

The main room, 24x26, contains four large tables for general work. The electric stellarium (star-chart) is suspended near the ceiling.

MAKING PLASTER CASTS OF FISH CAUGHT IN THE LAKE

THE LAPIDARY SHOP

Mineral Mining Trips

SPLENDID collections of minerals are mined at Newry, where the boys go to add to their rock collections. Each specimen is identified, carefully labeled, and placed in mineral boxes which the boys make in the camp shop. The mineral wealth of Maine is yet untapped, and thousands of dollars worth of semiprecious stones are taken annually from its hills and mountains. Every boy has the thrill of finding beautiful green tourmalines and clear quartz crystals. The more fortunate may emerge with pieces of beryl, rose and smokey quartz, green, black, and pink tourmaline or even amethyst.

THE NEW LAPIDARY SHOP—The strange fascination that rocks and minerals possess for many boys is given added stimulus by the new lapidary equipment installed at Camp Kawanhee as a part of the Nature Department's expanding interest in geology and mineralogy. This equipment, possibly the only setup of its kind in any boy's camp in the country, consists of diamond saws for slicing or cutting, horizontal metal disks for rough grinding and a series of wood and metal wheels for polishing.

Here, in addition to the collecting and classifying of Maine's abundant variety of semiprecious stones, the embryo geologist may have the unusual experience of cutting, shaping and polishing his treasures to bring out hidden beauty and unsuspected colors.

JUNIOR C's SPEND MANY HAPPY AND PROFITABLE HOURS IN THE NATURE BUILDING

MAKING CAMP FOR THE NIGHT

Special Trips

FEW camps, if any, are surrounded with the wide range of trip possibilities found at Kawanhee. The very vastness of the surrounding country, from the rockbound coast of the Atlantic to the towering inland mountains, provides a variety of interesting trips that appeal at once to every normal wide-awake boy.

There are long canoe trips, shooting rapids that are thrillers and real Maine guides, famous throughout the

country—spectacular mountain trips, rugged peaks that rise above the clouds, and campfires by the trail at night—fishing trips of all descriptions, and on the banks of Swift River, we pan for gold like the old "Forty-Niners." Then there are seashore trips for surf-bathing at Pophams Beach—only a short ride from camp, and a sail in a 60-ft. twin-screw vessel to historical Monhegan Island—sixteen miles out from the mainland.

THE NEW CAMP TRUCK

The new truck was custom-made especially for Kawanhee. It has an all-steel body, including the top, and accommodates 21 boys.

EACH BOY HAS HIS ASSIGNED TASK ON PORTAGES

Canoe Trips

THE KENNEBEC RIVER TRIP For the boys who are interested in an all-river trip, the cruise down the Kennebec is hard to beat. It is divided into two trips. The Upper Kennebec is reserved for Seniors and Master Campers, only. It is fast water all the way and more spectacular, even, than any stretch of equal distance on the famous "Allegash." Boys who are looking for a real thrill will find it here.

The Lower Kennebec is a three-day trip of forty miles and especially suitable for the younger boys in camp who are not ready physically for the more difficult trips. There is plenty of wild country for the first twenty miles and some good stretches of fast water to tempt the adventurous spirit of any boy.

THE MOOSE RIVER TRIP This is a three-day trip through wild country for the entire fifty miles. There's fine fishing—fast water and easy portages.

We put in on Moose River, north of Jackman and paddle downstream to Mooshead Lake, taking out at Rockwood, or, the trip may be continued twenty miles down Mooshead to Greenville, where we are met by the camp truck.

THE CHAIN-O-PONDS TRIP—A three-day trip especially planned for Jr. B's and less experienced campers. It is eighty-five miles from camp and passes through a country of dense forests and rare scenic beauty. We reach the Ponds in the early afternoon and enjoy a short paddle before supper. Tents must be pitched and bough-beds made comfortable for the night. The following morning a round-trip cruise of the Ponds is made and we break camp in time to reach Kawanee for the four o'clock swim.

THE RANGELEY LAKES TRIP—This trip of three or four days on the "Rangeleys" has been a "wilderness" classic for over half a century. There's ideal fishing, superb scenery and an elevation throughout the trip of 1,500 feet above sea-level.

