MAROON LEAD SHRINKS AGAIN Hadley, Junior C's Top Scoring

As the race for points entered its final lap, the Greys were once more crowding the ever leading Maroons. On August 16, the Maroons' advantage was only 393 points, for on that date the score stood: Maroons, 10,470½; Greys, 10,077½. The question of which would be the ultimate victor was therefore wide open, for the difference of a few hundreds could easily be swallowed up in the thousands of points which the last days of competition would produce.

The greater part of the score, of course, has come from the levels, and a disproportionately great number of the levels has come from the Junior C's. There are only twelve boys in this youngest of the four divisions, but each of seven of them has already passed eleven levels worth 300 points or more. One Junior C, H. Schwarzell, has twelve levels to his credit, worth 365. Only one other camper, a Senior, can surpass this scoring record. R. Hadley has passed ten levels for 315 points, but the addition of J.L.S. and the summer's most productive work in Scouting undoubtedly makes him the leading contender for the title of High Point Winner. The other two divisions are trailing far behind the Junior C's. Of the Junior B's, only four have passed as many as nine levels. J. Alexander and S. Denison have both won 300 points with their nine apiece.

Baseball Upsets: Tigers Taste First Meat, Ford Stalled

The final round of baseball games played in the Senior League produced one big surprise. Ben Hadley's Tigers won their first game, humbling the once proud Braves to the tune of 15 to 10. The other games went according to schedule. The undefeated Indians trounced the Phillies, 11 to 2, and the Yankees disposed of the Red Sox, 6 to 4.

The Junior games of the week also brought about a major upset. Byron Ford's supposedly invulnerable nine stubbed their toes when they played Sengelmann for the second time, going down 16 to 2. Price's team defeated J. Black's, 11 to 8.

Blueberry Pickers on Bald Baffled by Heavy Lunch

By D. FLUHARTY, JUNIOR C

Wednesday morning when we were getting ready for inspection, Bates walked into the Falcon Lodge with the wonderful news that we were going to climb Mt. Bald and pick blueberries there. We went up the hill, the Eagles too, and climbed into Bateman's Bouncing Buggy. Herb Erf drove us over to the Shop for gas. After we got the gas, Bates got in and drove us to Mt. Bald.

When we got there, Bates gave us a couple of warnings and we started to hike up Mt. Bald. When we reached the top, we wondered what made the lunch bag so heavy. It turned out that someone had put two big rocks in our lunch bag for a joke.

Immediately everyone began searching for blueberries. We picked a lot of blueberries and we were rewarded the next day with the good pies that Emma made from them. It was a wonderful trip.

Grey Canoe Wins Another Meet, A's and B's Wield Paddles

The water meet of August 16 ended in another victory for the Greys. The final score was: Greys, 78½; Maroons, 66½. The Greys held the advantage from the beginning, but just before the war canoe race this lead was so slight that the winning of the meet again hinged on that event. It was a team of Junior B's and Junior A's that triumphantly captured it for the Greys on this occasion.

The winners of first places in the various events were as follows:

Junior C and Senior Steeplechase....
J. Schwarzell, J. Onderdonk, M.
Jr. C Combination Race..L. Weiser, G.
Jr. B Freestyle.....P. Bauer, M.
Jr. B Canoe Doubles.....
N. Gest, S. Denison, M.
Jr. A 2-man Freestyle.....
C. Day, D. Hedges, M.
Jr. A Overturn-canoe Race.....
C. Robinson, G.
Senior 100-ft. Breaststroke.....
R. Appleman, G.
Senior Canoe-tilting Contest (4 heats)
J. Loveless, M., D. Crandall, M.,
M. Griley, G., Tie; G. Defoe, G.,
C. Wright, M.
War Canoe Race (Jr. A and Jr. B)...
Grey Team

Trip to Popham Makes Full Day, Hot Dog Surplus Encountered

By J. REYNOLDS, JUNIOR B

Tuesday morning, August 12, at about 9 o'clock, the Popham Beach trip went out in a school bus and all the counsellors' cars that could be collected. It was a long, hot ride to our destination on the Maine coast above Portland. We reached it about 12:30 and stopped at the old fort. We explored for a while and then had lunch. Sixty-two boys crowded the line for cheese and ham sandwiches.