We put in at the village of Rangeley, on Rangeley Lake, about thirty-five miles from camp. It is an eight-mile paddle to Oquossoc where our canoes come out for a mile and one-half carry, by truck, to Haines Landing on Mooselucmeguntic. This lake is the largest in the Rangeley chain and includes a twelve-mile paddle to Upper Dam and a carry of an eighth of a mile into Upper Richardson Lake. In the river, between these two bodies of water, is the famous "Upper Dam Pool," renowned the world over for trout and salmon.

ALL PACKED FOR A TRIP TO THE MOUNTAINS

Mountain Trips

THERE are many opportunities for mountain climbing at Kawanhee for boys who enjoy healthy, vigorous life in the open. Within a radius of only eight miles, five mountain peaks—nearly 4,000 feet high cut across the horizon. Two of them, West Mountain and Mt. Jackson, are blind-trail trips and take "all you've got" to scale them. Later in the season, if you are in good condition and want something really spectacular, there's Mt. Katahdin, a mile high; Mt. Spec, over 5,000 feet, and Mt. Washington, 6,293 feet above the sea.

MT. BLUE—A short distance from camp—and easily climbed over a trail one and one-half miles in length. At the top is a forty-foot observation tower where a friendly Forest Ranger always welcomes our campers, allowing them to use his overnight cabin if they wish.

BALD MOUNTAIN—This is a favorite trip for many of the younger boys in camp for their first year—especially those who wish to "train" for the more difficult climbs later in the season. Old "Bald" is well named because its peak is entirely barren of trees. Supper is usually cooked on the top. We return to camp in time for taps.

TUMBLEDOWN MOUNTAIN—Across the lake from camp is, perhaps, the favorite local trip among the Kawanhee tribe. Many boys stay overnight by the shore of Crater Lake near the top and enjoy a crawl through "Fat Man's Misery" and the "Lemon Squeeze."

MT. BIGELOW—This trip of two days adds a touch of romance and history to the scenic beauties that are revealed from its summit. History tells us that Major Bigelow, a member of Benedict Arnold's expeditionary force that marched through the Maine wilderness to Quebec during the Revolutionary War, climbed this mountain, hoping to see the Canadian city from its top. It is sixty-five miles from camp.

TRAIL BLAZING TRIP TO WEST MT.—For a period of years we have been planning to blaze a trail directly across the lake from camp to the top of West Mt.—a distance of six miles.

We will be away from camp two or three days at a time and will follow a compass to get our bearings. Each boy will carry an ax, hunting knife and other equipment needed for sleeping out. One or two good camping sites will be built, and a good spring dug out and made ready for use.

The plan now is to row across the lake and follow the old wood-road from the beach to the road around the lake. From here on, we will be "on our own." A hasty survey will first be made to the top of the mountain, blazing a few trees as we go along. On the return trip, the trail will be smoothed up and carefully marked for future parties.

This trip will appeal especially to Seniors, Master Campers, and Junior Counselors, who love to "kick out" and rough it in the open. It's wild and rugged—a he-man trip all the way and chuck full of thrills and new adventure.

NEAR THE TOP OF MT. KATAHDIN

MT. KATAHDIN TRIP—For the boy with a venturesome spirit and a genuine love of the wilds, there is no trip in New England that surpasses the one to Mt. Katahdin, Maine's highest mountain, and declared by experienced mountain climbers *the most spectacular and beautiful elevation east of the Rockies*. Thrusting its spruce-clad slopes and rocky summit a mile into the clouds, this giant of the East is the first spot in the United States to greet the morning sun.

The trip takes from three to four days and covers a distance of nearly 400 miles. Enroute to the mountain we stop at Old Town, where we see the famous Old Town Canoe Factory and the Penobscot Indian Reservation nearby.

THE MT. WASHINGTON TRIP covers a period of three days. We camp at Mt. Madison Huts the first night out. The next morning we begin the long climb, scaling the peaks of several of the other Presidential Ranges, pass the Lake of the Clouds—5,000 feet above the sea and arrive at the Tip-Top House in the late afternoon—where we spend the night.

Mt. Washington, "*The Crown of New England*," rises 6,293 feet. There are higher mountains in the world but none in America has filled so large a place in popular favor as this majestic peak. People from all over the world climb Washington. From its summit one may enjoy the broadest view east of the Rockies.

THIS IS THE LIFE

BISCUITS FRESH FROM THE ROCK OVEN

A TIME FOR WORK AND A TIME FOR PLAY
Washing dishes at the Outpost Camp.

The Outpost Camp Trip on Swift River

THE three and four-day trips to the Outpost Camp on Swift River are of special interest to boys in the Jr. B, Jr. A and Sr. groups. This is the trip that every healthy, normal boy dreams about, long before camp opens.

Here, under the shadow of Tumbledown Mountain, is a real "back to Nature" camp. There are pup tents, a large main tent, a cook's tent for rainy weather, a spring hole where milk and other perishables are kept ice cold, and nearby, a good supply of firewood.

Every boy is thrown on his own in helping to maintain a clean and healthy camp. He assists with the cooking—washing dishes—sawing and splitting wood—fetching water from the brook, etc. His bed is as comfortable as he makes it. Many boys, however, bring sleeping bags.

The days are filled with fun, work and new adventure: There's gold-panning, building dams, trout fishing, tests to pass in scouting, exploring old lumber camps and beaver dams, capturing porcupines, blind-trailing up Tumbledown and, best of all, delicious meals cooked in the open, and roaring campfires at night.

BOY, O BOY, DOES THAT SMELL GOOD!
It won't be long now.

PANNING GOLD ON SWIFT RIVER

A thrilling and unique experience awaits every boy at Kawanhee! The first gold found in the United States was discovered not 15 miles from the Camp on Swift River. It is a most fascinating experience for a boy to hold a genuine miner's pan in his hands, just like the old "Forty-Niners," wash out a pile of pay dirt and pick out a few precious pieces of gold. We are looking forward with the keenest enthusiasm to renewing our search for gold during the coming season.

THE MESS TENT

Where ravenous appetites are completely satisfied

AN AFTERNOON OF FUN AT COOS CANYON

Enjoyed by boys at the Outpost Camp. Also, a favorite Sunday afternoon trip—about 15 miles from camp.

**CAUGHT ON THE DEEP-SEA FISHING TRIP
AT MONHEGAN**
The catch consisted mostly of cod and pollack.

Seashore Trips

MONHEGAN ISLAND TRIP—The Monhegan trip was one of the most interesting ones enjoyed last summer. Several boys are already planning to go again this year. We shall be away two nights.

We leave from Boothbay on the sixty-foot twin screw boat, the *Balmy Day*. She's a trim little craft, and practically new. Captain Charles Wade is in charge.

Monhegan is one of those beautiful spots on the Atlantic—sixteen miles out from the mainland. It is two and one-half miles long and one mile wide and abounds in history, romance and new adventure. Captain John Smith landed here in 1610. Famous pirates have been known to use the island as headquarters for bloody battles.

We plan to visit Cathedral Woods, The Boars Head, and the old hermit on the adjacent islet of Manana. Also, another thrilling deep-sea fishing trip is on the schedule. The trip last year was a big success and exciting from start to finish. All bait and tackle were furnished by the Skipper.

THE SURF-BATHING TRIP—The trip to Popham Beach for surf-bathing appeals especially to boys in the Junior B and Junior A groups.

We leave camp after breakfast and reach the coast around noon. Every boy enjoys the fun of plunging into rolling breakers and running and digging in the clean white sand. If the tide is out, we explore for shells, starfish, jellyfish and crabs. At night we sleep in an old stone fort near the beach and cook our meals within its walls.

SURF-BATHING AT POPHAM BEACH
Considered one of finest beaches on the Atlantic. It is 80 miles from camp.

AGE DISTRIBUTION

Jr. A—12 and 13 yrs. Senior—14 and 15 yrs. Jr. C—7-8 and 9 yrs. Jr. B—10 and 11 yrs.