After lunch, we climbed a small hill. We saw two old dungeons and finally came to a lookout tower. Several boys went ahead to the Commando-training course which had proved to be so interesting the year before, but found it wrecked. When we reached the bottom of the hill, we found that the cars had moved from the fort to pick us up.

When we were ready, we went in swimming in the ocean. That was the most fun of all. While we were swimming, we saw two porpoises swimming across the ocean toward an island.

Meanwhile, Mr. Raymond Frank had gone down to fix the fire for supper. For supper we had hot dogs. Mr. Frank had had quite a surprise when he stopped in Dixfield for the hot dogs on the trip down. Instead of the 150 hot dogs he had ordered, 150 lbs. of hot dogs were waiting for him. Of course, he left some in Dixfield and took 200, which we ate. Some ate five and some ate six.

As the sun set in the west, we started home from a wonderful trip.

Camp Group Visits Monhegan, Voyage New to Kawanhee

By A. TULLY, JUNIOR B

We started out on our trip to Boothbay and Monhegan Island on Monday, August 11. There were fifteen boys and Ethan Davis with Bates in the Bouncing Buggy. We drove along until we came to a gas station, where we picked up some road maps. Then we drove on until we reached the outskirts of Boothbay. The Commissioner of Schools gave us permission to camp on the Boothbay athletic field.

Camp Het up about Wrestling, Burns Hot on the Mat

By E. HAMBLIN, JR. COUNSELLOR

During the later part of July, Mr. Burns started a class in wrestling for the Senior side of camp. At that time, it was wondered how much it would interest the boys. It had been so many years since there had been regular wrestling instruction in camp that it could almost be considered as a new sport. The class quickly proved to be a success. Because of the interest which the Senior side of camp showed, it was decided to give the Junior side a chance to participate in the wrestling instruction as well. Mr. Burns says that the object of the instruction is to teach the boys the fundamentals of wrestling. At first the class was scheduled for the second period in the morning. Because the Life Saving classes took place at this time, the period was changed to the first in the afternoon.

Mr. Burns is a very able instructor in wrestling, a fact which is explained by his past experience in the sport. He was in collegiate wrestling for three years, and in that time he lost no matches. He then went into professional wrestling for five years. Out of his more than three hundred matches in the period of eight years, Mr. Burns lost only three matches.

Three More Pass J.L.S.

Three more campers have successfully passed their Life Saving tests and won their J.L.S. certificates. They are G. Kerr, R. McCurdy and D. Savelle.

Canoe Trip Explores Kennebec

On August 14, the summer's only Kennebec trip began. The party consisted of fifteen campers, two Junior Counsellors, Mr. Nickerson, Mr. Bateman and Mr. Warnbaugh. After traveling to the Forks in the truck, the canoes were put in there that afternoon, and the group went down six miles of white water to camp at Bates Landing. Friday morning was devoted to individual sallies in the rapids and to watching a "rear crew" of loggers cleaning out logs after the spring drive. In the afternoon, the party traveled by truck to Moxie Falls and the Hulling Machine on the upper Kennebec, and descended the six miles of white water again in the canoes. Saturday the expedition broke camp, went down the river four miles to the ferry where the canoes were taken out, drove to Madison for lunch and so returned to camp.

Monhegan Island Trip (Continued)

We pitched our tents and then drove into Boothbay to do some sight-seeing. Then we came back and went to bed.

The next morning we got up, had our breakfast, and packed our things in the Buggy. We arrived in Boothbay and went sight-seeing until it was time to get on the boat. It was the *Balmy Days*, a 60-foot twin screw motor sailer and its skipper's name was Charlie Wade. Then we sailed sixteen miles out to the island of Monhegan. On the way, some of us were a bit seasick.

We took a short swim after we landed on the island and then had lunch behind the Monhegan school house. After that, we had time to buy a few souvenirs and then we had to get back on the boat.

When we were back in Boothbay, we had a soda and then went to East Boothbay where we had our suppers. Then we set out for camp. This was a new trip for camp and we enjoyed it very much.