Creative Program and Camp Honors

THE Creative Program at Kawanhee is a free choice program of interesting, constructive things to do, so fascinating to boys, yet quite entirely free from over-organization and routine. Each boy experiences the satisfaction that comes from the successful completion of worthwhile tasks. Such experiences develop confidence and self-reliance, and stimulate boys to go on and on toward the accomplishment of new goals and new achievement.

The choice of interests and objectives are definite and clearly defined. Six major activities—**Athletics, Aquatics, Handicraft, Nature, Sailing and Campcraft**, with many contributing activities make it possible for boys with varied interests to enjoy a safe, well-rounded program for the summer.

Each major activity is divided into three **Achievement Levels** which the boys endeavor to win. Each level is carefully graded to meet the needs of the youngest as well as the oldest boy in camp.

In addition to the natural interest and enthusiasm which every normal boy has in the activities, the stimulus to complete the level requirements is en-

hanced through the honors which are presented at the Saturday night campfires to the boys who have completed levels during the week. This is one of the prized moments in a camper's life when recognition is given for a "job well done." Those winning the first level in three or more major activities are awarded a beautiful leather plaque upon which the honors won during the summer are appropriately arranged.

Eleven Boys Fill Achievement Plaques—1951—It is a pleasure to give special recognition to the boys who completed their plaques during the past season.

AN OVER-NIGHT SAILING TRIP GETS UNDER WAY

The boys drop anchor five miles up the lake near a secluded beach. Duffle is brought ashore and beds made for the night. A mess of freshly caught perch, or a 3 lb. bass or salmon—cooked over red-hot coals, completes a thrilling day, never-to-be-forgotten in the lives of healthy, red-blooded boys.

Achievement Levels Completed—1951

These boys won new Achievement Plaques. As the list will show, all of them improved considerably upon the required minimum of the first level in each of three activities.

The boys in this group added levels to plaques won in previous years. In many cases these were the same ambitious boys who earned new plaques this past season.

FISHING FROM THE CAMP DOCK

Every now and then some boy lands a prize and becomes a hero throughout the camp. Perch, bass and pickerel are frequently caught here.

nts Who Have Visited Kawanhee During the Past Few Years

Kawanhee Inn for Parents

Two-Half Mile From Boys' Camp

EXCELLENT ACCOMMODATIONS are provided at Kawanhee Inn for parents who wish to visit their boys in camp and, at the same time, to enjoy a delightful vacation in the Maine woods. Some drive their boys to camp and remain to enjoy the early trout and salmon fishing. Others are in camp from six to eight weeks, while many arrive a week or two early in August and drive their boys home at the close of camp. Boys subject to hay fever usually remain with their parents until the middle of September.

INFORMAL, FRIENDLY AND INVITING—The Inn is not a fashionable summer resort. Guests dress in comfortable going clothes and live the simple life. The entire organization and development appeal to men and women of refined taste and discrimination who desire a vacation of rest, relaxation and wholesome enjoyment. The charm and beauty of the surrounding country have won the praise of many world travelers.

THE FOOD is unsurpassed and is all home cooked. A dietitian is in charge. Special diets for children or adults are arranged without extra charge. The Inn has always been noted for its delicious food.

RECREATION—At Kawanhee you can rest undisturbed or participate in a wide variety of sports. There's good fishing, delightful bathing on a beach of fine white sand—ideal and safe for small children, tennis, rowing, canoeing, sailing, mountain climbing, excellent roads for motoring, and Maine's finest golf course only 20 minutes drive from the Inn.

THE INN OPENS June 28 and closes September 20. Reservations may be made by the week, month or the entire season. Rates are very reasonable and include board and lodging—maid and chore-boy service. Boats may be rented by the day, week, or season. Those desiring accommodations should consult the directors of Camp Kawanhee for detailed information and reservations. A beautifully illustrated folder will be mailed upon request.

KAWANHEE INN—VIEW FROM THE SHORE OF THE LAKE

The Inn is splendidly equipped. There are large lounging rooms, massive fireplaces, screened dining porch, fourteen bedrooms, comfortable twin beds, private baths and other conveniences which you would expect to find in your own home. An open porch for sun baths is enjoyed by the guests.

PRIVATE COTTAGES—AMONG THE PINES

These cottages are the "last word" in camping comfort. Some accommodate three people, others are equipped for five. There are twin beds, modern bath facilities, electric lights, living room with stone fireplace, comfortable chairs, reading lamps and screened porches.

Leadership

PARENTS are vitally concerned with the associates their boys have, the fellows they play with, the teachers at school, the men they admire and want to be like.

At camp a boy eats and sleeps with his lodge counselor. He works and plays every day with some activity leader. The game he wants to know and the man who coaches it are knit together in the boy's thought inseparably. If the man is the right kind, the best that is in the boy responds. Clean sportsmanship, grit, the impulse to help the other fellow—all the finest traits of personality come out in a boy when he sees them in a favorite counselor.

That's why Kawanhee is concerned about its choice of counselors. That's why one camp is more successful than another, more helpful, more stimulating in developing the finest in fine boys.

There is one man for every five boys enrolled.

Master Campers—1951

The Master Campers group is organized for boys fifteen and sixteen years of age who wish to continue their camp training. It is the beginning of the Counselor Training Course at Kawanhee and is limited to twelve boys.

The boys participate in all phases of the regular camp program in addition to one or two hours of definite responsibility each day. They assist in lodge supervision, when the regular Junior Counselors are away, and in the activities in which they are interested.

Some of our finest Junior and Senior Counselors began their camp training as Master Campers at Kawanhee.

CROW'S NEST LODGE, SENIORS—'51

The Wigwam

Under the talented and skillful leadership of Mr. Campbell Scarlett, and a staff of loyal assistants, the official camp paper, *The Wigwam*, was published last summer for the sixteenth consecutive season.

Copies are mailed to parents each week during the season. Information pertaining to each boy's achievements in the different activities, a digest of the weekly Camp Log (written by Mr. Scarlett) and other information of special interest to parents are mentioned in *The Wigwam*.

GREEN BARN LODGE, MASTER CAMPERS—'51

Rates

*All-Inclusive—For Scheduled Camp Activities**

| | |
|--|----------|
| Boys 6 to 15 years old | \$400.00 |
| Master Campers—15 and 16 years old | \$375.00 |
| Pre-Camp and Post-Camp Season, per day | \$5.00 |

The tuition is payable as follows: \$10.00 with the application and the balance by July 1st. By special arrangement the balance may be paid in equal payments by July 1st and August 1st.

Incidentals and Spending Money—It is recommended that not less than \$25.00 be deposited with the camp for incidentals. This amount may be increased or decreased at the parents' discretion.

This account provides for an allowance of twenty-five cents per week for boys under twelve years, fifty cents for boys twelve years and older, and such incidentals as candy, ice cream, stationery, stamps, postcards, fishing equipment, camera and flashlight supplies, haircuts, toilet articles, laundry, canoe paddle (see page 17), fishing license, shop supplies, etc. At the end of the season a financial statement of each boy's account, together with a check covering any remaining cash balance, will be mailed the parent.

Tutoring—Under the direct supervision of experienced teachers we are able to handle all grade and high school subjects. The rate is \$2.00 per hour. Please notify the Directors before camp opens if tutoring is desired.

*The all-inclusive rate applies to the regular camp activities. The Mohegan Island Trip, Mt. Katahdin and Mt. Washington Trips, Golf and Tutoring are not included in this classification. Each boy must pay his own greens fees and transportation to and from the Wilson Lake Club. See the application blank for special trip expenses.

OUTBOARDS WERE POPULAR IN '51

ALL IN FUN

Lots of spirit but no harm done.

Special Information

Visiting Days for Parents—Kawanhee not only permits, but invites parents to visit camp any day and any time with the exception of the rest period, from 1:00 to 2:00. Ma Frank's cabin is usually the place where parents first report when entering camp. Parents vacationing at the Inn attend the Water Sports program, Camp Shows, Camp Fires, and the Sunday Morning Church Service in the outdoor chapel and the Vesper Service on the lake at twilight.

Parents Urged to Cooperate—Parents are earnestly requested not to send candy or sweets of any kind to their boys. Our food is well balanced and adequate. No boy at Kawanhee goes to bed hungry.

Smoking in Camp—The camp rules are as few as possible. Smoking, admittedly injurious to growing boys, cannot be permitted by the campers.

The Mail—Telephone and Telegraph Address—Camp Kawanhee, Weld, Maine—Phone 10—Ring 2

The Express Office is Wilton, Maine. Send all articles in care of Camp Kawanhee.

The Distance to Camp is only twenty-four hours via rail from Columbus and fourteen hours from New York City. There are several planes daily from Boston and New York—via Northeast Airlines to Portland.

Letters Home—Each boy must write a letter home on Wednesdays and Sundays. These letters are collected as the boys file in to supper. No letter, no supper, is understood by every fellow in camp.

Girls' Camp—One of Maine's finest camps for girls is located at Wilton, Maine, only twelve miles from Kawanhee. Sisters of Kawanhee boys attend there each year.

VESPER SERVICE

Held on the lake at twilight, boys and counselors gather in boats and canoes about this rugged old rock, located about a mile from the camp shore. The rock is known to all the boys as Bass Rock.

Sundays

THE religious life of Camp Kawanhee is non-sectarian. Sundays are spent quietly. Every fellow adorns himself in his cleanest "whites" before breakfast, and at 10:30 we assemble in our outdoor chapel among the trees by the shore of the lake. The service is simple and deals directly with the problems of a boy's daily life. Boys of Catholic faith attend church at Rumford, fifteen miles from camp.

Following the noon meal of chicken and all the "fixings," the usual rest hour is observed. The Sunday

letter is written and plans are made for short trips, sailing, tennis, golf, canoeing, etc.

Throughout the whole Kawanhee program there is an unobtrusive yet very positive religious influence. We seek leaders of broad sympathies, with an inspiring message for all, men who read "Sermons in Stone" and see good in all God's handiwork. Our camp chaplain understands the spiritual needs of boyhood, and enters into the physical and social life of the camp as one of its strongest leaders.

THE YOUNG BOAT BUILDER

When a boy completes a beautiful boat in the shop, there is no thrill that quite equals the satisfaction of placing 'er in the water for the first time and watching 'er sail away on an even keel.

The houseboat shown above was constructed by Master Campers. It was thoroughly calked, made water-tight, and equipped with four bunks. The boys anchored it to a reef in the lake and slept in it several nights during the season.

An Educator Tells of a Dad's Impressions of Kawanhee

By DR. REES EDGAR TULLOSS, *Former President of Wittenberg College*

ANY father who has watched the interested face of his son in a Kawanhee campfire circle, or has seen him in the midst of a group of attentive listeners in boats around Vesper Rock at sunset on a Sunday evening, or watched the head of a little swimmer making his way across the lake to qualify for water privileges, or looked with fatherly pride upon the awards on a plaque indicating the passing of successive levels of achievement in various fields, knows what it is to appreciate the values of his son's summers at Kawanhee.

To me, far more significant than the rare beauty of its environment, its excellent physical equipment, its exhilarating lake and mountain air, is the recognition of Camp Kawanhee as a place of ideals.

If every worthy institution is "but the lengthened shadow of some great man," we should expect Kawanhee to reflect the ideals and purposes of its founders and directors. Here they have built into actuality their fully developed conceptions of what a camp should be, and what a camp should mean, to boys. Here is a camp where good times fill all the hours, where every reasonable freedom is allowed, not as a privilege, but as a matter of right; but back of every phase of the whole well-rounded program—aquatics, athletics, woodcraft, nature study, shop, scouting, range, archery, dramatics—is the conception of youthful activity ordered in such a way as to build character. What I have

seen in the summertime growth of my own son, what other parents have told me as to what Kawanhee has meant to their sons justifies the statement that here is an effective influence in the development of worthy and enduring qualities of personality. That in the end, is what makes a camp worthwhile.

If there were space for it, one would write of counselors chosen not only for their knowledge of some form of camp activity, but for their understanding of boy life and problems, their leadership ability, their personal worth and ideals; of junior counselors themselves in part a product of Kawanhee training; of the Sunday morning talks by Dr. Carl E. Elmore, and his influence throughout the camp; of the impressive Sunday evening service, of the moral tone and positive religious spirit of the camp as a whole; of the comments and confidences of sons revealing the learning of lessons of unselfishness, obedience, dependability, perseverance, confidence, courage, manliness.

Five hundred words allowed me to express appreciation, heartfelt gratitude, recognition of high ideals faithfully adhered to, of values of lifelong significance! Totally inadequate! To put it all in one sentence, Kawanhee must be placed along with home and church and school as agencies which have helped to shape rightly the ideals and attitudes of my son.

MANY FINE SWIMMERS ARE DEVELOPED AT KAWANHEE
We are proud to state that Mike Peppers, the famous Swimming and Diving Coach at Ohio State University, was Director of Aquatics at Kawanhee for four years.
He was the Olympic Diving Coach in 1948.

CAMP KAWANHEE—1952

GENERAL DIRECTIONS

Personal Outfit—No expensive special costume is required. Clothing which a boy would customarily wear at home during the summer proves quite satisfactory. For general daily wear we recommend the following:

2 Cotton Gym Shirts—White or Gray (Preferred)

2 Pairs Shorts—Khaki or Gray Drill (Preferred)

Mark All Clothes with woven name tapes or with a good grade of indelible ink. Place adhesive tape in shoes and mark plainly. There will be ample room for all clothes in the lodge.

Ship by Express—If there is not room in the trunk for blankets, sheets and pillow, ship in duffle bag or carton by June 25, via American Express, in the boy's name, to Wilton, Maine, care of Camp Kawanhee.

Directions for Traveling and the shipping of trunks, etc., will be mailed the camper at least two weeks before camp opens.

Steamer Trunks are preferred. They are kept under cots. List the contents and post on inside of lid.

Two Trunk Keys should be provided—one to be retained by the boy and the other tagged with his name and mailed to the camp or handed to the directors at the station on the day of departure.

NECESSARY ARTICLES

- | | |
|---------------------------------------|--|
| 1 Pillow | 2 Pairs jeans or white pants (For Sundays) |
| 3 Pillow cases | 2 White linen blouses or shirts (For Sundays) |
| 4 Sheets, single, or 2 double | Old trousers for in camp |
| 4 Heavy blankets | 2 Wooden or bamboo chairs |
| 3 Pairs pajamas | Fishing tackle—Pole, line, reel and lure |
| 1 Bathrobe | Cooking kit |
| 2 Pairs sneakers | Canteen |
| 1 Pair hiking shoes | 6 Bath towels |
| 1 Pair rubbers to fit | 1 Pair extra pants |
| 3 Suits underwear | 1 Sweater |
| 1 Poncho or raincoat | Toilet articles |
| Rubber sheets and pads (If needed) | Handkerchiefs |
| 2 Bathing suits | |
| 1 Laundry bag | |

SUGGESTED ARTICLES

Camper may add to or subtract from the list as the individual case may require.

- | | |
|--|---|
| Clothes bag for putting away travel clothes | Scout hatchet (For juniors and seniors only) |
| Camouflage pants | Fourstar gun |
| Leather jacket or blazer | Camera and films |
| Woolen sweat sock for hiking* | Compass |
| Sweatshirt | Tennis racket and balls |
| Books | Golf clubs and balls |
| Sailboats | Baseball glove |
| Collapsible drinking cup | Flashlight, extra batteries |
| Stationery including: Stamped & addressed envelopes† Straps for packs* | Musical instruments (For camp orchestra) |

*For hiking trips in the mountains
†How write two letters home each week

The Camp furnishes baseballs, bats, and hiking gloves

APPLICATION

Camp Kawanhee --- 1952

Full Season—June 30 to August 25
Application Fee, \$10.00

I wish to enter my son in CAMP KAWANHEE for the season of 1952. Enclosed find the application fee of ten dollars (\$10.00) to be applied on the tuition.

In case of dismissal, or departure on account of voluntary withdrawal, there will be no refund of camp fees for the time reserved. If, however, unforeseen circumstances, such as sickness or accident make it necessary for a camper to withdraw before the expiration of the term for which he is enrolled, the tuition loss will be shared equally by the camp with the parent. There will be no reduction in tuition for slight delays in entrance or departure.
